
HOUSE BILL 1149

State of Washington

61st Legislature

2009 Regular Session

By Representatives Williams, Roach, Simpson, Kirby, Dunshee, Nelson, and Ormsby

Read first time 01/14/09. Referred to Committee on Financial Institutions & Insurance.

1 AN ACT Relating to protecting consumers from breaches of security;
2 amending RCW 19.255.010; adding new sections to chapter 19.255 RCW; and
3 providing an effective date.

4 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

5 **Sec. 1.** RCW 19.255.010 and 2005 c 368 s 2 are each amended to read
6 as follows:

7 (1) Any person or business that conducts business in this state and
8 that owns or licenses computerized data that includes personal
9 information shall disclose any breach of the security of the system, if
10 a reasonable person would believe that the breach of the security of
11 the system could cause unencrypted data to be acquired by an
12 unauthorized person. The notice must be provided following discovery
13 or notification of the breach (~~(in the security of the data)~~) to any
14 resident of this state (~~(whose unencrypted personal information was, or~~
15 ~~is reasonably believed to have been, acquired by an unauthorized~~
16 ~~person)~~). The disclosure shall be made in the most expedient time
17 possible and without unreasonable delay, consistent with the legitimate
18 needs of law enforcement, as provided in subsection (3) of this

1 section, or any measures necessary to determine the scope of the breach
2 and restore the reasonable integrity of the data system.

3 (2) Any person or business that maintains computerized data that
4 includes personal information that the person or business does not own
5 shall notify the owner or licensee of the information of any breach of
6 the security of the data immediately following discovery, if the
7 personal information was, or is reasonably believed to have been,
8 acquired by an unauthorized person.

9 (3) The notification required by this section may be delayed if a
10 law enforcement agency determines that the notification will impede a
11 criminal investigation. The notification required by this section
12 shall be made after the law enforcement agency determines that it will
13 not compromise the investigation.

14 (4) For purposes of this section, "breach of the security of the
15 system" means unauthorized acquisition of computerized data that
16 compromises the security, confidentiality, or integrity of personal
17 information maintained by the person or business. Good faith
18 acquisition of personal information by an employee or agent of the
19 person or business for the purposes of the person or business is not a
20 breach of the security of the system when the personal information is
21 not used or subject to further unauthorized disclosure.

22 (5) For purposes of this section, "personal information" means an
23 individual's first name or first initial and last name in combination
24 with any one or more of the following data elements, when either the
25 name or the data elements are not encrypted:

26 (a) Social security number;

27 (b) Driver's license number or Washington identification card
28 number; or

29 (c) Account number or credit or debit card number, in combination
30 with any required security code, access code, or password that would
31 permit access to an individual's financial account.

32 (6) For purposes of this section, "personal information" does not
33 include publicly available information that is lawfully made available
34 to the general public from federal, state, or local government records.

35 (7) For purposes of this section and except under subsection (8) of
36 this section, "notice" may be provided by one of the following methods:

37 (a) Written notice;

1 (b) Electronic notice, if the notice provided is consistent with
2 the provisions regarding electronic records and signatures set forth in
3 15 U.S.C. Sec. 7001; or

4 (c) Substitute notice, if the person or business demonstrates that
5 the cost of providing notice would exceed two hundred fifty thousand
6 dollars, or that the affected class of subject persons to be notified
7 exceeds five hundred thousand, or the person or business does not have
8 sufficient contact information. Substitute notice shall consist of all
9 of the following:

10 (i) E-mail notice when the person or business has an e-mail address
11 for the subject persons;

12 (ii) Conspicuous posting of the notice on the web site page of the
13 person or business, if the person or business maintains one; and

14 (iii) Notification to major statewide media.

15 (8) A person or business that maintains its own notification
16 procedures as part of an information security policy for the treatment
17 of personal information and is otherwise consistent with the timing
18 requirements of this section is in compliance with the notification
19 requirements of this section if the person or business notifies subject
20 persons in accordance with its policies in the event of a breach of
21 security of the system.

22 (9) Any waiver of the provisions of this section is contrary to
23 public policy, and is void and unenforceable.

24 (10)(a) Any customer injured by a violation of this section may
25 institute a civil action to recover damages.

26 (b) Any business that violates, proposes to violate, or has
27 violated this section may be enjoined.

28 (c) The rights and remedies available under this section are
29 cumulative to each other and to any other rights and remedies available
30 under law.

31 (d) A person or business under this section shall not be required
32 to disclose a technical breach of the security system that does not
33 seem reasonably likely to subject customers to a risk of criminal
34 activity.

35 NEW SECTION. **Sec. 2.** A new section is added to chapter 19.255 RCW
36 to read as follows:

37 (1) For purposes of this section:

1 (a) "Access device" has the same meaning as in RCW 9A.56.010.

