9 investments in Washington state's transportation system. The goal is
10 to enable the department of transportation to construct bridge and
11 highway projects more quickly and to build and operate them at a lower
12 cost, while ensuring that appropriate environmental and regulatory

2 representatives and senate transportation committees by December 31,
3 2013.

35 follows:

36 **FOR THE TRANSPORTATION COMMISSION**
37 Motor Vehicle Account--State Appropriation ((~~\$2,947,000~~))

1		<u>\$2,946,000</u>
2	Multimodal Transportation Account--State	
3	Appropriation	\$112,000
4	TOTAL APPROPRIATION	((\$3,059,000))
5		<u>\$3,058,000</u>

6 The appropriations in this section are subject to the following
7 conditions and limitations:

8 (1) Consistent with RCW 43.135.055, 47.60.290, and 47.60.315,
9 during the 2013-2015 fiscal biennium, the legislature authorizes the
10 transportation commission to periodically review and, if necessary,
11 adjust the schedule of fares for the Washington state ferry system only
12 in amounts not greater than those sufficient to generate the amount of
13 revenue required by the biennial transportation budget. When adjusting
14 ferry fares, the commission must consider input from affected ferry
15 users by public hearing and by review with the affected ferry advisory
16 committees, in addition to the data gathered from the current ferry
17 user survey.

18 (2) Consistent with RCW 43.135.055 and 47.46.100, during the 2013-
19 2015 fiscal biennium, the legislature authorizes the transportation
20 commission to periodically review and, if necessary, adjust the
21 schedule of toll charges applicable to the Tacoma Narrows bridge only
22 in amounts not greater than those sufficient to support (a) any
23 required costs for operating and maintaining the toll bridge, including
24 the cost of insurance, (b) any amount required by law to meet the
25 redemption of bonds and applicable interest payments, and (c) repayment
26 of the motor vehicle fund.

27 (3)(a) \$400,000 of the motor vehicle account--state appropriation
28 is provided solely for the development of the business case for the
29 transition to a road usage charge system as the basis for funding the
30 state transportation system, from the current motor fuel tax system.
31 The funds are provided for fiscal year 2014 only.

32 (b) The legislature finds that the efforts started in the 2011-2013
33 fiscal biennium regarding the transition to a road usage charge system
34 represent an important first step in the policy and conceptual
35 development of potential alternative systems to fund transportation
36 projects, but that the governance for the development needs
37 clarification. The legislature also finds that significant amounts of
38 research and public education are occurring in similar efforts in

1 several states and that these efforts can and should be leveraged to
2 advance the evaluation in Washington. The legislature intends,
3 therefore, that the commission and its staff lead the policy
4 development of the business case for a road usage charge system, with
5 the goal of providing the business case to the governor and the
6 legislative committees of the legislature in time for inclusion in the
7 2014 supplemental omnibus transportation appropriations act. The
8 legislature intends for additional oversight in the business case
9 development, with guidance from a steering committee as provided in
10 chapter 86, Laws of 2012, augmented with participation by the joint
11 transportation committee. The legislature further intends that the
12 department of transportation continue to address administrative,
13 technical, and conceptual operational issues related to road usage
14 charge systems, and that the department serve as a resource for
15 information gleaned from other states on this topic for the
16 commission's efforts.

17 (c) For the purposes of this subsection (3), the commission shall:

18 (i) Develop preliminary road usage charge policies that are
19 necessary to develop the business case, as well as supporting research
20 and data that will guide the potential application in Washington;

21 (ii) Develop the preferred operational concept or concepts that
22 reflect the preliminary policies;

23 (iii) Evaluate the business case for the road usage charge system
24 that would result from implementing the preliminary policies and
25 preferred operational concept or concepts. The evaluation must assess
26 likely financial outcomes if the system were to be implemented; and

27 (iv) Identify and document policy and other issues that are deemed
28 important to further refine the preferred operational concept or
29 concepts and to gain public acceptance. These identified issues should
30 form the basis for continued work beyond this funding cycle.

