10 environmental cleanup and restoration account and deposit in the
11 environmental cleanup and restoration bond retirement account an amount
12 equal to the amount certified by the state finance committee to be due

28 70.105D.040(4) and when the director has found that the funding will
29 achieve both (A) a substantially more expeditious or enhanced cleanup
30 than would otherwise occur, and (B) the prevention or mitigation of

33 persons and organizations in the investigation and remedying of
34 releases or threatened releases of hazardous substances and to
35 implement the state's solid and hazardous waste management priorities.
36 No grant may exceed sixty thousand dollars. Grants may be renewed

1 account which are not expended at the close of any biennium shall
2 revert to the state toxics control account.

17 ~~account may also be used for a standby rescue tug at Neah Bay, local~~
18 ~~government shoreline update grants, private and public sector diesel~~
19 ~~equipment retrofit, and oil spill prevention, preparedness, and~~
20 ~~response activities.~~

21 ~~(10) During the 2009-2011 fiscal biennium, the legislature may~~

19 credit enhancement reserve account shall be maintained in an amount
20 equal to maximum annual debt service on all outstanding bonds secured
21 thereby or in such other amount as may be required by the bond
22 proceedings. Any withdrawal from the 2012 jobs act credit enhancement
23 reserve account to pay debt service on bonds secured thereby shall be
24 replenished within six months after the withdrawal or in such other
25 manner as may be required by the bond proceedings by transfers from the
26 public works assistance account required by section 602 of this act.

27 (3) By July 1st of each year, the state treasurer must transfer
28 sufficient amounts from loan repayment revenues received in the public

18 transfers to the 2012 jobs act credit enhancement reserve account as
19 required to secure payment of debt service on all bonds issued by the
20 state under this act in accordance with the bond proceedings. The
21 legislature further pledges to continue to use amounts held in the
22 public works assistance account to make loans to local governments for
23 public works projects in a manner that is reasonably calculated to
24 produce loan repayments in amounts at least sufficient to meet the
25 requirements of this subsection (3) in accordance with the bond
26 proceedings.

27 (4) Moneys in the account may also be appropriated or transferred

36 not more than ten percent of the biennial capital budget appropriation
37 may be expended for emergency loans and not more than one percent of
38 the biennial capital budget appropriation may be expended for capital

25 **APPROPRIATIONS--LOCAL GOVERNMENT CAPITAL CONSTRUCTION ASSISTANCE**

26 NEW SECTION. Sec. 701. FOR THE DEPARTMENT OF COMMERCE
27 Energy Efficiency Grants for Local Governments (91000241)

28 The appropriation in this section is subject to the following
29 conditions and limitations:

30 (1) The appropriation is provided solely for grants to local
31 agencies for operational cost savings improvements to local agency
32 facilities and related projects that result in energy and operational
33 cost savings. Related projects are those projects that must be
34 completed in order for the energy efficiency improvements to be

1 effective. Grants may also be used for loan interest payments over the
2 term of a loan.

3 (2) The community services and housing division within the
4 department of commerce, in consultation with the department of
5 enterprise services, and the Washington State University energy program
6 shall establish a competitive process to solicit and evaluate
7 applications from local agencies. Final grant awards shall be
8 determined by the department of commerce.

9 (3) For the purposes of this section:

10 (a) "Cost-effectiveness" means that the present value to the local
11 agency of the energy reasonably expected to be saved or produced by a
12 facility, activity, measure, or piece of equipment over its useful
13 life, including any compensation received from a utility or the
14 Bonneville power administration, is greater than the net present value
15 of the costs of implementing, maintaining, and operating such facility,
16 activity, measure, or piece of equipment over its useful life, when
17 discounted at the cost of public borrowing.

18 (b) "Energy equipment" means energy management systems and any
19 equipment, materials, or supplies that are expected, upon installation,
20 to reduce the energy use or energy cost of an existing building or
21 facility, and the services associated with the equipment, materials, or
22 supplies, including, but not limited to, design, engineering,
23 financing, installation, project management, guarantees, operations,
24 and maintenance. Reduction in energy use or energy cost may also
25 include reductions in the use or cost of water, wastewater, or solid
26 waste.

27 (c) "Energy cost savings" means savings realized in expenses for
28 energy use and expenses associated with water, wastewater, or solid
29 waste systems.

