

**HB 2534 - DIGEST**

Requires the best technology available in all exterior lighting in order to reduce energy consumption and protect the night sky.

Requires "fully shielded" lighting, with exceptions, and further regulates outdoor lighting.

Requires all new public and private outdoor lighting installed after July 1, 2008, in Washington to conform to the requirements of this act. All other public and private outdoor lighting must conform to the requirements of this act by July 1, 2012.
