

HB 1953 - DIGEST

(SUBSTITUTED FOR - SEE 1ST SUB)

Requires premium reductions for older insureds completing an accident prevention course.

Provides that an eight-hour course meeting the criteria of the department of licensing may be offered via an alternative delivery method of instruction, which may include internet, video, or other technology-based delivery methods. An agency seeking approval from the department to offer an alternative delivery method course of instruction is not required to conduct classroom courses under this act.
