

**HB 2660 - DIGEST**

Finds that the unique characteristics of eye care and the structure of insurance coverage relating to medical eye care and vision only services create confusion among enrollees of health plans and create inefficiencies in the delivery of medical eye care, and that creating a primary care medical home relationship for eye care patients will improve the quality of care and reduce the cost of eye care.

Declares that health plans covering primary medical eye care must conform to certain minimum requirements.
