transfer is to solely fund activities related to the control of *Rhagoletis pomonella* – apple maggots – in district two. The purposes of the transfer expires July 1, 2020.

**Appropriation:** None.

**Fiscal Note:** Available.

**Committee/Commission/Task Force Created:** No.

**Effective Date:** The bill contains an emergency clause and takes effect on June 30, 2013.

**Staff Summary of Public Testimony:** PRO: The apple maggot can have a devastating effect on our export markets. This bill allows industry to conduct inspections and ensure the marketing and exports of our apples. More than the money, this bill is about insurance and protection for our customers. All of the growers and the industry come together in the shipping process, that is where an infestation such as the apple maggot can shut down our state's access to foreign markets. These accounts are both industry funded and it is very important that we have this transfer.

**Persons Testifying:** PRO: Representative Chandler, prime sponsor; David Ducharme, Yakima Valley Growers Assn.
