14 Puget Sound Initiative - Nearshore Salmon Restoration (20062001)

15 The reappropriations in this section are subject to the following
16 conditions and limitations:

17 (1) The reappropriations are provided solely for efforts to restore
18 nearshore habitat and estuaries in Puget Sound. The department of fish
19 and wildlife must focus on restoring natural nearshore processes,
20 including protection and restoration of beach sediments and removal of
21 existing bulkheads.

22 (2) The department of fish and wildlife shall provide the Puget
23 Sound partnership, as created by chapter 341, Laws of 2007 the
24 opportunity to review and provide comment on proposed projects and
25 activities recommended for funding. This review must be consistent
26 with the funding schedule for the program.

27 (3) Funded projects require a nonstate match or in-kind
28 contributions. The department of fish and wildlife must seek to
29 maximize the amount of nonstate match from local, state, tribal, and
30 federal partners. Individual projects require a minimum 33 percent
31 cash or in-kind match.

32 (4) Eligible projects must be within Puget Sound and identified by
33 a salmon recovery lead entity or marine resource committee and
34 identified in a current salmon recovery, watershed, or nearshore
35 habitat restoration and protection plan.

(5) Project evaluation criteria must be developed by the Puget Sound nearshore steering committee. The criteria must be consistent with the technical guidance developed by the Puget Sound nearshore science team and shall be coordinated with the salmon recovery funding board to ensure that project funding and matching requirements are maximized to the greatest extent possible.

(6) The department of fish and wildlife must not utilize any amount of these reappropriations to support administration or overhead. Funding to support the administration of the funds and the implementation of selected projects must be obtained from the department of fish and wildlife's operating budget.

(7) In recognition of the urgent need to complete the Puget Sound nearshore ecosystem restoration project general investigation, up to \$1,446,000 of these reappropriations may be used to match federal funds implementing the cost-share agreement between the department and the United States army corps of engineers.

2 Trust Land Transfer (30000066)

3 The appropriation in this section is subject to the following
4 conditions and limitations:

5 (1) The total appropriation is provided to the department solely to
6 transfer from trust status, or enter into fifty year leases for,
7 certain trust lands of statewide significance deemed appropriate for
8 state park, fish and wildlife habitat, natural area preserve, natural
9 resources conservation area, open space, housing and essential
10 government services, or recreation purposes. The approved list of
11 properties for lease or transfer is identified in the LEAP capital
12 document No. 2009-2a, developed April 23, 2009.

13 (2) Property transferred under this section must be appraised and
14 transferred at fair market value. The value of the timber transferred
15 must be deposited by the department to the common school construction
16 account in the same manner as timber revenues from other common school
17 trust lands. No deduction may be made for the resource management cost
18 account under RCW 79.64.040. The value of the land transferred must be
19 deposited in the natural resources real property replacement account.

20 (3) Property subject to lease agreements under this section must be
21 appraised at fair market value. Lease terms must be fifty years with
22 options to renew for an additional fifty years. Lease payments must be
23 lump sum payments for the entire term of the lease at the beginning of
24 the lease. The department shall calculate such lump sum payments using
25 professional appraisal standards. These lease payments may not exceed
26 the fee simple purchase price based on current fair market value and
27 must be deposited by the department to the common school construction
28 account in the same manner as lease revenues from other common school
29 trust lands. No deduction may be made for the resource management cost
30 account under RCW 79.64.040.

31 (4) All reasonable costs incurred by the department to implement
32 this section are authorized to be paid out of the appropriations.
33 Authorized costs include the actual cost of appraisals, staff time,
34 environmental reviews, surveys, and other similar costs and shall not
35 exceed one and nine-tenths percent of the appropriation.

36 (5) Intergrant exchanges between common school and other trust
37 lands of equal value may occur if the exchange is in the interest of
38 each trust, as determined by the board of natural resources.

