SHB 1057 - H AMD **501**
  By Representative Hansen

<div align="right">ADOPTED 06/06/2013</div>

1 On page 126, beginning on line 17, strike all material through
2 "lapse" on line 19 and insert "competitive grants to school districts
3 to increase the capacity of high schools to offer AP computer science
4 courses. In making grant allocations, the office of the
5 superintendent of public instruction must give priority to schools and
6 districts in rural areas, with substantial enrollment of low-income
7 students, and that do not offer AP computer science. School districts
8 may apply to receive either or both of the following grants:

9 (i) A grant to establish partnerships to support computer science
10 professionals from private industry serving on a voluntary basis as
11 coinstructors along with a certificated teacher, including via
12 synchronous video, for AP computer science courses; or

13 (ii) A grant to purchase or upgrade technology and curriculum
14 needed for AP computer science, as well as provide opportunities for
15 professional development for classroom teachers to have the requisite
16 knowledge and skills to teach AP computer science."

17

  EFFECT: Replaces a reference to House Bill 1472 with a specific
grant program that supports advanced placement computer science
courses in schools through professional partnerships or funds for
technology and curriculum upgrades.

  FISCAL IMPACT: No net change to appropriated levels.
