

FINAL BILL REPORT

SB 5295

C 50 L 11
Synopsis as Enacted

Brief Description: Regarding leases of irrigation district property.

Sponsors: Senators Delvin, Swecker, Schoesler, Holmquist Newbry, Honeyford and Hewitt.

Senate Committee on Agriculture & Rural Economic Development
House Committee on Local Government

Background: Irrigation districts provide construction, improvement, maintenance, and operation of irrigation systems. Irrigation districts may also provide drainage, domestic water supply, and electric power facilities. A board of three, five, or seven elected directors manages each irrigation district.

An irrigation district may sell or lease its real property if the property is not needed by the district and public notice is given by publishing in a local newspaper at least once a week for three consecutive weeks.

The district has the following options with regard to this property:

- lease the property from year to year;
- give the lessee the option to purchase the property;
- sell the property on contract for deferred payments;
- sell the property pursuant to a promissory note secured by a mortgage or deed of trust; or
- sell the property for cash and conveyance by deed.

The board must make record of the real property sale or lease price. This price must be not less than the reasonable market value of the property unless the property is donated for highway or public utility purposes that enhance the value of the district's remaining property more than the value of the donated land.

Summary: An irrigation district may lease real property it owns for a duration determined by its board. The restriction for a year-to-year lease is deleted.

Votes on Final Passage:

Senate	48	0
House	93	0