30 (d) "Energy savings performance contracting" means the process
31 authorized by chapter 39.35C RCW by which a company contracts with a
32 local agency to conduct energy audits and guarantee energy savings from
33 energy efficiency.

34 (e) "Operational cost savings" means savings realized from parts,
35 service fees, capital renewal costs, and other measurable annual
36 expenses to maintain and repair systems. This definition does not mean
37 labor savings related to existing facility staff.

1 (f) "Public facilities" means buildings, building components, and
2 major equipment or systems owned by local agencies.

3 (g) "Local agency" means any city and any town, county, special
4 district, municipal corporation, agency, port district or authority, or
5 political subdivision of any type, or any other entity or authority of
6 local government in corporate form or otherwise.

7 (4) Grants must be awarded in competitive rounds, based on demand
8 and capacity, with at least ten percent of each competitive grant round
9 awarded to small cities or towns with a population of fewer than five
10 thousand residents.

11 (5) In order to be eligible for energy efficiency grants under this
12 section, applicants must complete an investment grade audit, or an
13 equivalent, prior to submitting an application for funding.

14 (6) Within each competitive round, projects must be weighted and
15 prioritized based on the following criteria and in the following order:

16 (a) Leverage ratio: In each round, the higher the leverage ratio
17 of nonstate funding sources to state grant, the higher the project
18 ranking.

19 (b) Energy savings: In each round, the higher the energy savings,
20 the higher the project ranking. Applicants must submit documentation
21 that demonstrates energy and operational cost savings resulting from
22 the installation of the energy equipment and improvements. The energy
23 savings analysis shall be performed by a licensed engineer, and the
24 documentation must include but is not limited to the following:

25 (i) A description of the energy equipment and improvements; and

26 (ii) A description of the energy and operational cost savings.

27 (c) Expediency of expenditure: Project readiness to spend funds
28 must be prioritized so that the legislative intent to expend funds
29 quickly is met.

30 (7) Projects that do not use energy savings performance contracting
31 must: (a) Verify energy and operational cost savings for ten years or
32 until the energy and operational costs savings pay for the project,
33 whichever is shorter; (b) follow the department of enterprise services
34 energy savings performance contracting project guidelines; and (c)
35 employ a licensed engineer for the energy audit and construction. The
36 department of commerce may require third-party verification of savings
37 if a project is not implemented by an energy savings performance
38 contractor selected by the department of enterprise services through

1 the request of qualifications process. Third-party verification must
2 be conducted either by an energy savings performance contractor
3 selected by the department of enterprise services through a request for
4 qualifications, a licensed engineer that is a certified energy manager,
5 or a project resource conservation manager.

6 (8) To intensify competition, the department of commerce may only
7 award funds to the top eighty-five percent of projects applying in a
8 round until the department of commerce determines a final round is
9 appropriate. Projects that do not receive a grant award in one round
10 may reapply in subsequent rounds.

11 (9) Grant amounts awarded to each project must allow for the
12 maximum number of projects funded with the greatest energy and cost
13 benefit.

14 (10) The department of commerce may charge projects administrative
15 fees and may pay the department of enterprise services, and the
16 Washington State University energy program administration fees in an
17 amount determined through a memorandum of understanding.

18 (11) The department of commerce and the department of enterprise
19 services must submit a joint report to the appropriate committees of
20 the legislature and the office of financial management on the timing
21 and use of the grant funds, program administrative function, compliance
22 with apprenticeship utilization requirements in RCW 39.04.320,
23 compliance with prevailing wage requirements, and administration fees
24 by the end of each fiscal year, until the funds are fully expended and
25 all savings verification requirements are fulfilled.

35 conditions and limitations:

2 this section, the department shall not expend the appropriations in
3 this section unless and until the nonstate share of project costs have
4 been either expended, or firmly committed, or both, in an amount
5 sufficient to complete the project or a distinct phase of the project
6 that is useable to the public for the purpose intended by the
7 legislature.

8 (2) Prior to receiving funds, project recipients must demonstrate
9 that the project site is under control for a minimum of ten years,
10 either through ownership or a long-term lease. This requirement does
11 not apply to appropriations for preconstruction activities or
12 appropriations whose sole purpose is to purchase real property that
13 does not include a construction or renovation component.

14 (3) Projects funded in this section may be required to comply with
15 Washington's high performance building standards as required by chapter
16 39.35D RCW.

21 intended by the legislature as required in RCW 43.63A.125(6).

