12 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

13 NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted and,
14 subject to the provisions set forth in this act, the several dollar
15 amounts hereinafter specified, or so much thereof as shall be
16 sufficient to accomplish the purposes designated, are hereby
17 appropriated and authorized to be incurred for capital projects during
18 the period beginning with the effective date of this act and ending
19 June 30, 2013, out of the several funds specified in this act.

1 (2) The definitions in this subsection apply throughout this act
2 unless the context clearly requires otherwise.

3 (a) "Fiscal year 2012" or "FY 2012" means the period beginning July
4 1, 2011, and ending June 30, 2012.

5 (b) "Fiscal year 2013" or "FY 2013" means the period beginning July
6 1, 2012, and ending June 30, 2013.

7 (c) "Lapse" or "revert" means the amount shall return to an
8 unappropriated status.

9 (d) "Provided solely" means the specified amount may be spent only
10 for the specified purpose.

11 (3) The appropriations in this act are appropriations for capital
12 purposes from sources other than bond proceeds. Appropriations in this
13 act may not necessarily represent all expenditures authorized for a
14 particular project for the 2011-2013 fiscal biennium. For some
15 projects receiving appropriations in this act, additional
16 appropriations from other sources for those projects may also be
17 contained in chapter, Laws of 2011 (House Bill No. 2020).

18 (4) Unless otherwise specifically authorized in this act, any
19 portion of an amount provided solely for a specified purpose that is
20 not expended subject to the specified conditions and limitations to
21 fulfill the specified purpose shall lapse.

22 (5) The amounts shown under the headings "Prior Biennia," "Future
23 Biennia," and "Total" in this act are for informational purposes only
24 and do not constitute legislative approval of these amounts. "Prior
25 biennia" typically refers to the immediate prior biennium for
26 reappropriations, but may refer to multiple biennia in the case of
27 specific projects. A "future biennia" amount is an estimate of what
28 may be appropriated for the project or program in the 2011-2013
29 biennium and the following three biennia; an amount of zero does not
30 necessarily constitute legislative intent to not provide funding for
31 the project or program in the future.

32 (6) "Reappropriations" in this act are appropriations and, unless
33 the context clearly provides otherwise, are subject to the relevant
34 conditions and limitations applicable to appropriations.
35 Reappropriations shall be limited to the unexpended balances remaining
36 on June 30, 2011, from the 2009-2011 biennial appropriations for each
37 project.

1 **PART 7**

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 7001.** (1) Allotments for appropriations in this
4 act shall be provided in accordance with the capital project review
5 requirements adopted by the office of financial management and in
6 compliance with RCW 43.88.110. Projects that will be employing
7 alternative public works construction procedures under chapter 39.10
8 RCW are subject to the allotment procedures defined in this section and
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 7002.** To ensure that major construction
13 projects are carried out in accordance with legislative and executive
14 intent, appropriations in this act in excess of \$5,000,000 shall not be
15 expended or encumbered until the office of financial management has
16 reviewed and approved the agency's predesign. The predesign document
17 shall include but not be limited to program, site, and cost analysis in
18 accordance with the predesign manual adopted by the office of financial
19 management. To improve monitoring of major construction projects,
20 progress reports shall be submitted by the agency administering the
21 project to the office of financial management and to the fiscal
22 committees of the house of representatives and senate. Reports will be
23 submitted on July 1st and December 31st each year in a format to be
24 developed by the office of financial management.

25 NEW SECTION. **Sec. 7003.** (1) To ensure minor works appropriations
26 are carried out in accordance with legislative intent, funds
27 appropriated in this act shall not be allotted until project lists are
28 on file at the office of financial management, the house of
29 representatives capital budget committee, and the senate ways and means
30 committee. All projects must meet the criteria included in subsection
31 (2)(a) of this section. Revisions to the lists must be filed with the
32 office of financial management, the house of representatives capital
33 budget committee, and the senate ways and means committee and include

1 an explanation of variances from the prior lists before funds may be
2 expended on the revisions.

