Background: The Economic and Revenue Forecast Council (ERFC) is an independent agency responsible for providing the state economic and revenue forecasts. Four times each year ERFC must prepare an official state economic and revenue forecast. The forecasts are submitted to the Governor and Legislature on or before February 20 in even-numbered years, March 20 in odd-numbered years, as well as by June 20, September 20, and November 20.

In odd-numbered years, regular session is 105 days long and is when the biennial budget is passed. In even-numbered years, regular session is 60 days long and supplemental budgets to the biennial budget are enacted.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

Summary of Bill: The first forecast of each calendar year must be submitted to the Governor and the Legislature on or before February 20. The provision for a March 20 forecast in odd-numbered years is removed.

Appropriation: None.

Fiscal Note: Available.

Committee/Commission/Task Force Created: No.

Effective Date: Ninety days after adjournment of session in which bill is passed.
