

SB 6134 - DIGEST

Recognizes the importance of investing in the state transportation infrastructure and, in particular, the importance of completing corridor improvements in congested areas. The public receives the greatest benefit when full corridor program improvements are completed, alleviating safety concerns and congestion at a systematic level. Category C funding is eligible to be used for substantial completion of the corridor projects listed in priority order in RCW 46.68.090. It is the intent of the legislature that such funding be allocated first towards substantial completion of these projects and then to complete other corridor needs as appropriate.

Declares that the following projects, listed in order of priority, are eligible for funding from the special category C account: (1) State route number 395, north Spokane corridor;

(2) State route number 18; and

(3) State route number 99, First Avenue South bridge.