1 (6) Prior to or concurrent with conveyance of these properties, the
2 department, with full cooperation of the receiving agencies, shall
3 execute and record a real property instrument that dedicates the
4 transferred properties to the purposes identified in subsection (1) of
5 this section. Transfer and lease agreements for properties identified
6 in subsection (1) of this section must include terms that restrict the
7 use of the property to the intended purpose. Transfer and lease
8 agreements may include provisions for receiving agencies to request
9 alternative uses of the property, provided the alternative uses are
10 compatible with the original intended public purpose and the department
11 and legislature approves such uses.

12 (7) The department and receiving agencies shall work in good faith
13 to carry out the intent of this section. However, the department or
14 receiving agencies may remove a property from the transfer list based
15 on new, substantive information, if it is determined that transfer of
16 the property is not in the statewide interest of either the common
17 school trust or the receiving agency.

18 (8) The department shall execute trust land transfers that, after
19 the deduction of reasonable costs as provided in subsection (4) of this
20 section, eighty percent of the total value of transferred property is
21 timber value and is deposited in the common school construction
22 account. To achieve the eighty percent requirement, the department may
23 choose to lease properties originally intended as transfers.

24 (9) \$4,189,000 of the amount appropriated is provided solely for
25 fifty-year leases of development rights from timber lands at risk of
26 conversion to non-timber land uses purchased from appropriations in the
27 2007-2009 fiscal period.

28 (10) On June 30, 2011, the state treasurer shall transfer all
29 remaining uncommitted funds from this appropriation to the common
30 school construction account and the appropriations in this section
31 shall be reduced by an equivalent amount.

9 The reappropriation in this section is subject to the following
10 conditions and limitations: The reappropriation is provided solely for
11 the state board for community and technical colleges to assist public
12 community and technical colleges to manage unanticipated cost
13 escalation for projects bid during the 2007-09 biennium. Not more than
14 \$750,000 shall be made available to any single project and amounts
15 provided for this purpose must be matched equally from other resources.
16 The state board for community and technical colleges shall manage the
17 distribution of funds to ensure that the requesting college has managed
18 its project within the current appropriation through preparation of bid
19 documents and that the scope of the project is no greater than was
20 originally specified in the design. Prior to the office of financial
21 management approving use of a minor works appropriation as a match, and
22 its transfer to the project with unanticipated cost escalation, the
23 state board for community and technical colleges shall require the
24 college to describe what it has done to identify and develop
25 alternative resources for a match, and the specific minor works
26 projects that would be deferred as a result of the transfer. The state
27 board for community and technical colleges will report to the office of
28 financial management and the appropriate fiscal committees of the
29 legislature on the use of these funds.

1 **PART 6**

2 **MISCELLANEOUS AND SUPPLEMENTAL PROVISIONS**

3 NEW SECTION. **Sec. 6001.** (1) Allotments for appropriations in this
4 act shall be provided in accordance with the capital project review
5 requirements adopted by the office of financial management and in
6 compliance with RCW 43.88.110. Projects that will be employing
7 alternative public works construction procedures under chapter 39.10
8 RCW are subject to the allotment procedures defined in this section and
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 6002.** To ensure that major construction
13 projects are carried out in accordance with legislative and executive
14 intent, appropriations in this act in excess of \$5,000,000 shall not be
15 expended or encumbered until the office of financial management has
16 reviewed and approved the agency's predesign. The predesign document
17 shall include but not be limited to program, site, and cost analysis in
18 accordance with the predesign manual adopted by the office of financial
19 management. To improve monitoring of major construction projects,
20 progress reports shall be submitted by the agency administering the
21 project to the office of financial management and to the fiscal
22 committees of the house of representatives and senate. Reports will be
23 submitted on July 1st and December 31st each year in a format to be
24 developed by the office of financial management.

