15 NEW SECTION. **Sec. 160.** A new section is added to chapter 43.30
16 RCW to read as follows:

17 (1) A program for salmon and steelhead recovery is established in
18 Clark, Cowlitz, Lewis, Skamania, and Wahkiakum counties within the
19 habitat areas classified as the lower Columbia evolutionarily
20 significant units by the federal national marine fisheries service.
21 The department is responsible for developing and overseeing the
22 implementation of the habitat portion of the salmon and steelhead
23 recovery plan and is empowered to receive and disburse funds for the
24 salmon and steelhead recovery initiatives. The department of natural
25 resources shall be the lead entity responsible for fulfilling the
26 requirements and exercising powers under this chapter.

27 (2)(a) The department shall participate in the development of a
28 habitat recovery plan to implement its responsibilities under (b) of
29 this subsection. The department shall consider local watershed efforts
30 and activities as well as habitat conservation plans in the development
31 and implementation of the recovery plan. Any of the participating
32 counties may continue its own efforts for restoring steelhead habitat.
33 Nothing in this section limits the authority of units of local

1 government to enter into interlocal agreements under chapter 39.34 RCW
2 or any other provision of law.

3 (b) The department is responsible for the development of a lower
4 Columbia salmon and steelhead habitat recovery plan and for
5 coordinating and monitoring the implementation of the plan. The
6 department will submit all future plans and amendments to plans to the
7 governor's salmon recovery office for the incorporation of hatchery,
8 harvest, and hydropower components of the statewide salmon recovery
9 strategy for all submissions to the national marine fisheries service.
10 In developing and implementing the habitat recovery plan, the
11 department will work with appropriate federal and state agencies,
12 tribal governments, local governments, and the public to make sure
13 hatchery, harvest, and hydropower components receive consideration in
14 context with the habitat component. The department may work in
15 cooperation with the state and the national marine fisheries service to
16 modify the plan, or to address habitat for other aquatic species that
17 may be subsequently listed under the federal endangered species act.
18 The department may not exercise authority over land or water within the
19 individual counties or otherwise preempt the authority of any units of
20 local government.

21 (c) The department shall prioritize as appropriate and approve
22 projects and programs related to the recovery of lower Columbia river
23 salmon and steelhead runs, including the funding of those projects and
24 programs, and coordinate local government efforts as prescribed in the
25 recovery plan. The department shall establish criteria for funding
26 projects and programs based upon their likely value in salmon and
27 steelhead recovery. The department may consider local economic impact
28 among the criteria, but jurisdictional boundaries and factors related
29 to jurisdictional population may not be considered as part of the
30 criteria.

31 (d) The department shall assess the factors for decline along each
32 tributary basin in the lower Columbia. The department is encouraged to
33 take a stream-by-stream approach in conducting the assessment which
34 utilizes state and local expertise, including volunteer groups,
35 interest groups, and affected units of local government.

36 (3) The department has the authority to hire and fire staff,
37 including an executive director, enter into contracts, accept grants
38 and other moneys, disburse funds, make recommendations to cities and

1 counties about potential code changes and the development of programs
2 and incentives upon request, pay all necessary expenses, and may choose
3 a fiduciary agent. The department shall report on its progress on a
4 biennial basis to the legislative bodies of the five participating
5 counties and the state natural resources-related agencies. The
6 department shall prepare a final report at the conclusion of the
7 program describing its efforts and successes in developing and
8 implementing the lower Columbia salmon and steelhead recovery plan.
9 The final report shall be transmitted to the appropriate committees of
10 the legislature, the legislative bodies of the participating counties,
11 and the state natural resources-related agencies.

12 (4) The program terminates on July 1, 2010.

13 (5) For purposes of this section, "evolutionarily significant unit"
14 means the habitat area identified for an evolutionarily significant
15 unit of an aquatic species listed or proposed for listing as a
16 threatened or endangered species under the federal endangered species
17 act (16 U.S.C. Sec. 1531 et seq.).