31 (d) The commission shall convene a steering committee to guide the
32 development of the business case. The membership must be the same as
33 provided in chapter 86, Laws of 2012, except that the membership must
34 also include the joint transportation committee executive members.

35 (e) The commission shall submit a report of the business case to
36 the governor and the transportation committees of the legislature by
37 December 15, 2013. The report must also include a proposed budget and

1 work plan for fiscal year 2015. A progress report must be submitted to
2 the governor and the joint transportation committee by November 1,
3 2013, including a presentation to the joint transportation committee.

4 (4) \$174,000 of the motor vehicle account--state appropriation is
5 provided solely for the voice of Washington survey program. The
6 funding must be utilized for continued program maintenance and two
7 transportation surveys for the 2013-2015 fiscal biennium.

19		<u>\$69,545,000</u>

20 The appropriations in this section are subject to the following
21 conditions and limitations:

22 (1)(a) The legislature finds that the department's tolling division
23 has expanded greatly in recent years to address the demands of
24 administering several newly tolled facilities using emerging toll
25 collection technologies. The legislature intends for the department to
26 continue its good work in administering the tolled facilities of the
27 state, while at the same time implementing controls and processes to
28 ensure the efficient and judicious administration of toll payer
29 dollars.

30 (b) The legislature finds that the department has undertaken a
31 cost-of-service study in the winter and spring of 2013 for the purposes
32 of identifying in detail the costs of operating and administering
33 tolling on state route number 520, state route number 167
34 high-occupancy toll lanes, and the Tacoma Narrows bridge. The purpose
35 of the study is to provide results to establish a baseline by which
36 future activity may be compared and opportunities identified for cost
37 savings and operational efficiencies. In addition, the legislature
38 finds that the state auditor has undertaken a performance audit of the

1 department's contract for the customer service center and back office
2 processing of tolling transactions. The audit findings, which are
3 expected to include lessons learned, are due in late spring 2013.

4 (c) Using the results of the cost-of-service study and the state
5 audit as a basis, the department shall conduct a review of operations
6 using lean management principles in order to eliminate inefficiencies
7 and redundancies, incorporate lessons learned, and identify
8 opportunities to conduct operations more efficiently and effectively.
9 Within current statutory and budgetary tolling policy, the department
10 shall use the results of the review to improve operations in order to
11 conduct toll operations within the appropriations provided in
12 subsections (2) through (4) of this section. The department shall
13 submit the review, along with the status of and plans for the

29 appropriation, \$9,363,000 of the state route number 520 corridor
30 account--state appropriation, and \$625,000 of the high-occupancy toll

38 account--state appropriation are provided solely for the purposes of

1 addressing unforeseen operations and maintenance costs on the Tacoma
2 Narrows bridge and the state route number 520 bridge, respectively.
3 The office of financial management shall place the amounts provided in
4 this section, which represent a portion of the required minimum fund
5 balance under the policy of the state treasurer, in unallotted status.
6 The office may release the funds only when it determines that all other
7 funds designated for operations and maintenance purposes have been
8 exhausted.

9 (5) \$4,169,000 of the state route number 520 civil penalties
10 account--state appropriation and \$1,039,000 of the Tacoma Narrows toll
11 bridge account--state appropriation are provided solely for
12 expenditures related to the toll adjudication process. The department

30 (8) The department shall make detailed quarterly reports to the
31 governor and the transportation committees of the legislature on the
32 use of consultants in the tolling program. The reports must include
33 the name of the contractor, the scope of work, the type of contract,

4 (b)(i) The department shall develop a plan that addresses:

5 (A) A phased implementation approach, beginning with "Good To Go"
6 as a payment option for ferry users;

7 (B) The feasibility, schedule, and cost of creating a single
8 account-based system for toll road and ferry users;

9 (C) Transitioning customer service currently provided by the marine
10 division to the statewide tolling customer service center; and

32 Multimodal Transportation Account--State
33 Appropriation \$250,000
34 TOTAL APPROPRIATION ((~~\$48,357,000~~))
35 \$48,182,000

1 The appropriations in this section are subject to the following
2 conditions and limitations:

3 (1) \$4,423,000 of the motor vehicle account--state appropriation is
4 provided solely for the department's compliance with its national
5 pollution discharge elimination system permit.