3 (2)(a) Minor works projects are single line appropriations that
4 include multiple projects of a similar nature and that are valued
5 between \$25,000 and \$1,000,000 each, with the exception of higher
6 education minor works projects that may be valued up to \$2,000,000.
7 These projects can generally be completed within two years of the
8 appropriation with the funding provided. Agencies are prohibited from
9 including projects on their minor works lists that are a phase of a
10 larger project, and that if combined over a continuous period of time,
11 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
12 projects. Improvements for accessibility in compliance with the
13 Americans with disabilities act may be included in any of the above
14 minor works categories.

15 (b) Minor works appropriations shall not be used for, among other
16 things: Studies, except for technical or engineering reviews or
17 designs that lead directly to and support a project on the same minor
18 works list; planning; design outside the scope of work on a minor works
19 list; moveable, temporary, and traditionally funded operating equipment
20 not in compliance with the equipment criteria established by the office
21 of financial management; software not dedicated to control of a
22 specialized system; moving expenses; land or facility acquisition; or
23 to supplement funding for projects with funding shortfalls unless
24 expressly authorized elsewhere in this act. The office of financial
25 management may make an exception to the limitations described in this
26 subsection (2)(b) for exigent circumstances after notifying the
27 legislative fiscal committees and waiting ten days for comments by the
28 legislature regarding the proposed exception.

29 (c) Minor works preservation projects may include program
30 improvements of no more than twenty-five percent of the individual
31 minor works preservation project cost.

32 (3) It is generally not the intent of the legislature to make
33 future appropriations for capital expenditures or for maintenance and
34 operating expenses for an acquisition project or a significant
35 expansion project that is initiated through the minor works process and
36 therefore does not receive a policy and fiscal analysis by the
37 legislature. Minor works projects are intended to be one-time
38 expenditures that do not require future state resources to complete.

1 NEW SECTION. **Sec. 7004.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects that
10 are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes that
14 govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids have
19 been let on a project and it appears to a substantial certainty that
20 the project as defined in the notes to the budget document can be
21 completed within the biennium for less than the amount appropriated in
22 this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative history
26 that the legislature intended to define the scope of a project in a
27 different way.

28 (4) The office of financial management shall report any transfer
29 effected under this section to the house of representatives capital
30 budget committee, the senate ways and means committee, and the
31 legislative evaluation and accountability program committee, at least
32 thirty days before the date the transfer is effected. The office of
33 financial management shall report all emergency or smaller transfers
34 within thirty days from the date of transfer. The governor's capital
35 budget request following any transfer shall reflect that transfer in
36 the affected agency.

1 **Sec. 7005.** RCW 39.35B.050 and 2007 c 506 s 3 are each amended to
2 read as follows:

36 (d) General fund--state moneys appropriated into the account by the
37 legislature.

1 (2) Moneys in the account may be appropriated only for fire service
2 training. The state patrol may use amounts appropriated from the fire
3 service training account under this section to contract with the
4 Washington state firefighters apprenticeship trust for the operation of
5 the firefighter joint apprenticeship training program. The contract
6 may call for payments on a monthly basis. During the 2009-2011 fiscal
7 biennium, the legislature may appropriate funds from this account for
8 school fire prevention activities within the Washington state patrol
9 and for repairs of the burn building. During the 2011-2013 fiscal
10 biennium, the legislature may appropriate funds from this account for
11 school fire prevention activities within the Washington state patrol,
12 and for predesign and repairs of the burn building.

13 (3) Any general fund--state moneys appropriated into the account
14 shall be allocated solely to the firefighter joint apprenticeship
15 training program. The Washington state patrol may contract with
16 outside entities for the administration and delivery of the firefighter
17 joint apprenticeship training program.

18 **Sec. 7027.** RCW 43.63A.125 and 2008 c 327 s 15 are each amended to
19 read as follows:

20 (1) The department shall establish the building communities fund
21 program. Under the program, capital and technical assistance grants
22 may be made to nonprofit organizations for acquiring, constructing, or
23 rehabilitating facilities used for the delivery of nonresidential
24 community services, including social service centers and multipurpose
25 community centers, including those serving a distinct or ethnic
26 population. Such facilities must be located in a distressed community
27 or serve a substantial number of low-income or disadvantaged persons.

28 (2) The department shall establish a competitive process to solicit
29 ~~((and))~~, evaluate, and rank applications for the building communities
30 fund program as follows:

31 (a) The department shall conduct a statewide solicitation of
32 project applications from nonprofit organizations.

