

**SSB 6373 - H AMD 1393**

By Representative Upthegrove

WITHDRAWN 03/03/2010

1 Strike everything after the enacting clause and insert the  
2 following:

3 "Sec. 1. RCW 70.235.010 and 2008 c 14 s 2 are each amended to read  
4 as follows:

5 The definitions in this section apply throughout this chapter  
6 unless the context clearly requires otherwise.

7 (1) "Carbon dioxide equivalents" means a metric measure used to  
8 compare the emissions from various greenhouse gases based upon their  
9 global warming potential.

10 (2) "Climate advisory team" means the stakeholder group formed in  
11 response to executive order 07-02.

12 (3) "Climate impacts group" means the University of Washington's  
13 climate impacts group.

14 (4) "Department" means the department of ecology.

15 ~~((("Direct emissions" means emissions of greenhouse gases from  
16 sources of emissions, including stationary combustion sources, mobile  
17 combustion emissions, process emissions, and fugitive emissions.~~

18 ~~(6))~~ "Director" means the director of the department.

19 ~~((7))~~ (6) "Greenhouse gas" and "greenhouse gases" includes carbon  
20 dioxide, methane, nitrous oxide, hydrofluorocarbons, perfluorocarbons,  
21 ~~((and)) sulfur hexafluoride, and any other gas or gases designated by  
22 the department by rule.~~

23 ~~((8) "Indirect emissions" means emissions of greenhouse gases  
24 associated with the purchase of electricity, heating, cooling, or  
25 steam.~~

26 ~~(9))~~ (7) "Person" means an individual, partnership, franchise  
27 holder, association, corporation, a state, a city, a county, or any  
28 subdivision or instrumentality of the state.

29 ~~((10))~~ (8) "Program" means the department's climate change  
30 program.

1        ~~((11) "Total emissions of greenhouse gases" means all direct~~  
2 ~~emissions and all indirect emissions.~~

3        ~~(12))~~ (9) "Western climate initiative" means the collaboration of  
4 states, Canadian provinces, Mexican states, and tribes to design a  
5 multisector market-based mechanism as directed under the western  
6 regional climate action initiative signed by the governor on February  
7 22, 2007.

8        **Sec. 2.** RCW 70.94.151 and 2008 c 14 s 5 are each amended to read  
9 as follows:

10        (1) The board of any activated authority or the department, may  
11 classify air contaminant sources, by ordinance, resolution, rule or  
12 regulation, which in its judgment may cause or contribute to air  
13 pollution, according to levels and types of emissions and other  
14 characteristics which cause or contribute to air pollution, and may  
15 require registration or reporting or both for any such class or  
16 classes. Classifications made pursuant to this section may be for  
17 application to the area of jurisdiction of such authority, or the state  
18 as a whole or to any designated area within the jurisdiction, and shall  
19 be made with special reference to effects on health, economic and  
20 social factors, and physical effects on property.

21        (2) Except as provided in subsection (3) of this section, any  
22 person operating or responsible for the operation of air contaminant  
23 sources of any class for which the ordinances, resolutions, rules or  
24 regulations of the department or board of the authority, require  
25 registration or reporting shall register therewith and make reports  
26 containing information as may be required by such department or board  
27 concerning location, size and height of contaminant outlets, processes  
28 employed, nature of the contaminant emission and such other information  
29 as is relevant to air pollution and available or reasonably capable of  
30 being assembled. In the case of emissions of greenhouse gases as  
31 defined in RCW 70.235.010 the department shall adopt rules requiring  
32 reporting of those emissions. The department or board may require that  
33 such registration or reporting be accompanied by a fee, and may  
34 determine the amount of such fee for such class or classes: PROVIDED,  
35 That the amount of the fee shall only be to compensate for the costs of  
36 administering such registration or reporting program which shall be  
37 defined as initial registration and annual or other periodic reports

1 from the source owner providing information directly related to air  
2 pollution registration, on-site inspections necessary to verify  
3 compliance with registration requirements, data storage and retrieval  
4 systems necessary for support of the registration program, emission  
5 inventory reports and emission reduction credits computed from  
6 information provided by sources pursuant to registration program  
7 requirements, staff review, including engineering or other reliable  
8 analysis for accuracy and currentness, of information provided by  
9 sources pursuant to registration program requirements, clerical and  
10 other office support provided in direct furtherance of the registration  
11 program, and administrative support provided in directly carrying out  
12 the registration program: PROVIDED FURTHER, That any such registration  
13 made with either the board or the department shall preclude a further  
14 registration and reporting with any other board or the department,  
15 except that emissions of greenhouse gases as defined in RCW 70.235.010  
16 must be reported as required under subsection (5) of this section.

