based on the land's current use value rather than the land's market value. The purpose of the program is to encourage retention of the land in agricultural, forestry, or other approved open space uses by taxing the land according to its income producing capacity in those uses rather than on its value if converted to other uses.

Two chapters establish the criteria for land to qualify for the current use program. Chapter 84.33 RCW applies to timber lands and chapter 84.34 RCW applies primarily to agricultural lands and open space lands.

To enroll in these programs, different criteria applies to categories based on parcel size. The three size categories are over 20 acres; five to 20 acres; and under five acres. To determine the parcel size, multiple parcels that are contiguous and held by the same ownership are combined.

There have been questions as to what the term "same ownership" is intended to include when the multiple parcels of contiguous land is owned by different family members.

Summary of Substitute Bill: The term "same ownership" is defined to include multiple contiguous parcels that are managed as part of a single operation and (a) owned by members of the same family, (b) legal entities wholly owned by members of the same family, or (c) a combination of individuals and entities that are wholly owned by members of the family.

This definition applies to the chapters of the current use valuation law that apply to forest lands, farm and agricultural lands, and open space lands.

Appropriation: None.

Fiscal Note: Available.

Committee/Commission/Task Force Created: None

Effective Date: Ninety days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony on Original Bill (Agriculture & Rural Economic Development): PRO: County assessors have been implementing the Open Spaces Act for a number of years. Recently, reviews by the Department of Revenue of county procedures raised questions as to what same ownership was intended to mean. With estate planning, many farms are owned by various configurations of family members. The main criteria is whether the land continues to be used for agricultural purposes.

Persons Testifying (Agriculture & Rural Economic Development): PRO: Don Munks, Skagit County Assessor; Dave Cook, Yakima County Assessor; Leslie Cushman, self.

Staff Summary of Public Testimony on Recommended Substitute (Ways & Means): PRO: The bill is an improvement of the farm and agriculture preservation program, and will allow families to farm contiguous properties as a single operation. This is an important bill for family farms.

Persons Testifying (Ways & Means): PRO: Senator Morton, prime sponsor; Leslie Cushman, self.
