

# SENATE BILL REPORT

## SSB 5207

---

---

As Amended by House, April 18, 2007

**Title:** An act relating to a study to evaluate the imposition of a fee on the processing of shipping containers, port-related user fees, and other funding mechanisms to improve freight corridors.

**Brief Description:** Concerning a study to evaluate the imposition of a fee on the processing of shipping containers, port-related user fees, and other funding mechanisms to improve freight corridors; creating the freight congestion relief account.

**Sponsors:** Senate Committee on Transportation (originally sponsored by Senators Haugen, Murray and Spanel).

**Brief History:**

**Committee Activity:** Transportation: 1/24/07, 3/01/07 [DPS, DNP].

Passed Senate: 3/12/07, 41-8.

---

### SENATE COMMITTEE ON TRANSPORTATION

**Majority Report:** That Substitute Senate Bill No. 5207 be substituted therefor, and the substitute bill do pass.

Signed by Senators Haugen, Chair; Marr, Vice Chair; Murray, Vice Chair; Swecker, Ranking Minority Member; Berkey, Delvin, Eide, Jacobsen, Kastama, Kauffman, Kilmer and Spanel.

**Minority Report:** Do not pass.

Signed by Senators Benton, Clements, Holmquist and Sheldon.

**Staff:** David Ward (786-7341)

**Background:** The state has identified various and significant transportation projects that support enhanced freight mobility and capacity. Although the state has provided some funding for these projects, the level of funding is insufficient to provide the level of investment necessary to alleviate congestion levels that impact freight mobility and capacity.

**Summary of Substitute Bill:** The Freight Congestion Relief Account is created in the State Treasury. The Joint Transportation Committee (JTC) is directed to study container fees, port-related user fees and other funding mechanisms as a means to fund freight infrastructure improvements. The study is subject to appropriation and due to the Legislative Transportation Committees on December 1, 2007.

**Appropriation:** None.

---

*This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.*

**Fiscal Note:** Available.

**Committee/Commission/Task Force Created:** No.

**Effective Date:** Ninety days after adjournment of session in which bill is passed.

**Staff Summary of Public Testimony on Original Bill:** PRO: There should be a user fee to fund these critical investments and the return on investment should offset the costs. The system that comprises our state's freight infrastructure needs additional investment and, if possible, should include a component that would allow funding for projects adjacent to the state system that can demonstrably show significant ways to improve, link to, or offload pressure on state freight corridors.

CON: Seventy percent of containerized freight moving through Washington's ports is discretionary. Imposition of a fee on the processing of shipping containers will therefore divert container freight movement away from the state's marine ports. Critical family wage jobs will also be lost and a negative ripple effect will be felt throughout the state economy. Such a fee would also impair state export trade and Washington is a highly trade-dependent state. There are additional concerns that the fee is instead a tax and may well be unconstitutional in that it impedes interstate commerce, import/export activity and the movement of containerized cargo as governed by federal law and international treaty.

**Persons Testifying:** PRO: Larry Pursley, Washington Trucking Association; Doug Levy, Cities of Everett, Kent, Federal Way, Renton and Puyallup.

CON: Mark Johnson, Washington Retail Association; Rich Berkowitz, Transportation Institute; Randy Ray, Pacific Seafood Processors; Jim Wilcox, Wilcox Farms/Washington Food Industry; Pat Jones, Washington Public Ports Association; Tim Farrell, Port of Tacoma; Terry Finn, Port of Seattle; Gordon Baxter, Masters, Mates and Pilots and Inland Boatmen's Union; Larry McKillip, United Transportation Union; Mike Elliot, Brotherhood of Locomotive Engineers; Karol Kingery, Marine Engineers Beneficial Association; Bill Stauffacher, Burlington Northern Sante Fe Railroad; Tom Parker, Union Pacific Railroad; Scott Hazelgrove, Pacific Merchant Shipping Association; Rick Wickman, Columbia River Steamship Operators.

**House Amendment(s):** The intent section of the bill is eliminated and the Freight Congestion Relief Account is created in the State Treasury. The Joint Transportation Committee (JTC) is directed to study funding mechanisms as a means to fund freight infrastructure improvements. The study is subject to appropriation and due to the Legislative Transportation Committees prior to the start of the 2008 Legislative Session.