25 NEW SECTION. **Sec. 6003.** (1) To ensure minor works appropriations
26 are carried out in accordance with legislative intent, funds
27 appropriated in this act shall not be allotted until project lists are
28 on file at the office of financial management, the house of
29 representatives capital budget committee, and the senate ways and means
30 committee. All projects must meet the criteria included in subsection
31 (2)(a) of this section. Revisions to the lists must be filed with the
32 office of financial management, the house of representatives capital

1 budget committee, and the senate ways and means committee and include
2 an explanation of variances from the prior lists before funds may be
3 expended on the revisions.

4 (2)(a) Minor works projects are single line appropriations that
5 include multiple projects of a similar nature and that are valued
6 between \$25,000 and \$1,000,000 each, with the exception of higher
7 education minor works projects that may be valued up to \$2,000,000.
8 These projects can generally be completed within two years of the
9 appropriation with the funding provided. Agencies are prohibited from
10 including projects on their minor works lists that are a phase of a
11 larger project, and that if combined over a continuous period of time,
12 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
13 projects. Improvements for accessibility in compliance with the
14 Americans with disabilities act may be included in any of the above
15 minor works categories.

16 (b) Minor works appropriations shall not be used for, among other
17 things: Studies, except for technical or engineering reviews or
18 designs that lead directly to and support a project on the same minor
19 works list; planning; design outside the scope of work on a minor works
20 list; moveable, temporary, and traditionally funded operating equipment
21 not in compliance with the equipment criteria established by the office
22 of financial management; software not dedicated to control of a
23 specialized system; moving expenses; land or facility acquisition; or
24 to supplement funding for projects with funding shortfalls unless
25 expressly authorized elsewhere in this act. The office of financial
26 management may make an exception to the limitations described in this
27 subsection (2)(b) for exigent circumstances after notifying the
28 legislative fiscal committees and waiting ten days for comments by the
29 legislature regarding the proposed exception.

30 (3) It is generally not the intent of the legislature to make
31 future appropriations for capital expenditures or for maintenance and
32 operating expenses for an acquisition project or a significant
33 expansion project that is initiated through the minor works process and
34 therefore does not receive a policy and fiscal analysis by the
35 legislature. Minor works projects are intended to be one-time
36 expenditures that do not require future state resources to complete.

1 NEW SECTION. **Sec. 6004.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects that
10 are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes that
14 govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids have
19 been let on a project and it appears to a substantial certainty that
20 the project as defined in the notes to the budget document can be
21 completed within the biennium for less than the amount appropriated in
22 this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative history
26 that the legislature intended to define the scope of a project in a
27 different way.

28 (4) Transfers of funds to an agency's infrastructure savings
29 appropriation are subject to review and approval by the office of
30 financial management. Expenditures from an infrastructure savings
31 appropriation are limited to projects that have a primary purpose to
32 correct infrastructure deficiencies or conditions that: (a) Adversely
33 affect the ability to utilize the infrastructure for its current
34 programmatic use; (b) reduce the life expectancy of the infrastructure;
35 or (c) increase the operating costs of the infrastructure for its
36 current programmatic use. Eligible infrastructure projects may include
37 structures and surface improvements, site amenities, utility systems
38 outside building footprints and natural environmental changes or

1 requirements as part of an environmental regulation, a declaration of
2 emergency for an infrastructure issue in conformance with RCW
3 43.88.250, or infrastructure planning as part of a facility master
4 plan.

5 (5) A report of any transfer effected under this section, except
6 emergency projects or any transfer under \$250,000, shall be filed with
7 the legislative fiscal committees of the senate and house of
8 representatives by the office of financial management at least thirty
9 days before the date the transfer is effected. The office of financial
10 management shall report all emergency or smaller transfers within
11 thirty days from the date of transfer.

12 NEW SECTION. **Sec. 6005.** (1) It is expected that projects be ready
13 to proceed in a timely manner depending on the type or phase of the
14 project or program that is the subject of the appropriation in this
15 act. Except for major projects that customarily may take more than two
16 biennia to complete from predesign to the end of construction, or large
17 infrastructure grant or loan programs supporting projects that often
18 take more than two biennia to complete, the legislature generally does
19 not intend to reappropriate funds more than once, particularly for
20 smaller grant programs, local/community projects, and minor works.