6 (2) The real estate services division of the department must
7 recover the cost of its efforts from sale proceeds and fund additional
8 future sales from those proceeds.

9 (3) The legislature recognizes that the Dryden pit site (WSDOT
10 Inventory Control (IC) No. 2-04-00103) is unused state-owned real
11 property under the jurisdiction of the department, and that the public
12 would benefit significantly from the complete enjoyment of the natural
13 scenic beauty and recreational opportunities available at the site.
14 Therefore, pursuant to RCW 47.12.080, the legislature declares that
15 transferring the property to the department of fish and wildlife for
16 recreational use and fish and wildlife restoration efforts is
17 consistent with the public interest in order to preserve the area for
18 the use of the public and the betterment of the natural environment.
19 The department shall work with the department of fish and wildlife and
20 transfer and convey the Dryden pit site to the department of fish and
21 wildlife as-is for an adjusted fair market value reflecting site
22 conditions, the proceeds of which must be deposited in the motor
23 vehicle fund. The department is not responsible for any costs
24 associated with the cleanup or transfer of this property. This
25 subsection expires June 30, 2014.

26 (4) The legislature recognizes that the trail known as the Apple
27 Capital Loop, and its extensions, serve to separate motor vehicle
28 traffic from pedestrians and bicyclists, increasing motor vehicle
29 safety on existing state route number 28. Consistent with chapter
30 47.30 RCW and pursuant to RCW 47.12.080, the legislature declares that
31 transferring portions of WSDOT Inventory Control (IC) Nos. 2-09-04537
32 and 2-09-04569 to Douglas county and the city of East Wenatchee is
33 consistent with the public interest. The legislature directs the
34 department to transfer the property to Douglas county and the city of
35 East Wenatchee. The department must be paid fair market value for any
36 portions of the transferred real property that is later abandoned,
37 vacated, or ceases to be publicly maintained for trail purposes.
38 Douglas county and the city of East Wenatchee must agree to accept

1 responsibility for trail segments within their respective jurisdictions
2 and sign an agreement with the state that the transfer of these parcels
3 to their respective jurisdictions extinguishes any state obligations to
4 improve, maintain, or be in any way responsible for these assets. This
5 subsection expires June 30, 2014.

6 (5) The legislature recognizes that the SR 20/Cook Road realignment
7 and extension project in the city of Sedro-Woolley will enhance the
8 state and local highway systems by providing a more direct route from
9 state route number 20 and state route number 9 to Interstate 5, and
10 will reduce traffic on state route number 20 and state route number 9,
11 improving the capacity of each route. Furthermore, the legislature
12 declares that certain portions of the department's property held for
13 highway purposes located primarily to the north and west of state route
14 number 20, between state route number 20 to the south and F and S Grade
15 Road to the north, in the incorporated limits of Sedro-Woolley in
16 Skagit county, can help facilitate completion of the project.
17 Therefore, consistent with RCW 47.12.063, 47.12.080, and 47.12.120, it
18 is the intent of the legislature that the department sell, transfer, or
19 lease, as appropriate, to the city of Sedro-Woolley only those portions
20 of the property necessary to construct the project, including necessary
21 staging areas. However, any staging areas should revert to the
22 department within three years of completion of the project.

23 (6) To further reform within the department, \$185,000 of the motor
24 vehicle account--state appropriation is provided solely for the
25 development and implementation of enhanced quality assurance processes
26 and practices. These organizational changes are intended to strengthen
27 the oversight of project design and construction decision making.