17 All registration program and reporting fees collected by the  
18 department shall be deposited in the air pollution control account.  
19 All registration program fees collected by the local air authorities  
20 shall be deposited in their respective treasuries.

21 (3) If a registration or report has been filed for a grain  
22 warehouse or grain elevator as required under this section,  
23 registration, reporting, or a registration program fee shall not, after  
24 January 1, 1997, again be required under this section for the warehouse  
25 or elevator unless the capacity of the warehouse or elevator as listed  
26 as part of the license issued for the facility has been increased since  
27 the date the registration or reporting was last made. If the capacity  
28 of the warehouse or elevator listed as part of the license is  
29 increased, any registration or reporting required for the warehouse or  
30 elevator under this section must be made by the date the warehouse or  
31 elevator receives grain from the first harvest season that occurs after  
32 the increase in its capacity is listed in the license.

33 This subsection does not apply to a grain warehouse or grain  
34 elevator if the warehouse or elevator handles more than ten million  
35 bushels of grain annually.

36 (4) For the purposes of subsection (3) of this section:

37 (a) A "grain warehouse" or "grain elevator" is an establishment  
38 classified in standard industrial classification (SIC) code 5153 for

1 wholesale trade for which a license is required and includes, but is  
2 not limited to, such a licensed facility that also conducts cleaning  
3 operations for grain;

4 (b) A "license" is a license issued by the department of  
5 agriculture licensing a facility as a grain warehouse or grain elevator  
6 under chapter 22.09 RCW or a license issued by the federal government  
7 licensing a facility as a grain warehouse or grain elevator for  
8 purposes similar to those of licensure for the facility under chapter  
9 22.09 RCW; and

10 (c) "Grain" means a grain or a pulse.

11 (5)(a) The department shall adopt rules requiring ~~((the reporting~~  
12 ~~of)) persons to report emissions of greenhouse gases as defined in RCW~~  
13 ~~70.235.010((.~~ ~~The rules must include a de minimis amount of emissions~~  
14 ~~below which reporting will not be required for both indirect and direct~~  
15 ~~emissions. The rules must require that emissions of greenhouse gases~~  
16 ~~resulting from the burning of fossil fuels be reported separately from~~  
17 ~~emissions of greenhouse gases resulting from the burning of biomass.~~  
18 ~~Except as provided in (b) of this subsection, the department shall,~~  
19 ~~under the authority granted in subsection (1) of this section, adopt~~  
20 ~~rules requiring any owner or operator: (i) Of a fleet of on-road motor~~  
21 ~~vehicles that as a fleet emit at least twenty-five hundred metric tons~~  
22 ~~of greenhouse gas annually in the state to report the emissions of~~  
23 ~~greenhouse gases generated from or emitted by that fleet; or (ii) of a~~  
24 ~~source or combination of sources that emit at least ten thousand metric~~  
25 ~~tons of greenhouse gas annually in the state to report their total~~  
26 ~~annual emissions of greenhouse gases. In calculating emissions of~~  
27 ~~greenhouse gases for purposes of determining whether or not reporting~~  
28 ~~is required, only direct emissions shall be included. For purposes of~~  
29 ~~reporting emissions of greenhouse gases in chapter 14, Laws of 2008,~~  
30 ~~"source" means any stationary source as defined in RCW 70.94.030, or~~  
31 ~~mobile source used for transportation of people or cargo. The~~  
32 ~~emissions of greenhouse gases must be reported as carbon dioxide~~  
33 ~~equivalents. The rules must require that persons report 2009 emissions~~  
34 ~~starting in 2010. The rules must establish an annual reporting~~  
35 ~~schedule that takes into account the time needed to allow the owner or~~  
36 ~~operator reporting emissions of greenhouse gases to gather the~~  
37 ~~information needed and to verify the emissions being reported.~~  
38 ~~However, in no event may reports be submitted later than October 31st~~

1 of the year in which the report is due. The department may phase in  
2 the reporting requirements for sources or combinations of sources under  
3 (a)(ii) of this subsection until the reporting threshold is met, which  
4 must be met by January 1, 2012. The department may from time to time  
5 amend the rules to include other persons that emit less than the annual  
6 greenhouse gas emissions levels set out in this subsection if necessary  
7 to comply with any federal reporting requirements for emissions of  
8 greenhouse gases.

