Background:

Current law prohibits the use of studded tires between April 1 and November 1. The use of studded tires between April 1 and November 1 is a traffic infraction subject to a \$101 fine. Any tire studs on tires offered for sale in Washington must be "lightweight tire studs."

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

Summary of Bill:

A vehicle may be equipped year round with tires that have retractable tire studs so long as the tire studs: retract below the tire wear bar; and, are only used between November 1 and April 1. Retractable tire studs are exempt from the provisions that require tire studs offered for sale in Washington to be "lightweight tire studs."

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony:

(In support) The studs on the tire are retractable so there is no need for having two sets of tires. Between April 1 and November 1, you retract the studs. During the time it is legal to use studs, you press a button which pushes the tire studs beyond the tread to provide traction when required. The cost of the tires will be approximately 35 percent higher than regular tires, but you only need to have one set of tires instead of one set for winter driving and then a regular set of tires for between April 1 and November 1. Idaho and Montana are working on similar legislation.

(Opposed) None.

Persons Testifying: John M. O'Brien, Q Tire.
