Treasurer's service fee is established by the State Treasurer and allocated uniformly across all subject accounts. Revenue generated by the State Treasurer's service fee funds the operation and administration of the State Treasurer's office. Historically, revenue generated by the State Treasurer's service fee in excess of the amounts necessary to fund the State Treasury's operating costs have been transferred to the General Fund. Certain other accounts retain eighty percent of the interest income they generate with the remaining twenty percent being credited to the state General Fund.

Summary of Substitute Bill: Transportation accounts that currently retain only 80 percent of the interest income they generate will instead retain 100 percent of the interest income they generate and will be subject to the State Treasurer's service fee.
