17 BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF WASHINGTON:

18 **Sec. 1.** RCW 70.94.6532 and 2009 c 118 s 403 are each amended to
19 read as follows:

1 It is hereby declared to be the policy of this state that strong
2 efforts should be made to minimize adverse effects on air quality from
3 the open burning of field and turf grasses grown for seed. To such end
4 this section is intended to promote the development of economical and
5 practical alternate agricultural practices to such burning, and to
6 provide for interim regulation of such burning until practical
7 alternates are found.

8 (1) The department shall approve of a study or studies for the
9 exploration and identification of economical and practical alternate
10 agricultural practices to the open burning of field and turf grasses
11 grown for seed. Any study conducted pursuant to this section shall be
12 conducted by Washington State University. The university may not
13 charge more than eight percent for administrative overhead. Prior to
14 the issuance of any permit for such burning under RCW 70.94.6528, there
15 shall be collected a fee not to exceed one dollar per acre of crop to
16 be burned. Any such fees received by any authority shall be
17 transferred to the department of ecology. The department of ecology
18 shall deposit all such acreage fees in (~~a special grass seed burning~~
19 ~~research account, hereby created, in the state treasury~~) the general
20 fund.

21 (2) The department shall allocate moneys annually (~~from this~~
22 ~~account~~) for the support of any approved study or studies as provided
23 for in subsection (1) of this section. (~~Whenever the department of~~
24 ~~ecology shall conclude that sufficient reasonably available alternates~~
25 ~~to open burning have been developed, and at such time as all costs of~~
26 ~~any studies have been paid, the grass seed burning research account~~
27 ~~shall be dissolved, and any money remaining therein shall revert to the~~
28 ~~general fund.~~) The fee collected under subsection (1) of this section
29 shall constitute the research portion of fees required under RCW
30 70.94.6528 for open burning of grass grown for seed.

31 (3) Whenever on the basis of information available to it, the
32 department after public hearings have been conducted wherein testimony
33 will be received and considered from interested parties wishing to
34 testify shall conclude that any procedure, program, technique, or
35 device constitutes a practical alternate agricultural practice to the
36 open burning of field or turf grasses grown for seed, the department
37 shall, by order, certify approval of such alternate. Thereafter, in

1 any case which any such approved alternate is reasonably available, the
2 open burning of field and turf grasses grown for seed shall be
3 disallowed and no permit shall issue therefor.

4 (4) Until approved alternates become available, the department or
5 the authority may limit the number of acres on a pro rata basis among
6 those affected for which permits to burn will be issued in order to
7 effectively control emissions from this source.

8 (5) Permits issued for burning of field and turf grasses may be
9 conditioned to minimize emissions insofar as practical, including
10 denial of permission to burn during periods of adverse meteorological
11 conditions.

12 (6) Every two years until grass seed burning is prohibited,
13 Washington State University may prepare a brief report assessing the
14 potential of the university's research to result in economical and
15 practical alternatives to grass seed burning.