21 (2) Agencies shall expedite the expenditure of reappropriations and
22 appropriations in this act in order to: (a) Rehabilitate
23 infrastructure resources; (b) accelerate environmental rehabilitation
24 and restoration projects for the improvement of the state's natural
25 environment; (c) reduce additional costs associated with acquisition
26 and construction inflationary pressures; and (d) provide additional
27 employment opportunities associated with capital expenditures.

28 (3) To the extent feasible, agencies are directed to accelerate
29 expenditure rates at their current level of permanent employees and
30 shall use contracted design and construction services wherever
31 necessary to meet the goals of this section.

32 NEW SECTION. **Sec. 6006.** State agencies, including institutions of
33 higher education, shall allot and report full-time equivalent staff for
34 capital projects in a manner comparable to staff reporting for
35 operating expenditures.

1 NEW SECTION. **Sec. 6007.** The department of general administration
2 shall not charge the facility depreciation component of lease charges
3 for nonprofit tenants in the building adjoining Capitol Way and 11th
4 avenue during the 2009-2011 biennium.

5 NEW SECTION. **Sec. 6008.** Executive Order No. 05-05, archaeological
6 and cultural resources, was issued effective November 10, 2005.

8 requirements set forth in this executive order.

9 NEW SECTION. **Sec. 6009.** ACQUISITION OF PROPERTIES AND FACILITIES
10 THROUGH FINANCIAL CONTRACTS. The following agencies may enter into
11 financial contracts, paid from any funds of an agency, appropriated or
12 nonappropriated, for the purposes indicated and in not more than the
13 principal amounts indicated, plus financing expenses and required
14 reserves pursuant to chapter 39.94 RCW. When securing properties under
15 this section, agencies shall use the most economical financial contract
16 option available, including long-term leases, lease-purchase
17 agreements, lease-development with option to purchase agreements or
18 financial contracts using certificates of participation. Expenditures
19 made by an agency for one of the indicated purposes before the issue
20 date of the authorized financial contract and any certificates of
21 participation therein are intended to be reimbursed from proceeds of
22 the financial contract and any certificates of participation therein to
23 the extent provided in the agency's financing plan approved by the
24 state finance committee.

25 State agencies may enter into agreements with the department of

29 charges for services rendered.

30 Those noninstructional facilities of higher education institutions
31 authorized in this section to enter into financial contracts are not

1 NEW SECTION. **Sec. 6010.** PUGET SOUND PROTECTION AND RESTORATION.
2 Consistent with RCW 90.71.340, when expending appropriations under this
3 act that contribute to Puget Sound protection and recovery, agencies

6 agenda. These consultations shall include the exchange of information
7 on specific actions, projects, associated funding, performance
8 measures, and other information necessary to track project
9 implementation and ensure alignment with the action agenda. In
10 situations where the Puget Sound partnership finds that a project is
11 not in, or is not consistent with the action agenda Puget Sound
12 partnership shall document this finding and report back to the governor
13 and legislative fiscal committees.

14 NEW SECTION. **Sec. 6011.** FOR THE ARTS COMMISSION--ART WORK
15 ALLOWANCE POOLING. (1) One-half of one percent of moneys appropriated
16 in this act for original construction of school plant facilities is
17 provided solely for the purposes of RCW 28A.335.210. The Washington
18 state arts commission may combine the proceeds from individual projects
19 in order to fund larger works of art or mobile art displays in
20 consultation with the superintendent of public instruction and
21 representatives of school district boards.

22 (2) One-half of one percent of moneys appropriated in this act for
23 original construction or any major renovation or remodel work exceeding
24 two hundred thousand dollars by colleges or universities is provided
25 solely for the purposes of RCW 28B.10.027. The Washington state arts
26 commission may combine the proceeds from individual projects in order
27 to fund larger works of art or mobile art displays in consultation with
28 the board of regents or trustees.

