

**HB 1732 - DIGEST**

Declares that it is the policy of the state of Washington that research involving the derivation and use of human embryonic stem cells, human embryonic germ cells, and human adult stem cells from any source, including somatic cell nuclear transplantation, shall be permitted after full consideration of the ethical and medical implications of this research.

Requires any research involving the derivation and use of human embryonic stem cells, human embryonic germ cells, and human adult stem cells, including somatic cell nuclear transplantation, to be reviewed by the human stem cell research advisory committee, created in this act.