28 **Sec. 214.** 2013 c 306 s 214 (uncodified) is amended to read as
29 follows:

32 Motor Vehicle Account--State Appropriation	((\$570,000))
	<u>\$568,000</u>

35 <u>Appropriation</u>	<u>\$12,500,000</u>
36 <u>TOTAL APPROPRIATION</u>	<u>\$13,068,000</u>

1 The appropriations in this section (~~is~~) are subject to the
2 following conditions and limitations:

3 (1) The legislature finds that the efforts started in the 2011-2013
4 fiscal biennium regarding the transition to a road usage charge system
5 represent an important first step in the policy and conceptual
6 development of potential alternative systems to fund transportation
7 projects, but that the governance for the development needs
8 clarification. The legislature also finds that significant amounts of
9 research and public education are occurring in similar efforts in
10 several states and that these efforts can and should be leveraged to
11 advance the evaluation in Washington. The legislature intends,
12 therefore, that the transportation commission and its staff lead the
13 policy development of the business case for a road usage charge system,
14 with the goal of providing the business case to the governor and the
15 legislative committees of the legislature in time for inclusion in the
16 2014 supplemental omnibus transportation appropriations act. The
17 legislature intends for additional oversight in the business case
18 development, with guidance from a steering committee as provided in
19 chapter 86, Laws of 2012 for the transportation commission, augmented
20 with participation by the joint transportation committee. The
21 legislature further intends that, through the economic partnerships
22 program, the department continue to address administrative, technical,
23 and conceptual operational issues related to road usage charge systems,
24 and that the department serve as a resource for information gleaned
25 from other states on this topic for the transportation commission's
26 efforts.

27 (2) The economic partnerships program must continue to explore
28 retail partnerships at state-owned park-and-ride facilities, as
29 authorized in RCW 47.04.295.

30 (3) \$7,500,000 of the multimodal transportation account--state
31 appropriation is provided solely for community energy efficiency
32 modeling, to aid local governments in prioritizing investments related
33 to fleet electrification, and operations and business development that
34 increase transportation energy efficiency. The department shall report
35 to the office of financial management and the transportation committees
36 of the legislature on its progress with implementing the modeling and
37 any outcomes for local governments by November 1, 2014.

1 (4) \$5,000,000 of the multimodal transportation account--state
2 appropriation is provided solely to enhance and expand Washington's
3 electric highway public fast-charging network through leveraging
4 public-private partnerships. The department shall report to the office
5 of financial management and the transportation committees of the
6 legislature on its progress with deploying electric vehicle charging
7 stations by November 1, 2014.

22 that the maintenance program ~~((to))~~ will achieve specific levels of
23 service on the thirty maintenance targets listed by statewide priority
24 in LEAP Transportation Document 2013-4 as developed April 23, 2013.
25 Beginning in February 2014, the department shall report to the
26 legislature annually on its updated maintenance accountability process
27 targets and whether or not the department was able to achieve its
28 targets.

29 (2) ~~(\$8,450,000)~~ \$10,910,000 of the motor vehicle account--state

13 **Sec. 216.** 2013 c 306 s 216 (uncodified) is amended to read as

23 The appropriations in this section are subject to the following
24 conditions and limitations:

25 (1) \$6,000,000 of the motor vehicle account--state appropriation is
26 provided solely for low-cost enhancements. The department shall give
27 priority to low-cost enhancement projects that improve safety or
28 provide congestion relief. The department shall prioritize low-cost
29 enhancement projects on a statewide rather than regional basis. By
30 September 1st of each even-numbered year, the department shall provide
31 a report to the legislature listing all low-cost enhancement projects
32 prioritized on a statewide rather than regional basis completed in the
33 prior year.

34 (2) \$9,000,000 of the motor vehicle account--state appropriation is
35 provided solely for the department's incident response program.

