By Representative Dunshee

NOT CONSIDERED

1 Strike everything after the enacting clause and insert the
2 following:

3 "NEW SECTION. **Sec. 1.** (1) A capital budget is hereby adopted and,
4 subject to the provisions set forth in this act, the several dollar
5 amounts hereinafter specified, or so much thereof as shall be
6 sufficient to accomplish the purposes designated, are hereby
7 appropriated and authorized to be incurred for capital projects during
8 the period beginning with the effective date of this act and ending
9 June 30, 2015, out of the several funds specified in this act.

10 (2) The definitions in this subsection apply throughout this act
11 unless the context clearly requires otherwise.

12 (a) "Fiscal year 2014" or "FY 2014" means the period beginning July
13 1, 2013, and ending June 30, 2014.

14 (b) "Fiscal year 2015" or "FY 2015" means the period beginning July
15 1, 2014, and ending June 30, 2015.

16 (c) "Lapse" or "revert" means the amount shall return to an
17 unappropriated status.

18 (d) "Provided solely" means the specified amount may be spent only
19 for the specified purpose.

20 (3) Unless otherwise specifically authorized in this act, any
21 portion of an amount provided solely for a specified purpose that is
22 not expended subject to the specified conditions and limitations to
23 fulfill the specified purpose shall lapse.

24 (4) The amounts shown under the headings "Prior Biennia," "Future
25 Biennia," and "Total" in this act are for informational purposes only
26 and do not constitute legislative approval of these amounts. "Prior
27 biennia" typically refers to the immediate prior biennium for
28 reappropriations, but may refer to multiple biennia in the case of
29 specific projects. A "future biennia" amount is an estimate of what
30 may be appropriated for the project or program in the 2015-2017

1 biennium and the following three biennia; an amount of zero does not
2 necessarily constitute legislative intent to not provide funding for
3 the project or program in the future.

4 (5) "Reappropriations" in this act are appropriations and, unless
5 the context clearly provides otherwise, are subject to the relevant
6 conditions and limitations applicable to appropriations.
7 Reappropriations shall be limited to the unexpended balances remaining
8 on June 30, 2013, from the 2011-2013 biennial appropriations for each
9 project.

2 Kittitas Groundwater Study (30000029)

3 The reappropriation in this section is subject to the following
4 conditions and limitations:

5 (1) Funds may be provided to develop and implement water banking
6 and transfer methods and agreements that are fully protective of senior
7 water rights and that protect domestic groundwater users and improve
8 the profitability of farming operations. The legislature finds such
9 activities to be in the public interest because they can help sustain
10 the viability of the agricultural economy and enhance the certainty of
11 water supplies for domestic groundwater users.

12 (2) Funds may be provided to lease or purchase water rights to
13 create a reserve water supply for domestic groundwater users that have
14 a groundwater right with a priority date later than May 10, 1905, as
15 well as for all out-of-priority groundwater users. In securing water
16 for such domestic groundwater users, strong preference must be given to
17 the use of water banking and transfer methods that provide alternatives
18 to permanent purchase and dry-up of agricultural water rights in the
19 basin, including dry-year options, water banking, long-term water
20 supply lease agreements, long-term agricultural land fallowing
21 agreements, and reduced consumptive use through efficiency or
22 alternative cropping arrangements while maintaining historic return
23 flows.

24 (3) A portion of the reappropriation may be used for administrative
25 costs, not to exceed four percent, and other costs associated with
26 leasing or acquiring and transferring the water rights. All costs must
27 be fully recovered from participating domestic water users for their
28 prorated portion of the cost, including, but not limited to, the costs
29 of securing a water right or rights for this purpose, costs associated
30 with the development and implementation of alternative agricultural
31 water transfer methods, associated annual operational costs, and
32 federal water service contract costs owed to the United States bureau
33 of reclamation. Funds recovered in this manner must be deposited in
34 the state and local improvements revolving account and may be used for
35 any purpose provided in this section.

