

SB 6340-S - DIGEST

(DIGEST AS ENACTED)

Creates an ongoing water system acquisition and rehabilitation program.

Requires the department to provide financial assistance through the water system acquisition and rehabilitation program. The program shall be jointly administered with the public works board and the department of community, trade, and economic development.

Requires the department of health, in consultation with the public works board, to prepare a report on the water system acquisition and rehabilitation program and make recommendations regarding strengthening the program and increasing the financial assistance provided through the program.