8 described in this act that are specified to be funded with proceeds
9 from the sale of bonds authorized in this act, the legislature declares
10 that any such expenditures made prior to the issue date of the

12 are intended to be reimbursed from proceeds of the sale of the
13 applicable bonds in a maximum amount equal to the amount of the
14 applicable authorized bonds.

16 act shall be provided in accordance with expedited capital project
17 review requirements adopted by the office of financial management.

18 (2) Each project is defined as proposed in the legislative budget
19 notes or in the governor's budget document.

20 NEW SECTION. **Sec. 1103.** (1) To ensure minor works appropriations
21 are carried out in accordance with legislative intent, funds
22 appropriated in this act shall not be allotted until project lists are
23 on file at the office of financial management, the house of
24 representatives capital budget committee, and the senate ways and means
25 committee. All projects must meet the criteria included in subsection
26 (2)(a) of this section. Revisions to the lists must be filed with the
27 office of financial management, the house of representatives capital
28 budget committee, and the senate ways and means committee and include
29 an explanation of variances from the prior lists before funds may be
30 expended on the revisions.

31 (2)(a) Minor works projects are single line appropriations that
32 include multiple projects of a similar nature and that are valued
33 between \$25,000 and \$1,000,000 each, with the exception of higher

35 These projects can generally be completed within two years of the
36 appropriation with the funding provided. Agencies are prohibited from

1 including projects on their minor works lists that are a phase of a
2 larger project, and that if combined over a continuous period of time,
3 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
4 projects. Improvements for accessibility in compliance with the

20 legislature regarding the proposed exception.

21 (c) Minor works preservation projects may include program
22 improvements of no more than twenty-five percent of the individual
23 minor works preservation project cost.

24 (3) It is generally not the intent of the legislature to make
25 future appropriations for capital expenditures or for maintenance and
26 operating expenses for an acquisition project or a significant
27 expansion project that is initiated through the minor works process and
28 therefore does not receive a policy and fiscal analysis by the
29 legislature. Minor works projects are intended to be one-time

33 capital project that is in excess of the amount required for the
34 completion of such project to another capital project for which the
35 appropriation is insufficient. No such transfer may be used to expand
36 the capacity of any facility beyond that intended in making the
37 appropriation. Such transfers may be effected only between capital

1 appropriations to a specific department, commission, agency, or
2 institution of higher education and only between capital projects that
3 are funded from the same fund or account. No transfers may occur
4 between projects to local government agencies except where the grants
5 are provided within a single omnibus appropriation and where such
6 transfers are specifically authorized by the implementing statutes that
7 govern the grants.

8 (2) The office of financial management may find that an amount is
9 in excess of the amount required for the completion of a project only
10 if: (a) The project as defined in the notes to the budget document is
11 substantially complete and there are funds remaining; or (b) bids have
12 been let on a project and it appears to a substantial certainty that
13 the project as defined in the notes to the budget document can be
14 completed within the biennium for less than the amount appropriated in
15 this act.

16 (3) For the purposes of this section, the intent is that each
17 project be defined as proposed to the legislature in the governor's
18 budget document, unless it clearly appears from the legislative history
19 that the legislature intended to define the scope of a project in a
20 different way.

21 (4) The office of financial management shall report any transfer
22 effected under this section to the house of representatives capital
23 budget committee, the senate ways and means committee, and the
24 legislative evaluation and accountability program committee, at least
25 thirty days before the date the transfer is effected. The office of
26 financial management shall report all emergency or smaller transfers
27 within thirty days from the date of transfer. The governor's capital
28 budget request following any transfer shall reflect that transfer in
29 the affected agency.

30 NEW SECTION. **Sec. 1105.** (1) It is expected that projects be ready
31 to proceed in a timely manner depending on the type or phase of the
32 project or program that is the subject of the appropriation in this
33 act. Except for major projects that customarily may take more than two
34 biennia to complete from predesign to the end of construction, or large
35 infrastructure grant or loan programs supporting projects that often
36 take more than two biennia to complete, the legislature generally does

1 not intend to reappropriate funds more than once, particularly for
2 smaller grant programs, local/community projects, and minor works.

3 (2) Agencies shall expedite the expenditure of reappropriations and
4 appropriations in this act in order to: (a) Rehabilitate
5 infrastructure resources; (b) accelerate environmental rehabilitation
6 and restoration projects for the improvement of the state's natural
7 environment; (c) reduce additional costs associated with acquisition
8 and construction inflationary pressures; and (d) provide additional
9 employment opportunities associated with capital expenditures.