2 (b) "Breach of the security of the system" has the same meaning as
3 in RCW 19.255.010.

4 (c) "Financial institution" has the same meaning as in RCW
5 30.22.040.

6 (d) "Unencrypted" means that the personal information was not
7 transformed using an algorithm making the information unreadable to
8 anyone except those possessing a key, using standards appropriate for
9 the industry at the time of the breach of the security of the system.

10 (e) "Card security code" means the three-digit or four-digit value
11 printed on an access device or contained in the microprocessor chip or
12 magnetic stripe of an access device which is used to validate access
13 device information during the authorization process.

14 (f) "PIN" means a personal identification code that identifies the
15 cardholder.

16 (g) "PIN verification code number" means the data used to verify
17 cardholder identity when a PIN is used in a transaction.

18 (h) "Magnetic stripe data" means the data contained in the magnetic
19 stripe of an access device.

20 (i) "Service provider" means a person or entity that stores,
21 processes, or transmits access device data on behalf of another person
22 or entity.

23 (2) No person or entity conducting business in Washington that
24 accepts an access device in connection with a transaction may retain
25 the card security code data, the PIN verification code number, or the
26 full contents of any track of magnetic stripe data, subsequent to the
27 authorization of the transaction or in the case of a PIN debit
28 transaction, subsequent to forty-eight hours after authorization of the
29 transaction. A person or entity is in violation of this section if its
30 service provider retains such data subsequent to the authorization of
31 the transaction or in the case of a PIN debit transaction, subsequent
32 to forty-eight hours after authorization of the transaction, provided
33 however, a person or entity may retain credit card security code data,
34 PIN verification code numbers, and the full content of magnetic stripe
35 data with the express consent of the customer using the access device.

36 (3) (a) Whenever there is a breach of the security of the system of
37 a person or entity that has violated subsection (2) of this section, or
38 that person's or entity's service provider, and that breach of the

1 security of the system compromises five thousand or more unencrypted
2 individual names or account numbers, the breaching person or entity
3 shall reimburse the financial institution that issued any access
4 devices affected by the breach for the costs of reasonable actions
5 undertaken by the financial institution as a result of the breach in
6 order to protect the information of its cardholders or to continue to
7 provide services to cardholders including, but not limited to, any cost
8 incurred in connection with:

9 (i) The cancellation or reissuance of an access device affected by
10 the breach;

11 (ii) The closing of a deposit, transaction, checking, share draft,
12 or other account affected by the breach and any action to stop payment
13 or block a transaction with respect to the account;

14 (iii) The opening or reopening of a deposit, transaction, checking,
15 share draft, or other account affected by the breach;

16 (iv) The notification of account holders affected by the breach;

17 (v) Credit monitoring services on accounts affected by the breach
18 for a period of one year from the time the issuer of the access device
19 is notified of the breach; and

20 (vi) Reasonable attorneys' fees and costs associated with the
21 action.

22 (b) The remedies under (a) of this subsection are cumulative and do
23 not restrict any other right or remedy otherwise available to the
24 financial institution.

25 (4) In an action under this section, a financial institution that
26 provided or approved equipment used to process payment transactions, to
27 a person or entity, is precluded from recovering under this section
28 against the person or entity if the breach of the security of the
29 system was directly related to the equipment provided or approved by
30 the financial institution, and the equipment was being used in the
31 manner recommended by the financial institution.

32 (5) A person or entity accepting an access device in connection
33 with a transaction may add an additional two cents per transaction to
34 the balance of the transaction for the purpose of subsidizing costs
35 associated with insurance designed to protect against liability
36 associated with the costs referenced in subsection (3) of this section.

1 NEW SECTION. **Sec. 3.** A new section is added to chapter 19.255 RCW
2 to read as follows:

3 (1) The parties to a dispute arising under the provisions of this
4 chapter may agree, in writing, to submit to arbitration.

5 (2) The arbitration process must be administered by any arbitrator
6 agreed upon by the parties at the time the dispute arises if the
7 procedures comply with the requirements of chapter 7.04A RCW relating
8 to arbitration.

9 (3) Parties to a dispute arising under the provisions of this
10 chapter may seek any remedy provided under subsection (2) of this
11 section or otherwise provided by law and, in addition, a party to a
12 dispute under this chapter entering into arbitration as an initial
13 method of dispute resolution may seek a refund or credit made to an
14 account holder to cover the cost of any unauthorized transaction
15 related to the breach, except that costs under this subsection may not
16 include any amounts recovered by the financial institution from a
17 credit card company.

18 NEW SECTION. **Sec. 4.** This act takes effect January 1, 2010,
19 providing remedies for a breach of the security of the system occurring
20 after that date.

--- END ---
