Summary of Bill: The governing boards of each of the state universities, the regional universities, The Evergreen State College, and community colleges in addition to their other duties prescribed by law will have the power and authority to establish programs for intercollegiate athletic competition; however, such programs at the University of Washington (UW) and the Washington State University (WSU) will not be funded with state appropriations or operating fees.

All monies received as operating fees at any institution of higher education will be deposited in a local account containing only operating fees revenue and related interest. Provided, that among other things, operating fees of UW and WSU will not be used to fund programs established for intercollegiate athletic competition, except that this prohibition on the use of operating fees is not applicable to tuition waivers provided to achieve gender equity in intercollegiate athletic competition.

Appropriation: None.

Fiscal Note: Available.

Committee/Commission/Task Force Created: No.

Effective Date: Ninety days after adjournment of session in which bill is passed.

Staff Summary of Public Testimony: PRO: Work was needed to make college sports teams great at WSU and there are costs associated with that. The sports conference is expanding. Previous revenue rewarded those people on television. We need to invest in infrastructure and good athletes. We have had a turnover in football coaches at WSU. Our fans are now being reinvigorated. We can use ticket sales to help pay for facilities and athletes. UW wants to continue the athletics program being self sustained. The program contributes to the university in paying for its own rent and utilities at UW. This is good policy. At the UW, all pensions are paid by athletics revenue raised at the UW.

Persons Testifying: PRO: Bill Moos, WSU; Margaret Shepherd, UW.
