
SENATE BILL 6107

State of Washington

62nd Legislature

2012 Regular Session

By Senators Becker, Keiser, Conway, Swecker, Pridemore, Harper, King, Kilmer, Schoesler, Fain, Frockt, Haugen, Honeyford, Hatfield, Hill, and Parlette

Read first time 01/11/12. Referred to Committee on Health & Long-Term Care.

1 AN ACT Relating to prescription review for medicaid managed care
2 enrollees; and reenacting and amending RCW 74.09.522.

3 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

4 **Sec. 1.** RCW 74.09.522 and 2011 1st sp.s. c 15 s 29, 2011 1st sp.s.
5 c 9 s 2, and 2011 c 316 s 4 are each reenacted and amended to read as
6 follows:

7 (1) For the purposes of this section:

8 (a) "Managed health care system" means any health care
9 organization, including health care providers, insurers, health care
10 service contractors, health maintenance organizations, health insuring
11 organizations, or any combination thereof, that provides directly or by
12 contract health care services covered under this chapter and rendered
13 by licensed providers, on a prepaid capitated basis and that meets the
14 requirements of section 1903(m)(1)(A) of Title XIX of the federal
15 social security act or federal demonstration waivers granted under
16 section 1115(a) of Title XI of the federal social security act;

17 (b) "Nonparticipating provider" means a person, health care
18 provider, practitioner, facility, or entity, acting within their scope
19 of practice, that does not have a written contract to participate in a

1 managed health care system's provider network, but provides health care
2 services to enrollees of programs authorized under this chapter whose
3 health care services are provided by the managed health care system.

4 (2) The authority shall enter into agreements with managed health
5 care systems to provide health care services to recipients of temporary
6 assistance for needy families under the following conditions:

7 (a) Agreements shall be made for at least thirty thousand
8 recipients statewide;

9 (b) Agreements in at least one county shall include enrollment of
10 all recipients of temporary assistance for needy families;

11 (c) To the extent that this provision is consistent with section
12 1903(m) of Title XIX of the federal social security act or federal
13 demonstration waivers granted under section 1115(a) of Title XI of the
14 federal social security act, recipients shall have a choice of systems
15 in which to enroll and shall have the right to terminate their
16 enrollment in a system: PROVIDED, That the authority may limit
17 recipient termination of enrollment without cause to the first month of
18 a period of enrollment, which period shall not exceed twelve months:
19 AND PROVIDED FURTHER, That the authority shall not restrict a
20 recipient's right to terminate enrollment in a system for good cause as
21 established by the authority by rule;

22 (d) To the extent that this provision is consistent with section
23 1903(m) of Title XIX of the federal social security act, participating
24 managed health care systems shall not enroll a disproportionate number
25 of medical assistance recipients within the total numbers of persons
26 served by the managed health care systems, except as authorized by the
27 authority under federal demonstration waivers granted under section
28 1115(a) of Title XI of the federal social security act;

29 (e)(i) In negotiating with managed health care systems the
30 authority shall adopt a uniform procedure to enter into contractual
31 arrangements, to be included in contracts issued or renewed on or after
32 January 1, 2012, including:

33 (A) Standards regarding the quality of services to be provided;

34 (B) The financial integrity of the responding system;

35 (C) Provider reimbursement methods that incentivize chronic care
36 management within health homes;

37 (D) Provider reimbursement methods that reward health homes that,

1 by using chronic care management, reduce emergency department and
2 inpatient use; and

3 (E) Promoting provider participation in the program of training and
4 technical assistance regarding care of people with chronic conditions
5 described in RCW 43.70.533, including allocation of funds to support
6 provider participation in the training, unless the managed care system
7 is an integrated health delivery system that has programs in place for
8 chronic care management.

9 (ii)(A) Health home services contracted for under this subsection
10 may be prioritized to enrollees with complex, high cost, or multiple
11 chronic conditions.

12 (B) Contracts that include the items in (e)(i)(C) through (E) of
13 this subsection must not exceed the rates that would be paid in the
14 absence of these provisions;

15 (f) The authority shall seek waivers from federal requirements as
16 necessary to implement this chapter;

17 (g) The authority shall, wherever possible, enter into prepaid
18 capitation contracts that include inpatient care. However, if this is
19 not possible or feasible, the authority may enter into prepaid
20 capitation contracts that do not include inpatient care;

21 (h) The authority shall define those circumstances under which a
22 managed health care system is responsible for out-of-plan services and
23 assure that recipients shall not be charged for such services;

24 (i) Nothing in this section prevents the authority from entering
25 into similar agreements for other groups of people eligible to receive
26 services under this chapter; and

27 (j) The department must consult with the federal center for
28 medicare and medicaid innovation and seek funding opportunities to
29 support health homes.