9 (b) In its rules, the department may defer the reporting  
10 requirement under (a) of this subsection for emissions associated with  
11 interstate and international commercial aircraft, rail, truck, or  
12 marine vessels until (i) there is a federal requirement to report these  
13 emissions; or (ii) the department finds that there is a generally  
14 accepted reporting protocol for determining interstate emissions from  
15 these sources.) where those emissions from a single facility, source,  
16 or site, or from fossil fuels sold in Washington by a single supplier  
17 meet or exceed ten thousand metric tons of carbon dioxide equivalent  
18 annually. The department may phase in the requirement to report  
19 greenhouse gas emissions until the reporting threshold in this  
20 subsection is met, which must occur by January 1, 2012. In addition,  
21 the rules must require that:

22 (i) Emissions of greenhouse gases resulting from the combustion of  
23 fossil fuels be reported separately from emissions of greenhouse gases  
24 resulting from the combustion of biomass;

25 (ii) Reporting will start in 2010 for 2009 emissions. Each annual  
26 report must include emissions data for the preceding calendar year and  
27 must be submitted to the department by October 31st of the year in  
28 which the report is due. However, starting in 2011, a person who is  
29 required to report greenhouse gas emissions to the United States  
30 environmental protection agency under 40 C.F.R. Part 98, as adopted on  
31 September 22, 2009, must submit the report required under this section  
32 to the department concurrent with the submission to the United States  
33 environmental protection agency. Except as otherwise provided in this  
34 section, the data for emissions in Washington and any corrections  
35 thereto that are reported to the United States environmental protection  
36 agency must be the emissions data reported to the department; and

37 (iii) Emissions of carbon dioxide associated with the complete  
38 combustion or oxidation of liquid motor vehicle fuel, special fuel, or

1 aircraft fuel that is sold in Washington where the annual emissions  
2 associated with that combustion or oxidation equal or exceed ten  
3 thousand metric tons be reported to the department. Each person who is  
4 required to file periodic tax reports of motor vehicle fuel sales under  
5 RCW 82.36.031 or special fuel sales under RCW 82.38.150, or each  
6 distributor of aircraft fuel required to file periodic tax reports  
7 under RCW 82.42.040 must report to the department the annual emissions  
8 of carbon dioxide from the complete combustion or oxidation of the  
9 fuels listed in those reports as sold in the state of Washington. The  
10 department shall not require suppliers to use additional data to  
11 calculate greenhouse gas emissions other than the data the suppliers  
12 report to the department of licensing. The rules may allow this  
13 information to be aggregated when reported to the department. The  
14 department and the department of licensing shall enter into an  
15 interagency agreement to ensure proprietary and confidential  
16 information is protected if the departments share reported information.  
17 Any proprietary or confidential information exempt from disclosure when  
18 reported to the department of licensing is exempt from disclosure when  
19 shared by the department of licensing with the department under this  
20 provision.

21 (b)(i) Except as otherwise provided in this subsection, the rules  
22 adopted by the department under (a) of this subsection must be  
23 consistent with the regulations adopted by the United States  
24 environmental protection agency in 40 C.F.R. Part 98 on September 22,  
25 2009.

26 (ii) The department may by rule include additional gases to the  
27 definition of "greenhouse gas" in RCW 70.235.010 only if the gas has  
28 been designated as a greenhouse gas by the United States congress or by  
29 the United States environmental protection agency. Prior to including  
30 additional gases to the definition of "greenhouse gas" in RCW  
31 70.235.010, the department shall notify the appropriate committees of  
32 the legislature. Decisions to amend the rule to include additional  
33 gases must be made prior to December 1st of any year and the amended  
34 rule may not take effect before the end of the regular legislative  
35 session in the next year.

36 (iii) The department may by rule exempt persons who are required  
37 to report greenhouse gas emissions to the United States environmental

1 protection agency and who emit less than ten thousand metric tons  
2 carbon dioxide equivalent annually.