25 Replacing State Forest Lands with Productive Forests (91000029)

26 The reappropriation in this section is subject to the following
27 conditions and limitations:

28 (1) The total reappropriation is provided solely to the department
29 to transfer from state forest land status to natural resources
30 conservation area status certain state forest lands in counties with a
31 population of 25,000 or less that are subject to timber harvest
32 deferrals greater than thirty years due to the presence of wildlife
33 species listed as endangered or threatened under the federal endangered

1 species act. The approved list of properties for transfer is
2 identified in the LEAP capital document No. 2011-5A, revised April 10,
3 2013.

4 (2) Property transferred under this section must be appraised and
5 transferred at fair market value, without consideration of management
6 or regulatory encumbrances associated with wildlife species listed
7 under the federal endangered species act. The value of the timber and
8 other valuable materials transferred must be distributed as provided in
9 RCW 79.64.110, in the same manner as valuable material revenues from
10 other state forest lands in the applicable counties. The value of the
11 land transferred must be deposited in the park land trust revolving
12 account and be solely used to buy replacement state forest land within
13 the same county as the property transferred, consistent with RCW
14 79.22.060.

15 (3) Prior to or concurrent with conveyance of these properties, the
16 department shall execute and record a real property instrument that
17 dedicates the transferred properties to the purposes identified in
18 subsection (1) of this section. Transfer agreements for properties
19 identified in subsection (1) of this section must include terms that
20 restrict the use of the property to the intended purpose.

21 (4) The department and applicable counties shall work in good faith
22 to carry out the intent of this section. However, the department or
23 applicable counties may remove a property from the transfer list based
24 on new, substantive information, if it is determined that transfer of
25 the property is not in the statewide interest of either the state
26 forest trust or the natural resources conservation area program.

2 **MISCELLANEOUS PROVISIONS**

3 NEW SECTION. **Sec. 6001.** (1) Allotments for appropriations in this
4 act shall be provided in accordance with the capital project review
5 requirements adopted by the office of financial management and in
6 compliance with RCW 43.88.110. Projects that will be employing
7 alternative public works construction procedures under chapter 39.10
8 RCW are subject to the allotment procedures defined in this section and
9 RCW 43.88.110.

10 (2) Each project is defined as proposed in the legislative budget
11 notes or in the governor's budget document.

12 NEW SECTION. **Sec. 6002.** To ensure that major construction
13 projects are carried out in accordance with legislative and executive
14 intent, appropriations in this act in excess of \$5,000,000 shall not be
15 expended or encumbered until the office of financial management has
16 reviewed and approved the agency's predesign. The predesign document
17 shall include, but not be limited to, program, site, and cost analysis,
18 including life cycle cost, in accordance with the predesign manual
19 adopted by the office of financial management. The results of life
20 cycle cost analysis shall be a primary consideration in the selection
21 of a building design. Construction shall proceed only upon providing
22 to the office of financial management the life cycle costs. To improve
23 monitoring of major construction projects, progress reports shall be
24 submitted by the agency administering the project to the office of
25 financial management and to the fiscal committees of the house of
26 representatives and senate. Reports will be submitted on July 1st and
27 December 31st each year in a format to be developed by the office of
28 financial management.

29 NEW SECTION. **Sec. 6003.** (1) To ensure minor works appropriations
30 are carried out in accordance with legislative intent, funds
31 appropriated in this act shall not be allotted until project lists are
32 on file at the office of financial management, the house of
33 representatives capital budget committee, and the senate ways and means

1 committee. All projects must meet the criteria included in subsection
2 (2)(a) of this section. Revisions to the lists must be filed with the
3 office of financial management, the house of representatives capital
4 budget committee, and the senate ways and means committee and include
5 an explanation of variances from the prior lists before funds may be
6 expended on the revisions.

7 (2)(a) Minor works projects are single line appropriations that
8 include multiple projects of a similar nature and that are valued
9 between \$25,000 and \$1,000,000 each, with the exception of higher
10 education minor works projects that may be valued up to \$2,000,000.
11 These projects can generally be completed within two years of the
12 appropriation with the funding provided. Agencies are prohibited from
13 including projects on their minor works lists that are a phase of a
14 larger project, and that if combined over a continuous period of time,
15 would exceed \$1,000,000, or \$2,000,000 for higher education minor works
16 projects. Improvements for accessibility in compliance with the
17 Americans with disabilities act may be included in any of the above
18 minor works categories.

