

HB 3224-S - DIGEST

(DIGEST AS ENACTED)

Requires the regional transit authority serving the Puget Sound and Puget Sound regional council to survey existing studies and, to the extent necessary, conduct a feasibility study to provide information on whether commuter rail service between eastern Snohomish county and eastern King county, based on commuter needs, can be a meaningful component of the region's future transportation system.

Requires the council and authority to submit a report on the results of the feasibility study to the transportation committees of the house of representatives and senate by February 1, 2009.
