Staff Summary of Public Testimony: PRO: The state employee tuition waiver is a great benefit to employees and the state. It improves the state workforce and it improves opportunities for employees. The colleges are proud to be partners in educating the state's workforce, but the colleges are not recognized for their efforts because they are not able to count these students in enrollment statistics. Some programs in the community and technical colleges are greatly impacted by the enrollment of students under the waiver. It is not fair to ask colleges to bear the burden of the tuition waiver but not let them count the students.

Persons Testifying: PRO: Senator Jarrett, prime sponsor; Rachel Solemsaas, Elise Erickson, Bellevue Community College.