19 (b) Minor works appropriations shall not be used for, among other
20 things: Studies, except for technical or engineering reviews or
21 designs that lead directly to and support a project on the same minor
22 works list; planning; design outside the scope of work on a minor works
23 list; moveable, temporary, and traditionally funded operating equipment
24 not in compliance with the equipment criteria established by the office
25 of financial management; software not dedicated to control of a
26 specialized system; moving expenses; land or facility acquisition;
27 rolling stock, computers or to supplement funding for projects with
28 funding shortfalls unless expressly authorized elsewhere in this act.
29 The office of financial management may make an exception to the
30 limitations described in this subsection (2)(b) for exigent
31 circumstances after notifying the legislative fiscal committees and
32 waiting ten days for comments by the legislature regarding the proposed
33 exception.

34 (c) Minor works preservation projects may include program
35 improvements of no more than twenty-five percent of the individual
36 minor works preservation project cost.

37 (3) Minor works projects are intended to be one-time expenditures
38 that do not require future state resources to complete.

1 NEW SECTION. **Sec. 6004.** (1) The office of financial management
2 may authorize a transfer of appropriation authority provided for a
3 capital project that is in excess of the amount required for the
4 completion of such project to another capital project for which the
5 appropriation is insufficient. No such transfer may be used to expand
6 the capacity of any facility beyond that intended in making the
7 appropriation. Such transfers may be effected only between capital
8 appropriations to a specific department, commission, agency, or
9 institution of higher education and only between capital projects that
10 are funded from the same fund or account. No transfers may occur
11 between projects to local government agencies except where the grants
12 are provided within a single omnibus appropriation and where such
13 transfers are specifically authorized by the implementing statutes that
14 govern the grants.

15 (2) The office of financial management may find that an amount is
16 in excess of the amount required for the completion of a project only
17 if: (a) The project as defined in the notes to the budget document is
18 substantially complete and there are funds remaining; or (b) bids have
19 been let on a project and it appears to a substantial certainty that
20 the project as defined in the notes to the budget document can be
21 completed within the biennium for less than the amount appropriated in
22 this act.

23 (3) For the purposes of this section, the intent is that each
24 project be defined as proposed to the legislature in the governor's
25 budget document, unless it clearly appears from the legislative history
26 that the legislature intended to define the scope of a project in a
27 different way.

28 (4) A report of any transfer effected under this section, except
29 emergency projects or any transfer under \$250,000, shall be filed with
30 the legislative fiscal committees of the senate and house of
31 representatives by the office of financial management at least thirty
32 days before the date the transfer is effected. The office of financial
33 management shall report all emergency or smaller transfers within
34 thirty days from the date of transfer.

35 NEW SECTION. **Sec. 6005.** (1) It is expected that projects be ready
36 to proceed in a timely manner depending on the type or phase of the
37 project or program that is the subject of the appropriation in this

1 act. Except for major projects that customarily may take more than two
2 biennia to complete from predesign to the end of construction, or large
3 infrastructure grant or loan programs supporting projects that often
4 take more than two biennia to complete, the legislature generally does
5 not intend to reappropriate funds more than once, particularly for
6 smaller grant programs, local/community projects, and minor works.

7 (2) Agencies shall expedite the expenditure of reappropriations and
8 appropriations in this act in order to: (a) Rehabilitate
9 infrastructure resources; (b) accelerate environmental rehabilitation
10 and restoration projects for the improvement of the state's natural
11 environment; (c) reduce additional costs associated with acquisition
12 and construction inflationary pressures; and (d) provide additional
13 employment opportunities associated with capital expenditures.

14 (3) To the extent feasible, agencies are directed to accelerate
15 expenditure rates at their current level of permanent employees and
16 shall use contracted design and construction services wherever
17 necessary to meet the goals of this section.

18 NEW SECTION. **Sec. 6006.** State agencies, including institutions of
19 higher education, shall allot and report full-time equivalent staff for
20 capital projects in a manner comparable to staff reporting for
21 operating expenditures.