36 (3) During the 2013-2015 fiscal biennium, the department shall
37 continue a pilot program that expands private transportation providers'

1 access to high occupancy vehicle lanes. Under the pilot program, when
2 the department reserves a portion of a highway based on the number of
3 passengers in a vehicle, the following vehicles must be authorized to
4 use the reserved portion of the highway if the vehicle has the capacity
5 to carry eight or more passengers, regardless of the number of
6 passengers in the vehicle: (a) Auto transportation company vehicles
7 regulated under chapter 81.68 RCW; (b) passenger charter carrier
8 vehicles regulated under chapter 81.70 RCW, except marked or unmarked
9 stretch limousines and stretch sport utility vehicles as defined under
10 department of licensing rules; (c) private nonprofit transportation
11 provider vehicles regulated under chapter 81.66 RCW; and (d) private
12 employer transportation service vehicles. For purposes of this
13 subsection, "private employer transportation service" means regularly
14 scheduled, fixed-route transportation service that is offered by an
15 employer for the benefit of its employees. Nothing in this subsection
16 is intended to authorize the conversion of public infrastructure to
17 private, for-profit purposes or to otherwise create an entitlement or
18 other claim by private users to public infrastructure.

19 (4) The department shall work with the cities of Lynnwood and
20 Edmonds to provide traffic light synchronization on state route number
21 524.

22 ~~((+6+))~~ (5) The department, in consultation with the Washington
23 state patrol, must continue a pilot program for the state patrol to
24 issue infractions based on information from automated traffic safety
25 cameras in roadway construction zones on state highways. For the
26 purpose of this pilot program, during the 2013-2015 fiscal biennium, a
27 roadway construction zone includes areas where public employees or
28 private contractors may be present or where a driving condition exists
29 that would make it unsafe to drive at higher speeds, such as, when the
30 department is redirecting or realigning lanes on any public roadway
31 pursuant to ongoing construction. The department shall use the
32 following guidelines to administer the program:

33 (a) Automated traffic safety cameras may only take pictures of the
34 vehicle and vehicle license plate and only while an infraction is
35 occurring. The picture must not reveal the face of the driver or of
36 passengers in the vehicle;

37 (b) The department shall plainly mark the locations where the
38 automated traffic safety cameras are used by placing signs on locations

1 that clearly indicate to a driver that he or she is entering a roadway
2 construction zone where traffic laws are enforced by an automated
3 traffic safety camera;

4 (c) Notices of infractions must be mailed to the registered owner
5 of a vehicle within fourteen days of the infraction occurring;

6 (d) The owner of the vehicle is not responsible for the violation
7 if the owner of the vehicle, within fourteen days of receiving
8 notification of the violation, mails to the patrol, a declaration under
9 penalty of perjury, stating that the vehicle involved was, at the time,
10 stolen or in the care, custody, or control of some person other than
11 the registered owner, or any other extenuating circumstances;

12 (e) For purposes of the 2013-2015 fiscal biennium pilot program,
13 infractions detected through the use of automated traffic safety
14 cameras are not part of the registered owner's driving record under RCW
15 46.52.101 and 46.52.120. Additionally, infractions generated by the
16 use of automated traffic safety cameras must be processed in the same
17 manner as parking infractions for the purposes of RCW 3.50.100,
18 35.20.220, 46.16A.120, and 46.20.270(3). However, the amount of the
19 fine issued under this subsection (~~((+6+))~~) (5) for an infraction
20 generated through the use of an automated traffic safety camera is one
21 hundred thirty-seven dollars. The court shall remit thirty-two dollars
22 of the fine to the state treasurer for deposit into the state patrol
23 highway account; and

24 (f) If a notice of infraction is sent to the registered owner and
25 the registered owner is a rental car business, the infraction must be
26 dismissed against the business if it mails to the patrol, within
27 fourteen days of receiving the notice, a declaration under penalty of
28 perjury of the name and known mailing address of the individual driving
29 or renting the vehicle when the infraction occurred. If the business
30 is unable to determine who was driving or renting the vehicle at the
31 time the infraction occurred, the business must sign a declaration
32 under penalty of perjury to this effect. The declaration must be
33 mailed to the patrol within fourteen days of receiving the notice of
34 traffic infraction. Timely mailing of this declaration to the issuing
35 agency relieves a rental car business of any liability under this
36 section for the notice of infraction. A declaration form suitable for
37 this purpose must be included with each automated traffic safety camera

1 infraction notice issued, along with instructions for its completion
2 and use.