30 (3) The authority shall ensure that publicly supported community
31 health centers and providers in rural areas, who show serious intent
32 and apparent capability to participate as managed health care systems
33 are seriously considered as contractors. The authority shall
34 coordinate its managed care activities with activities under chapter
35 70.47 RCW.

36 (4) The authority shall work jointly with the state of Oregon and
37 other states in this geographical region in order to develop

1 recommendations to be presented to the appropriate federal agencies and
2 the United States congress for improving health care of the poor, while
3 controlling related costs.

4 (5) The legislature finds that competition in the managed health
5 care marketplace is enhanced, in the long term, by the existence of a
6 large number of managed health care system options for medicaid
7 clients. In a managed care delivery system, whose goal is to focus on
8 prevention, primary care, and improved enrollee health status,
9 continuity in care relationships is of substantial importance, and
10 disruption to clients and health care providers should be minimized.
11 To help ensure these goals are met, the following principles shall
12 guide the authority in its healthy options managed health care
13 purchasing efforts:

14 (a) All managed health care systems should have an opportunity to
15 contract with the authority to the extent that minimum contracting
16 requirements defined by the authority are met, at payment rates that
17 enable the authority to operate as far below appropriated spending
18 levels as possible, consistent with the principles established in this
19 section.

20 (b) Managed health care systems should compete for the award of
21 contracts and assignment of medicaid beneficiaries who do not
22 voluntarily select a contracting system, based upon:

23 (i) Demonstrated commitment to or experience in serving low-income
24 populations;

25 (ii) Quality of services provided to enrollees;

26 (iii) Accessibility, including appropriate utilization, of services
27 offered to enrollees;

28 (iv) Demonstrated capability to perform contracted services,
29 including ability to supply an adequate provider network;

30 (v) Payment rates; and

31 (vi) The ability to meet other specifically defined contract
32 requirements established by the authority, including consideration of
33 past and current performance and participation in other state or
34 federal health programs as a contractor.

35 (c) Consideration should be given to using multiple year
36 contracting periods.

37 (d) Quality, accessibility, and demonstrated commitment to serving

1 low-income populations shall be given significant weight in the
2 contracting, evaluation, and assignment process.

3 (e) All contractors that are regulated health carriers must meet
4 state minimum net worth requirements as defined in applicable state
5 laws. The authority shall adopt rules establishing the minimum net
6 worth requirements for contractors that are not regulated health
7 carriers. This subsection does not limit the authority of the
8 Washington state health care authority to take action under a contract
9 upon finding that a contractor's financial status seriously jeopardizes
10 the contractor's ability to meet its contract obligations.

11 (f) Procedures for resolution of disputes between the authority and
12 contract bidders or the authority and contracting carriers related to
13 the award of, or failure to award, a managed care contract must be
14 clearly set out in the procurement document.

15 (6) The authority may apply the principles set forth in subsection
16 (5) of this section to its managed health care purchasing efforts on
17 behalf of clients receiving supplemental security income benefits to
18 the extent appropriate.

19 (7) A managed health care system shall pay a nonparticipating
20 provider that provides a service covered under this chapter to the
21 system's enrollee no more than the lowest amount paid for that service
22 under the managed health care system's contracts with similar providers
23 in the state.

24 (8) For services covered under this chapter to medical assistance
25 or medical care services enrollees and provided on or after August 24,
26 2011, nonparticipating providers must accept as payment in full the
27 amount paid by the managed health care system under subsection (7) of
28 this section in addition to any deductible, coinsurance, or copayment
29 that is due from the enrollee for the service provided. An enrollee is
30 not liable to any nonparticipating provider for covered services,
31 except for amounts due for any deductible, coinsurance, or copayment
32 under the terms and conditions set forth in the managed health care
33 system contract to provide services under this section.

34 (9) Pursuant to federal managed care access standards, 42 C.F.R.
35 Sec. 438, managed health care systems must maintain a network of
36 appropriate providers that is supported by written agreements
37 sufficient to provide adequate access to all services covered under the
38 contract with the department, including hospital-based physician

1 services. The department will monitor and periodically report on the
2 proportion of services provided by contracted providers and
3 nonparticipating providers, by county, for each managed health care
4 system to ensure that managed health care systems are meeting network
5 adequacy requirements. No later than January 1st of each year, the
6 department will review and report its findings to the appropriate
7 policy and fiscal committees of the legislature for the preceding state
8 fiscal year.

9 (10) Subsections (7) through (9) of this section expire July 1,
10 2016.

11 (11) Contracts with managed care plans must include a requirement
12 that any patient with five or more prescriptions be placed in an
13 automatic review process with the primary care provider to ensure all
14 the prescriptions are medically appropriate and to review for drug
15 interactions and opportunities to reduce the number of prescriptions.
16 The multiple prescription review must be completed at least annually.

--- END ---