22 NEW SECTION. **Sec. 6007.** Executive Order No. 05-05, archaeological
23 and cultural resources, was issued effective November 10, 2005.
24 Agencies and higher education institutions shall comply with the
25 requirements set forth in this executive order.

26 NEW SECTION. **Sec. 6008.** PUGET SOUND PROTECTION AND RESTORATION.
27 Consistent with RCW 90.71.340, when expending appropriations under this
28 act that contribute to Puget Sound protection and recovery, agencies
29 shall consult with the Puget Sound partnership to ensure that projects
30 and expenditures are either in, or consistent with the 2020 action
31 agenda. These consultations shall include the exchange of information
32 on specific actions, projects, associated funding, performance
33 measures, and other information necessary to track project
34 implementation and ensure alignment with the action agenda. In
35 situations where the Puget Sound partnership finds that a project is

1 not in, or is not consistent with the action agenda Puget Sound
2 partnership shall document this finding and report back to the governor
3 and legislative fiscal committees.

4 NEW SECTION. **Sec. 6009.** The amounts shown under the headings
5 "Prior Biennia," "Future Biennia," and "Total" in this act are for
6 informational purposes only and do not constitute legislative approval
7 of these amounts. "Prior biennia" typically refers to the immediate
8 prior biennium for reappropriations, but may refer to multiple biennia
9 in the case of specific projects. A "future biennia" amount is an
10 estimate of what may be appropriated for the project or program in the
11 2015-2017 biennium and the following three biennia; an amount of zero
12 does not necessarily constitute legislative intent to not provide
13 funding for the project or program in the future.

14 NEW SECTION. **Sec. 6010.** To carry out the provisions of this act,
15 the governor may assign responsibility for predesign, design,
16 construction, and other related activities to any appropriate agency.

17 NEW SECTION. **Sec. 6011.** If any federal moneys appropriated by
18 this act for capital projects are not received by the state, the
19 department or agency to which the moneys were appropriated may replace
20 the federal moneys with funds available from private or local sources.
21 No replacement may occur under this section without the prior approval
22 of the director of financial management in consultation with the senate
23 ways and means committee and the house of representatives capital
24 budget committee.

25 NEW SECTION. **Sec. 6012.** (1) Unless otherwise stated, for all
26 appropriations under this act that require a match of nonstate money or
27 in-kind contributions, the following requirement, consistent with RCW
28 43.88.150, shall apply: Expenditures of state money shall be timed so
29 that the state share of project expenditures never exceeds the intended
30 state share of total project costs.

31 (2) Provision of the full amount of required matching funds is not
32 required to permit the expenditure of capital budget appropriations for
33 phased projects if a proportional amount of the required matching funds
34 is provided for each distinct, identifiable phase of the project.

1 NEW SECTION. **Sec. 6013.** The office of financial management, in
2 consultation with the fiscal committees of the legislature, may select
3 capital projects that have completed predesign to undergo a budget
4 evaluation study. The budget evaluation study team approach using
5 value engineering techniques and life cycle cost analysis must be
6 utilized by the office of financial management in conducting the
7 studies. The office of financial management shall select the budget
8 evaluation team members, contract for the study, and report the results
9 to the legislature and agencies in a timely manner following the study.
10 Funds from the project appropriation must be used by the office of
11 financial management through an interagency agreement with the affected
12 agencies to cover the cost of the study.

13 NEW SECTION. **Sec. 6014.** COLUMBIA RIVER BASIN NONTAXABLE AND
14 TAXABLE BOND PROCEEDS.

15 Portions of the appropriation authority granted by this act from
16 the Columbia river basin water supply development account may be
17 transferred to the Columbia river basin taxable bond water supply
18 development account as deemed necessary by the state finance committee
19 to comply with the federal internal revenue service rules and
20 regulations pertaining to the use of nontaxable bond proceeds. The
21 state treasurer shall submit written notification to the director of
22 financial management if it is determined that a shift of appropriation
23 authority between the Columbia river basin water supply development
24 account and the Columbia river basin taxable bond water supply
25 development account is necessary, or that a shift of appropriation
26 authority from the Columbia river basin taxable bond water supply
27 development account to the Columbia river basin water supply
28 development account may be made.