29 (3) One-half of one percent of moneys appropriated in this act for
30 original construction of any public building by a state agency as
31 defined in RCW 43.17.020 is provided solely for the purposes of RCW
32 43.17.200. The Washington state arts commission may combine the
33 proceeds from individual projects in order to fund larger works of art
34 or mobile art displays in consultation with the state agency.

35 (4) At least eighty-five percent of the moneys spent by the
36 Washington state arts commission during the 2009-2011 biennium for the
37 purposes of RCW 28A.335.210, 28B.10.027, and 43.17.200 must be expended

1 solely for direct acquisition of works of art. The commission may use
2 up to \$100,000 of this amount to conserve or maintain existing pieces
3 in the state art collection pursuant to chapter 36, Laws of 2005.

4 NEW SECTION. **Sec. 6012.** The amounts shown under the headings
5 "Prior Biennia," "Future Biennia," and "Total" in this act are for
6 informational purposes only and do not constitute legislative approval
7 of these amounts. "Prior biennia" typically refers to the immediate
8 prior biennium for reappropriations, but may refer to multiple biennia
9 in the case of specific projects. A "future biennia" amount is an
10 estimate of what may be appropriated for the project or program in the
11 2011-2013 biennium and the following three biennia; an amount of zero
12 does not necessarily constitute legislative intent to not provide
13 funding for the project or program in the future.

14 NEW SECTION. **Sec. 6013.** (1) "Reappropriations" in this act are
15 appropriations and, unless the context clearly provides otherwise, are
16 subject to the relevant conditions and limitations applicable to
17 appropriations. Reappropriations shall be limited to the unexpended
18 balances remaining on June 30, 2009, from the 2007-2009 biennial
19 appropriations for each project.

20 (2) "Reappropriations" in sections 5126, 5130, and 5131 of this act
21 shall be reduced in this act to the unexpended balance remaining as of
22 the end of fiscal year 2009 for the 2007-09 biennial appropriations in
23 sections 1085, 1086, and 5145, chapter 520, Laws of 2007.

24 NEW SECTION. **Sec. 6014.** To carry out the provisions of this act,
25 the governor may assign responsibility for predesign, design,
26 construction, and other related activities to any appropriate agency.

27 NEW SECTION. **Sec. 6015.** If any federal moneys appropriated by
28 this act for capital projects are not received by the state, the
29 department or agency to which the moneys were appropriated may replace
30 the federal moneys with funds available from private or local sources.
31 No replacement may occur under this section without the prior approval
32 of the director of financial management in consultation with the senate
33 ways and means committee and the house of representatives capital
34 budget committee.

1 NEW SECTION. **Sec. 6016.** (1) Unless otherwise stated, for all
2 appropriations under this act that require a match of nonstate money or
3 in-kind contributions, the following requirement, consistent with RCW
4 43.88.150, shall apply: Expenditures of state money shall be timed so
5 that the state share of project expenditures never exceeds the intended
6 state share of total project costs.

7 (2) Provision of the full amount of required matching funds is not
8 required to permit the expenditure of capital budget appropriations for
9 phased projects if a proportional amount of the required matching funds
10 is provided for each distinct, identifiable phase of the project.

11 NEW SECTION. **Sec. 6017.** NONTAXABLE AND TAXABLE BOND PROCEEDS.
12 Portions of the appropriation authority granted by this act from the
13 state building construction account, or any other account receiving
14 bond proceeds, may be transferred to the state taxable building
15 construction account as deemed necessary by the state finance committee
16 to comply with the federal internal revenue service rules and
17 regulations pertaining to the use of nontaxable bond proceeds.
18 Portions of the general obligation bond proceeds authorized by chapter
19 . . . , Laws of 2009 for deposit into the state taxable building
20 construction account that are in excess of amounts required to comply
21 with the federal internal revenue service rules and regulations shall
22 be deposited into the state building construction account. The state
23 treasurer shall submit written notification to the director of
24 financial management if it is determined that a shift of appropriation
25 authority between the state building construction account, or any other
26 account receiving bond proceeds, and the state taxable building
27 construction account is necessary.

