A class 1 racing association is one that owns and operates its own race facility and offers at least 40 race days a year.

The Commission may permit only class 1 licensees to conduct parimutuel wagering at satellite locations. To participate, the class 1 licensee must have conducted at least one full live racing season and must hold a live race meet within each succeeding 12-month period to maintain eligibility. Only one satellite location may be approved in each county and it may not be operated within 20 driving miles of any class 1 racing facility. The Commission may authorize more than one licensee to conduct wagering at each satellite location.

Staff Summary of Public Testimony:

(In support) This bill is designed to allow King County to have a second satellite location for off-track betting. This is a good bill that benefits the state, King County, Emerald Downs, and the industry as a whole. Adding a second satellite location would generate a huge amount of money for the state as well as the race track, Emerald Downs. Washington is falling behind in developing horse racing and this legislation would be a shot in the arm for the racing industry. Also, the second location would provide residents with optional locations and thus improve citizen access to an off-track betting facility.

(Neutral) Adding the second satellite location would be a big money maker for Emerald Downs as well as the racing industry in general.

(Opposed) None.

Persons Testifying: (In support) Ron Crockett and Jim Halstrom, Northwest Racing

(Neutral) Doug Moore, Horse Racing Commission.

Persons Signed In To Testify But Not Testifying: None.
