

SB 6549 - DIGEST

(SEE ALSO PROPOSED 1ST SUB)

Creates the sustainable environment culminating project grant program to establish an organized regional approach to providing environmentally related culminating projects for students that connect school academics with natural resource career possibilities.

Declares that, subject to the availability of funds, the office of the superintendent of public instruction shall work with the nonprofit grant recipients under this act to implement a statewide online project database in which students can find project opportunities through connections with community-based and agency resources and where students can post their own projects and continue or build on the work of other student projects.