28 NEW SECTION. **Sec. 6018.** The office of financial management, in
29 consultation with the fiscal committees of the legislature, may select
30 capital projects that have completed predesign to undergo a budget
31 evaluation study. The budget evaluation study team approach using
32 value engineering techniques must be utilized by the office of
33 financial management in conducting the studies. The office of
34 financial management shall select the budget evaluation team members,
35 contract for the study, and report the results to the legislature and
36 agencies in a timely manner following the study. Funds from the

1 project appropriation must be used by the office of financial
2 management through an interagency agreement with the affected agencies
3 to cover the cost of the study.

4 **Sec. 6019.** RCW 28B.15.210 and 1985 c 390 s 20 are each amended to
5 read as follows:

6 Within thirty-five days from the date of collection thereof, all
7 building fees at the University of Washington, including building fees

8 be exclusively devoted to that purpose. If in any twelve-month period
9 it shall appear that the amount certified by the college board is

31 **Sec. 6023.** RCW 43.63A.125 and 2008 c 327 s 15 are each amended to
32 read as follows:

33 (1) The department shall establish the building communities fund
34 program. Under the program, capital and technical assistance grants
35 may be made to nonprofit organizations for acquiring, constructing, or
36 rehabilitating facilities used for the delivery of nonresidential
37 community services, including social service centers and multipurpose

1 community centers, including those serving a distinct or ethnic
2 population. Such facilities must be located in a distressed community
3 or serve a substantial number of low-income or disadvantaged persons.

4 (2) The department shall establish a competitive process to
5 solicit, ~~((and))~~ evaluate, and rank applications for the building
6 communities fund program as follows:

7 (a) The department shall conduct a statewide solicitation of
8 project applications from nonprofit organizations.

9 (b) The department shall evaluate and rank applications in
10 consultation with a citizen advisory committee using objective
11 criteria. To be considered qualified, applicants must demonstrate that
12 the proposed project:

13 (i) Will increase the range, efficiency, or quality of the services
14 provided to citizens;

15 (ii) Will be located in a distressed community or will serve a
16 substantial number of low-income or disadvantaged persons;

17 (iii) Will offer three or more distinct activities that meet a
18 single community service objective or a diverse set of activities that
19 meet multiple community service objectives, including but not limited
20 to: Providing social services; expanding employment opportunities for
21 or increasing the employability of community residents; or offering
22 educational or recreational opportunities separate from the public
23 school system or private schools, as long as recreation is not the sole
24 purpose of the facility;

25 (iv) Reflects a long-term vision for the development of the
26 community, shared by residents, businesses, leaders, and partners;

27 (v) Requires state funding to accomplish a discrete, usable phase
28 of the project;

29 (vi) Is ready to proceed and will make timely use of the funds;

34 (ix) Will achieve its stated objectives; and

35 (x) Is a community priority as shown through tangible commitments
36 of existing or future assets made to the project by community
37 residents, leaders, businesses, and government partners.

1 (c) The evaluation process shall also include an examination of
2 existing assets that applicants may apply to projects. Grant
3 assistance under this section shall not exceed twenty-five percent of
4 the total cost of the project, except, under exceptional circumstances,
5 the department may reduce the amount of nonstate match required. The
6 nonstate portion of the total project cost may include cash, the value
7 of real property when acquired solely for the purpose of the project,
8 and in-kind contributions.

9 (d) The department may not set a monetary limit to funding
10 requests.

11 (e) No more than ten percent of the total granted amount may be
12 awarded to qualified eligible projects that meet the definition of
13 exceptional circumstances defined in this subsection. For purposes of
14 this subsection, exceptional circumstances include but are not limited
15 to: Natural disasters affecting projects; emergencies beyond an
16 applicant's control, such as a fire or an unanticipated loss of a lease
17 where services are currently provided; a delay that could result in a
18 threat to public health or safety; or instances where a local community
19 could quantifiably demonstrate that they had exhausted all possible
20 fund-raising efforts.

