**Staff Summary of Public Testimony on Original Bill:** PRO: This bill helps students that need child care, and provides a funding source that the students proposed. We need a funding mechanism for the current program. There is no impact to the state General Fund. These programs help student-parents obtain their degrees. We should enhance educational opportunities for non-traditional students. It also mitigates the third largest barrier to higher education: child care. These programs allow student-parents to better themselves. It is a step to help students earn a student wage. Enabling student-parents to earn degrees is a good investment.

The administrative framework for these programs for two-year colleges are already in place to provide matching grants. Students are willing to match these grants. The lottery impact is minimal. A small amount of matching money can have a large impact. Consider amending the bill to include the SBCTC.

**Persons Testifying:** PRO: Senator Brown, prime sponsor; Ben Henry, Mike Merz, Washington Student Association; Shiboney Dumo, University of Washington Student Organization; Kayeri Akweks, Washington SBCTC.
