Background:

Several sections of the Act address amusement games. An amusement game is a game played for entertainment that involves active participation by the contestant and that awards merchandise prizes only, such as crane games. Certain other criteria must be met.

The Act authorizes the Commission to issue licenses allowing persons, associations, or organizations to conduct or operate amusement games in such a manner and at such locations as the Commission may determine. The Act lists particular locations where amusement games may be conducted including certain fairs, civic centers, or amusement parks.

Commission rules allow licensed amusement game operators to conduct amusement games at commercially-operated family sports complexes, skating facilities, and grocery and department stores.

Summary of Bill:

The Commission is expressly authorized to license any person, association, or organization to operate amusement games at locations that are in addition to those listed in the Act.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date: The bill takes effect 90 days after adjournment of the session in which the bill is passed.

Staff Summary of Public Testimony:

(In support) This bill makes it clear that, like the Legislature, the Commission can also authorize amusement games in different locations. Current law is ambiguous as to whether only the Legislature may add locations, or whether the Commission may do so as well. Under the assumption that it had the authority, the Commission added locations authorized to conduct amusement games to its rules. However, some ambiguity was noticed in the law upon a petition for a rule change to add other locations for amusement games.

(Opposed) None.