10 (3) To the extent feasible, agencies are directed to accelerate
11 expenditure rates at their current level of permanent employees and
12 shall use contracted design and construction services wherever
13 necessary to meet the goals of this section.

14 **Sec. 1106.** RCW 43.155.070 and 2009 c 518 s 16 are each amended to
15 read as follows:

16 (1) To qualify for loans or pledges under this chapter the board
17 must determine that a local government meets all of the following
18 conditions:

19 (a) The city or county must be imposing a tax under chapter 82.46
20 RCW at a rate of at least one-quarter of one percent;

21 (b) The local government must have developed a capital facility
22 plan; and

23 (c) The local government must be using all local revenue sources
24 which are reasonably available for funding public works, taking into
25 consideration local employment and economic factors.

26 (2) Except where necessary to address a public health need or
27 substantial environmental degradation, a county, city, or town planning
28 under RCW 36.70A.040 must have adopted a comprehensive plan, including
29 a capital facilities plan element, and development regulations as
30 required by RCW 36.70A.040. This subsection does not require any
31 county, city, or town planning under RCW 36.70A.040 to adopt a
32 comprehensive plan or development regulations before requesting or
33 receiving a loan or loan guarantee under this chapter if such request
34 is made before the expiration of the time periods specified in RCW
35 36.70A.040. A county, city, or town planning under RCW 36.70A.040
36 which has not adopted a comprehensive plan and development regulations
37 within the time periods specified in RCW 36.70A.040 is not prohibited

1 from receiving a loan or loan guarantee under this chapter if the
2 comprehensive plan and development regulations are adopted as required
3 by RCW 36.70A.040 before submitting a request for a loan or loan
4 guarantee.

5 (3) In considering awarding loans for public facilities to special
6 districts requesting funding for a proposed facility located in a
7 county, city, or town planning under RCW 36.70A.040, the board shall
8 consider whether the county, city, or town planning under RCW
9 36.70A.040 in whose planning jurisdiction the proposed facility is
10 located has adopted a comprehensive plan and development regulations as
11 required by RCW 36.70A.040.

12 (4) The board shall develop a priority process for public works
13 projects as provided in this section. The intent of the priority
14 process is to maximize the value of public works projects accomplished
15 with assistance under this chapter. The board shall attempt to assure
16 a geographical balance in assigning priorities to projects. The board
17 shall consider at least the following factors in assigning a priority
18 to a project:

19 (a) Whether the local government receiving assistance has
20 experienced severe fiscal distress resulting from natural disaster or
21 emergency public works needs;

22 (b) Except as otherwise conditioned by RCW 43.155.110, whether the
23 entity receiving assistance is a Puget Sound partner, as defined in RCW
24 90.71.010;

25 (c) Whether the project is referenced in the action agenda
26 developed by the Puget Sound partnership under RCW 90.71.310;

27 (d) Whether the project is critical in nature and would affect the
28 health and safety of a great number of citizens;

29 (e) Whether the applicant has developed and adhered to guidelines
30 regarding its permitting process for those applying for development
31 permits consistent with section 1(2), chapter 231, Laws of 2007;

32 (f) The cost of the project compared to the size of the local
33 government and amount of loan money available;

34 (g) The number of communities served by or funding the project;

35 (h) Whether the project is located in an area of high unemployment,
36 compared to the average state unemployment;

37 (i) Whether the project is the acquisition, expansion, improvement,

1 or renovation by a local government of a public water system that is in
2 violation of health and safety standards, including the cost of
3 extending existing service to such a system;

4 (j) Except as otherwise conditioned by RCW 43.155.120, and
5 effective one calendar year following the development of model
6 evergreen community management plans and ordinances under RCW
7 35.105.050, whether the entity receiving assistance has been
8 recognized, and what gradation of recognition was received, in the
9 evergreen community recognition program created in RCW 35.105.030;

10 (k) The relative benefit of the project to the community,
11 considering the present level of economic activity in the community and
12 the existing local capacity to increase local economic activity in
13 communities that have low economic growth; and

14 (l) Other criteria that the board considers advisable.

15 (5) Existing debt or financial obligations of local governments
16 shall not be refinanced under this chapter. Each local government
17 applicant shall provide documentation of attempts to secure additional
18 local or other sources of funding for each public works project for
19 which financial assistance is sought under this chapter.