33 (b) The department shall evaluate and rank applications in
34 consultation with a citizen advisory committee using objective
35 criteria. To be considered qualified, applicants must demonstrate that
36 the proposed project:

1 (i) Will increase the range, efficiency, or quality of the services
2 provided to citizens;

3 (ii) Will be located in a distressed community or will serve a
4 substantial number of low-income or disadvantaged persons;

5 (iii) Will offer three or more distinct activities that meet a
6 single community service objective or offer a diverse set of activities
7 that meet multiple community service objectives, including but not
8 limited to: Providing social services; expanding employment
9 opportunities for or increasing the employability of community
10 residents; or offering educational or recreational opportunities
11 separate from the public school system or private schools, as long as
12 recreation is not the sole purpose of the facility;

13 (iv) Reflects a long-term vision for the development of the
14 community, shared by residents, businesses, leaders, and partners;

15 (v) Requires state funding to accomplish a discrete, usable phase
16 of the project;

17 (vi) Is ready to proceed and will make timely use of the funds;

18 (vii) Is sponsored by one or more entities that have the
19 organizational and financial capacity to fulfill the terms of the grant
20 agreement and to maintain the project into the future;

21 (viii) Fills an unmet need for community services;

22 (ix) Will achieve its stated objectives; and

23 (x) Is a community priority as shown through tangible commitments
24 of existing or future assets made to the project by community
25 residents, leaders, businesses, and government partners.

26 (c) The evaluation and ranking process shall also include an
27 examination of existing assets that applicants may apply to projects.
28 Grant assistance under this section shall not exceed twenty-five
29 percent of the total cost of the project, except, under exceptional
30 circumstances, the department may reduce the amount of nonstate match
31 required. No more than ten percent of the total granted amount may be
32 awarded to qualified eligible projects that meet the definition of
33 exceptional circumstances defined in this subsection. For purposes of
34 this subsection, exceptional circumstances include but are not limited
35 to: Natural disasters affecting projects; emergencies beyond an
36 applicant's control, such as a fire or an unanticipated loss of a lease
37 where services are currently provided; or a delay that could result in

1 a threat to public health or safety. The nonstate portion of the total
2 project cost may include cash, the value of real property when acquired
3 solely for the purpose of the project, and in-kind contributions.

4 (d) The department may not set a monetary limit to funding
5 requests.

6 (3) The department shall submit (~~annually~~) biennially to the
7 governor and the legislature in the department's capital budget request
8 (~~an unranked~~) a ranked list of the qualified eligible projects for
9 which applications were received. The list must include a description
10 of each project, its total cost, and the amount of state funding
11 requested. The appropriate fiscal committees of the legislature shall
12 use this list to determine building communities fund projects that may
13 receive funding in the capital budget. The total amount of state
14 capital funding available for all projects on the (~~annual~~) biennial
15 list shall be determined by the capital budget beginning with the 2009-
16 2011 biennium and thereafter. In addition, if cash funds have been
17 appropriated, up to three million dollars may be used for technical
18 assistance grants. The department shall not sign contracts or
19 otherwise financially obligate funds under this section until the
20 legislature has approved a specific list of projects.

21 (4) In addition to the list of ranked qualified eligible projects,
22 the department shall submit to the appropriate fiscal committees of the
23 legislature a summary report that describes the solicitation and
24 evaluation processes, including but not limited to the number of
25 applications received, the total amount of funding requested, issues
26 encountered, if any, and any recommendations for process improvements.

27 (5) After the legislature has approved a specific list of projects
28 in law, the department shall develop and manage appropriate contracts
29 with the selected applicants; monitor project expenditures and grantee
30 performance; report project and contract information; and exercise due
31 diligence and other contract management responsibilities as required.

32 (6) In contracts for grants authorized under this section the
33 department shall include provisions which require that capital
34 improvements shall be held by the grantee for a specified period of
35 time appropriate to the amount of the grant and that facilities shall
36 be used for the express purpose of the grant. If the grantee is found
37 to be out of compliance with provisions of the contract, the grantee
38 shall repay to the state general fund the principal amount of the grant

1 plus interest calculated at the rate of interest on state of Washington
2 general obligation bonds issued most closely to the date of
3 authorization of the grant.
