

HB 2120 - DIGEST

Requires the utilities and transportation commission to annually submit a pilotage tariff recommendation report to the board of pilotage commissioners, the governor, and the chairs of the transportation committees of the senate and the house of representatives for any pilotage district where pilotage is not administered by a port authority.

Requires the board of pilotage commissioners to: (1) Consider any tariff adjustment recommendations included in the utilities and transportation commission report; and

(2) Provide a report clearly documenting specific rationale to the governor and the chairs of the transportation committees of the senate and the house of representatives if the board deviates from tariff adjustment recommendations included in the utilities and transportation commission report.
