

HB 1301 - DIGEST

Directs the department to provide technical advice and funding for, at a minimum, a demonstration project developed with a science museum that has an existing program designed to bring science education to children by way of a mobile learning vehicle. The demonstration project must enhance the existing program in a way that will provide traveling exhibits to help students learn about the connection between energy generation and clean air, the impact different sources of energy have on clean air and the environment, the scientific properties of energy, and the different uses of energy.

Appropriates the sum of four hundred forty-nine thousand nine hundred sixty-three dollars, or as much thereof as may be necessary, for the fiscal year ending June 30, 2008, from the general fund to the department of ecology for the purposes of this act.
