Hearing Date: 2/5/13

Staff: Cherlyn Walden (786-7296).

Background:

The Washington Department of Fish and Wildlife (WDFW) is responsible for establishing policy and direction for fish and wildlife species and their habitats, as well as, establishing basic rules and regulations governing the time, place, manner, and methods used to harvest or enjoy fish and wildlife.

The State Administrative Procedure Act (chapter 34.05 RCW) establishes the rulemaking process for state agencies and also outlines the procedural requirements for appealing an agency action. The State Public Records Act (chapter 42.56 RCW) establishes requirements for agency maintenance of public records, and for the provision of those records for public inspection. Public records invoked by an agency must be indexed and made available to the public.
