SHB 2744 - H AMD **1136**
    By Representatives Smith, Ormsby

<div align="right">

NOT CONSIDERED 03/11/2010

</div>

1   On page 3, beginning on line 12, after "growth." strike all
2   material through "growth" on line 15 and insert "The level of
3   phosphorous needed to support healthy turf and the agronomic
4   application rate must be determined by Washington State University"

        EFFECT: Replaces the requirement for the department of
    agriculture to determine agronomic rates needed to achieve appropriate
    phosphorus levels within the soil to support healthy turf growth with
    the requirement that Washington State University determine the
    agronomic application rate needed to support healthy turf.
