Hearing Date: 3/13/13

Staff: Omeara Harrington (786-7136).

Background:

The number of superior court judges in each county is set by statute. Any change in the number of full and part-time judges in a county's superior court is determined by the Legislature after receiving a recommendation from the Board for Judicial Administration (BJA). The BJA's recommendation is based on an objective workload analysis developed annually by the Administrative Office of the Courts (AOC). The objective workload analysis takes into account available judicial resources and the caseload activity of the court.

The state and the county share the cost of superior court judges. In order for an additional judicial position to become effective, the legislative authority of the affected county must approve the position and agree to pay, out of county funds and without reimbursement from the state, expenses associated with the new position.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

Benton and Franklin counties jointly have six elected superior court judges. According to the AOC's objective workload analysis, an increase in the number of superior court judges in the counties of Benton and Franklin is recommended.

Summary of Bill:

The number of statutorily authorized superior court judges in Benton and Franklin counties, jointly, is increased from six to seven. This new position becomes effective only if the legislative authorities of Benton and Franklin counties approve the position and agree that the counties will pay their share of the cost of the position without reimbursement from the state.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of the session in which the bill is passed.
