

HB 3189 - DIGEST

Expresses the legislature's intention that the revised mathematics standards by the office of the superintendent of public instruction will: Set higher expectations for Washington's students by fortifying content and increasing rigor; provide greater clarity, specificity, and measurability about what is expected of students in each grade; supply more explicit guidance to educators about what to teach and when; enhance the relevance of mathematics to students' lives; and ultimately result in more Washington students having the opportunity to be successful in mathematics.