20 (6) Before November 1st of each even-numbered year, the board shall
21 develop and submit to the appropriate fiscal committees of the senate
22 and house of representatives a description of the loans made under RCW
23 43.155.065, 43.155.068, and subsection (9) of this section during the
24 preceding fiscal year and a prioritized list of projects which are
25 recommended for funding by the legislature, including one copy to the
26 staff of each of the committees. The list shall include, but not be
27 limited to, a description of each project and recommended financing,
28 the terms and conditions of the loan or financial guarantee, the local
29 government jurisdiction and unemployment rate, demonstration of the
30 jurisdiction's critical need for the project and documentation of local
31 funds being used to finance the public works project. The list shall
32 also include measures of fiscal capacity for each jurisdiction
33 recommended for financial assistance, compared to authorized limits and
34 state averages, including local government sales taxes; real estate
35 excise taxes; property taxes; and charges for or taxes on sewerage,
36 water, garbage, and other utilities.

37 (7) The board shall not sign contracts or otherwise financially
38 obligate funds from the public works assistance account before the

1 legislature has appropriated funds for a specific list of public works
2 projects. The legislature may remove projects from the list
3 recommended by the board. The legislature shall not change the order
4 of the priorities recommended for funding by the board.

5 (8) Subsection (7) of this section does not apply to loans made
6 under RCW 43.155.065, 43.155.068, and subsection (9) of this section.

7 (9) Loans made for the purpose of capital facilities plans shall be
8 exempted from subsection (7) of this section.

9 (10) To qualify for loans or pledges for solid waste or recycling
10 facilities under this chapter, a city or county must demonstrate that
11 the solid waste or recycling facility is consistent with and necessary
12 to implement the comprehensive solid waste management plan adopted by
13 the city or county under chapter 70.95 RCW.

14 (11) After January 1, 2010, any project designed to address the
15 effects of storm water or wastewater on Puget Sound may be funded under
16 this section only if the project is not in conflict with the action
17 agenda developed by the Puget Sound partnership under RCW 90.71.310.

18 (12) During the 2011-2013 biennium, solely for the additional
19 funding round described in section 703 of this act, the public works
20 board, local government applicants and proposed projects must meet all
21 requirements of this section; except that, the public works board must
22 approve the prioritized list of projects and funding amounts without
23 seeking legislative approval.

24 NEW SECTION. Sec. 1107. State agencies, including institutions of
25 higher education, shall allot and report full-time equivalent staff for
26 capital projects in a manner comparable to staff reporting for
27 operating expenditures.

28 NEW SECTION. Sec. 1108. Executive Order No. 05-05, archaeological
29 and cultural resources, was issued effective November 10, 2005.
30 Agencies and higher education institutions shall comply with the
31 requirements set forth in this executive order.

32 NEW SECTION. Sec. 1109. (1) Unless otherwise stated, for all
33 appropriations under this act that require a match of nonstate money or
34 in-kind contributions, the following requirement, consistent with RCW

1 43.88.150, shall apply: Expenditures of state money shall be timed so
2 that the state share of project expenditures never exceeds the intended
3 state share of total project costs.

4 (2) Provision of the full amount of required matching funds is not
5 required to permit the expenditure of capital budget appropriations for
6 phased projects if a proportional amount of the required matching funds
7 is provided for each distinct, identifiable phase of the project.

8 NEW SECTION. **Sec. 1110.** CODIFICATION. (1) Sections 201 through
9 208 of this act constitute a new chapter in Title 43 RCW.

10 (2) Sections 301 through 307 of this act constitute a new chapter
11 in Title 43 RCW.

12 (3) Sections 401 through 407 of this act constitute a new chapter
13 in Title 43 RCW.

14 (4) Sections 501 through 506 of this act constitute a new chapter
15 in Title 43 RCW.

16 NEW SECTION. **Sec. 1111.** SEVERABILITY. If any provision of this
17 act or its application to any person or circumstance is held invalid,
18 the remainder of the act or the application of the provision to other
19 persons or circumstances is not affected.

20 NEW SECTION. **Sec. 1112.** EFFECTIVE DATE. This act is necessary
21 for the immediate preservation of the public peace, health, or safety,
22 or support of the state government and its existing public
23 institutions, and takes effect immediately.
