

**HB 1953-S - DIGEST**

(DIGEST AS ENACTED)

Requires premium reductions for older insureds completing an accident prevention course.

Provides that an eight-hour course meeting the criteria of the department of licensing may be offered via an alternative delivery method of instruction, which may include internet, video, or other technology-based delivery methods. An agency seeking approval from the department to offer an alternative delivery method course of instruction is not required to conduct classroom courses under this act.

Authorizes the department of licensing to adopt rules to ensure that insureds who seek certification for taking a course offered via an alternative delivery method have completed the course.