21 (3) The department shall submit (~~annually~~) biennially to the
22 governor and the legislature in the department's capital budget request
23 (~~an unranked~~) a ranked list of the qualified eligible projects for
24 which applications were received. The list must include a description
25 of each project, its total cost, and the amount of state funding
26 requested. The appropriate fiscal committees of the legislature shall
27 use this list to determine building communities fund projects that may
28 receive funding in the capital budget. The total amount of state
29 capital funding available for all projects on the (~~annual~~) biennial
30 list shall be determined by the capital budget beginning with the 2009-
31 2011 biennium and thereafter. In addition, if cash funds have been
32 appropriated, up to three million dollars may be used for technical
33 assistance grants. The department shall not sign contracts or
34 otherwise financially obligate funds under this section until the
35 legislature has approved a specific list of projects.

36 (4) In addition to the list of ranked qualified eligible projects,
37 the department shall submit to the appropriate fiscal committees of the
38 legislature a summary report that describes the solicitation and

1 evaluation processes, including but not limited to the number of
2 applications received, the total amount of funding requested, issues
3 encountered, if any, and any recommendations for process improvements.

4 (5) After the legislature has approved a specific list of projects
5 in law, the department shall develop and manage appropriate contracts
6 with the selected applicants; monitor project expenditures and grantee
7 performance; report project and contract information; and exercise due
8 diligence and other contract management responsibilities as required.

9 (6) In contracts for grants authorized under this section the
10 department shall include provisions which require that capital
11 improvements shall be held by the grantee for a specified period of
12 time appropriate to the amount of the grant and that facilities shall
13 be used for the express purpose of the grant. If the grantee is found
14 to be out of compliance with provisions of the contract, the grantee
15 shall repay to the state general fund the principal amount of the grant
16 plus interest calculated at the rate of interest on state of Washington
17 general obligation bonds issued most closely to the date of
18 authorization of the grant.

32 board to be in the best interest of the trust for which the state land
33 is held.

34 (2) Land exchanged under this section shall not be used to reduce

36 (3) The board shall determine that each land exchange is in the

3 (4) During the biennium ending June 30, (~~2009~~) 2011, for the
4 purposes of maintaining working farm and forest landscapes or acquiring
5 natural resource lands at risk of development, the department, with

7 and any timber thereon for any land and proceeds of equal value, when
8 it can be demonstrated that the trust fiduciary obligations can be
9 better fulfilled after an exchange is completed. Proceeds may be in
10 the form of cash or services in order to achieve the purposes
11 established in this section. Any cash received as part of an exchange
12 transaction shall be deposited in the resource management cost account
13 to pay for administrative expenses incurred in carrying out an exchange
14 transaction. These administrative expenses include road maintenance
15 and abandonment expenses. The amount of proceeds received from the
16 exchange partner may not exceed five percent of the total value of the
17 exchange. The receipt of proceeds shall not change the character of

25 proposed for exchange to be used for open space, park, school, or
26 critical habitat purposes.

27 **Sec. 6025.** RCW 79.17.020 and 2008 c 328 s 6013 are each amended to

34 character, land owned by municipalities of any character, and state
35 forest land owned by the state under the jurisdiction of the
36 department, for real property of equal value for the purpose of
37 consolidating and blocking up the respective land holdings of any

1 county, municipality, the federal government, or the state of
2 Washington or for the purpose of obtaining lands having commercial
3 recreational leasing potential.