3 (iv) The department must establish a methodology for persons who  
4 are not required to report under this section to voluntarily report  
5 their greenhouse gas emissions.

6 (c) The department shall review and if necessary update its rules  
7 whenever the United States environmental protection agency adopts final  
8 amendments to 40 C.F.R. Part 98 to ensure consistency with federal  
9 reporting requirements for emissions of greenhouse gases. However, the  
10 department shall not amend its rules in a manner that conflicts with  
11 (a) of this subsection.

12 (d) The department shall share any reporting information reported  
13 to it with the local air authority in which the ((owner or operator))  
14 person reporting under the rules adopted by the department operates.

15 ((+d)) (e) The fee provisions in subsection (2) of this section  
16 apply to reporting of emissions of greenhouse gases. ((Owners and  
17 operators)) Persons required to report under (a) of this subsection who  
18 fail to report or pay the fee required in subsection (2) of this  
19 section are subject to enforcement penalties under this chapter. The  
20 department shall enforce the reporting rule requirements unless it  
21 approves a local air authority's request to enforce the requirements  
22 for ((sources)) persons operating within the authority's jurisdiction.  
23 However, unless required by federal law, neither the department nor a  
24 local air authority approved under this section are authorized to  
25 assess enforcement penalties on persons required to report under (a) of  
26 this subsection until six months after the department adopts its  
27 reporting rule in 2010.

28 ((+e)) (f) The energy facility site evaluation council shall,  
29 simultaneously with the department, adopt rules that impose greenhouse  
30 gas reporting requirements in site certifications on owners or  
31 operators of a facility permitted by the energy facility site  
32 evaluation council. The greenhouse gas reporting requirements imposed  
33 by the energy facility site evaluation council must be the same as the  
34 greenhouse gas reporting requirements imposed by the department. The  
35 department shall share any information reported to it from facilities  
36 permitted by the energy facility site evaluation council with the  
37 council, including notice of a facility that has failed to report as

1 required. The energy facility site evaluation council shall contract  
2 with the department to monitor the reporting requirements adopted under  
3 this section.

4 ~~((f) In developing its rules, the department shall, with the  
5 assistance of the department of transportation, identify a mechanism to  
6 report an aggregate estimate of the annual emissions of greenhouse  
7 gases generated from or emitted by otherwise unreported on-road motor  
8 vehicles.))~~

9 (g) The inclusion or failure to include any person, source, classes  
10 of persons or sources, or types of emissions of greenhouse gases into  
11 the department's rules for reporting under this section does not  
12 indicate whether such a person, source, or category is appropriate for  
13 inclusion in ~~((the multisector market based system designed under RCW  
14 70.235.020))~~ state, regional, or national greenhouse gas reduction  
15 programs or strategies. Furthermore, aircraft fuel purchased in the  
16 state may not be considered equivalent to aircraft fuel combusted in  
17 the state.

18 ~~((Should the federal government adopt rules sufficient to track  
19 progress toward the emissions reductions required by chapter 14, Laws  
20 of 2008 governing the reporting of greenhouse gases, the department  
21 shall amend its rules, as necessary, to seek consistency with the  
22 federal rules to ensure duplicate reporting is not required. Nothing  
23 in this section requires the department to increase the reporting  
24 threshold established in (a) of this subsection or otherwise require  
25 the department's rules be identical to the federal rules in scope.))~~

26 (i) The definitions in RCW 70.235.010 apply throughout this subsection  
27 (5) unless the context clearly requires otherwise.

28 (ii) For the purpose of this subsection (5), the term "supplier"  
29 includes: (A) A motor vehicle fuel supplier or a motor vehicle fuel  
30 importer, as those terms are defined in RCW 82.36.010; (B) a special  
31 fuel supplier or a special fuel importer, as those terms are defined in  
32 RCW 82.38.020; and (C) a distributor of aircraft fuel, as those terms  
33 are defined in RCW 82.42.010.

34 (iii) For the purpose of this subsection (5), the term "person"  
35 includes: (A) An owner or operator, as those terms are defined by the  
36 United States environmental protection agency in its mandatory  
37 greenhouse gas reporting regulation in 40 C.F.R. Part 98, as adopted on  
38 September 22, 2009; and (B) a supplier."

1 Correct the title.

--- END ---
