

HB 1810 - DIGEST

(SEE ALSO PROPOSED 1ST SUB)

Directs that a pilot air monitoring project be initiated that supports the collection of pesticide drift data for use in evaluating the human health implications to workers and the public from pesticide drift.

Requires the department to submit a report to the appropriate committees of the legislature by April 1, 2009, including a summary of the air monitoring project findings and recommendations for public policies and program activities to protect human health from pesticide drift.

Provides that the act shall be null and void if appropriations are not approved.
