

**SB 5858 - DIGEST**

Finds that land owned by the department of fish and wildlife that is used for agricultural purposes is surplus.

Requires the director of the department of fish and wildlife to: (1) Create an inventory of that land and report the results of that inventory to the appropriate committees of the legislature;

(2) Dispose of that land by June 30, 2017;

(3) Retain the development rights of the property to ensure that the land remains in agricultural use; and

(4) Prepare an inventory of departmental lands with potential for active management as commercial timber lands.

Creates the state wildlife land management trust account.