4 (2) During the biennium ending June 30, (~~2009~~) 2011, for the
5 purposes of maintaining working farm and forest landscapes or acquiring
6 natural resource lands at risk of development, the department, with
7 approval of the board of natural resources, may exchange any state land
8 and any timber thereon for any land and proceeds of equal value, when
9 it can be demonstrated that the trust fiduciary obligations can be
10 better fulfilled after an exchange is completed. Proceeds may be in
11 the form of cash or services in order to achieve the purposes
12 established in this section. Any cash received as part of an exchange
13 transaction shall be deposited in the forest development account to pay
14 for administrative expenses incurred in carrying out an exchange
15 transaction. The amount of proceeds received from the exchange partner
16 may not exceed five percent of the total value of the exchange. The
17 receipt of proceeds shall not change the character of the transaction
18 from an exchange to a sale.

19 (3) Prior to executing an exchange under this section, and in
20 addition to the public notice requirements set forth in RCW 79.17.050,
21 the department shall consult with legislative members, other state and
22 federal agencies, local governments, tribes, local stakeholders,
23 conservation groups, and any other interested parties to identify and
24 address cultural resource issues, and the potential of the state lands
25 proposed for exchange to be used for open space, park, school, or
26 critical habitat purposes.

30 custody of the state treasurer. All receipts from the taxes imposed
31 under RCW 82.14.0494 and distributions under RCW 67.70.240(5) shall be
32 deposited into the account. Only the director of the office of
33 financial management or the director's designee may authorize
34 expenditures from the account. The account is subject to allotment
35 procedures under chapter 43.88 RCW. An appropriation is not required
36 for expenditures from this account.

1 (2) Until bonds are issued under RCW 43.99N.020, up to five million
2 dollars per year beginning January 1, 1999, shall be used for the
3 purposes of subsection (3)(b) of this section, all remaining moneys in
4 the account shall be transferred to the public stadium authority,
5 created under RCW 36.102.020, to be used for public stadium authority
6 operations and development of the stadium and exhibition center.

7 (3) After bonds are issued under RCW 43.99N.020, all moneys in the

9 following purposes in the following priority:

10 (a) On or before June 30th of each year, the office of financial
11 management shall accumulate in the stadium and exhibition center
12 account an amount at least equal to the amount required in the next
13 succeeding twelve months for the payment of principal of and interest
14 on the bonds issued under RCW 43.99N.020;

15 (b) An additional reserve amount not in excess of the expected
16 average annual principal and interest requirements of bonds issued
17 under RCW 43.99N.020 shall be accumulated and maintained in the

25 Any revenues derived from the taxes authorized by RCW 36.38.010(5)
26 and 36.38.040 or other amounts that if used as provided under (a) and
27 (b) of this subsection would cause the loss of any tax exemption under
28 federal law for interest on bonds issued under RCW 43.99N.020 shall be
29 deposited in and used exclusively for the purposes of the youth
30 athletic facility account and shall not be used, directly or

2 community outdoor athletic facilities. (~~For the 2005-2007 biennium,~~
3 ~~moneys in the account may also be used for a recreation level of~~
4 ~~service study for local and regional active recreation facilities.~~)
5 Only the director of the recreation and conservation office or the
6 director's designee may authorize expenditures from the account. The
7 account is subject to allotment procedures under chapter 43.88 RCW, but
8 an appropriation is not required for expenditures. The athletic
9 facility grants or loans may be used for acquiring, developing,
10 equipping, maintaining, and improving community outdoor athletic
11 facilities. Funds shall be divided equally between the development of
12 new community outdoor athletic facilities, the improvement of existing
13 community outdoor athletic facilities, and the maintenance of existing
14 community outdoor athletic facilities. Cities, counties, and qualified
15 nonprofit organizations must submit proposals for grants or loans from
16 the account. To the extent that funds are available, cities, counties,
17 and qualified nonprofit organizations must meet eligibility criteria as
18 established by the director of the recreation and conservation office.
19 The grants and loans shall be awarded on a competitive application
20 process and the amount of the grant or loan shall be in proportion to
21 the population of the city or county for where the community outdoor
22 athletic facility is located. Grants or loans awarded in any one year
23 need not be distributed in that year. In the (~~2007-2009~~) 2009-2011

28 categories within the account. The director of the recreation and
29 conservation office may expend up to one and one-half percent of the