3 ((+7)) (6) \$102,000 of the motor vehicle account--state
4 appropriation is provided solely to replace or rehabilitate critical
5 equipment needed to perform traffic control. These funds may not be
6 used to purchase passenger cars as defined in RCW 46.04.382.

24 (b) \$19,500,000 of the multimodal transportation account--state
25 appropriation is provided solely for grants to transit agencies to
26 transport persons with special transportation needs. To receive a
27 grant, the transit agency must, to the greatest extent practicable,
28 have a maintenance of effort for special needs transportation that is
29 no less than the previous year's maintenance of effort for special
30 needs transportation. Grants for transit agencies must be prorated
31 based on the amount expended for demand response service and route
32 deviated service in calendar year 2011 as reported in the "Summary of
33 Public Transportation - 2011" published by the department of
34 transportation. No transit agency may receive more than thirty percent

2 appropriation is provided solely for a vanpool grant program for: (a)

7 funding under this grant program. Additional employees may not be
8 hired from the funds provided in this section for the vanpool grant
9 program, and supplanting of transit funds currently funding vanpools is
10 not allowed. The department shall encourage grant applicants and
11 recipients to leverage funds other than state funds.

28 all projects receiving grant awards under this program at least
29 semiannually to determine whether the projects are making satisfactory
30 progress. Any project that has been awarded funds, but does not report
31 activity on the project within one year of the grant award, must be
32 reviewed by the department to determine whether the grant should be
33 terminated. The department shall promptly close out grants when
34 projects have been completed, and any remaining funds must be used only
35 to fund projects identified in the LEAP transportation document
36 referenced in this subsection. The department shall provide annual

10 The appropriations in this section are subject to the following
 11 conditions and limitations:

12 (1) The legislature recognizes that the Marginal Way site (King
 13 county parcel numbers 3024049182 & 5367202525) is surplus state-owned
 14 real property under the jurisdiction of the department and that the
 15 public would benefit significantly if this site is used to provide
 16 important social services. Therefore, the legislature declares that
 17 committing the Marginal Way site to this use is consistent with the
 18 public interest.

19 Pursuant to RCW 47.12.063, the department shall work with the owner
 20 of King county parcel number 7643400010, which abuts both parcels of
 21 the Marginal Way site, and shall convey the Marginal Way site to that
 22 abutting property owner for the appraised fair market value of the
 23 parcels, the proceeds of which must be deposited in the motor vehicle
 24 fund. The conveyance is conditional upon the purchaser's agreement to
 25 commit the use of the Marginal Way site to operations with the goal of
 26 ending hunger in western Washington. The department may not make this
 27 conveyance before September 1, 2013, and may not make this conveyance
 28 after January 15, ((2014)) 2015.

29 The Washington department of transportation is not responsible for
 30 any costs associated with the cleanup or transfer of the Marginal Way
 31 site.

32 (2) ((~~\$13,425,000~~)) \$14,390,000 of the transportation partnership
 33 account--state appropriation is provided solely for the construction of
 34 a new traffic management and emergency operations center on property
 35 owned by the department on Dayton Avenue in Shoreline (project
 36 100010T). Consistent with the office of financial management's 2012
 37 study, it is the intent of the legislature to appropriate no more than
 38 \$15,000,000 for the total construction costs. The department shall

1 report to the transportation committees of the legislature and the
2 office of financial management by June 30, 2014, on (a) the progress of
3 the construction of the traffic management and emergency operations
4 center, including a schedule for terminating the current lease of the
5 Goldsmith building in Seattle, or (b) a plan for addressing vacant
6 space in the Dayton Avenue building by June 30, 2015.

7 (3) \$2,294,000 of the motor vehicle account--state appropriation is
8 provided solely for facilities work related to storm water permit
9 compliance at the Northup, Lakeview, and Pines sites.

10 (4) The department shall complete a predesign study evaluating the
11 alternatives for meeting its long-term business needs for the Seattle
12 area workforce within the next five years. This study must include a
13 documentation of the business and facility needs of the Washington
14 state ferries, tolling, urban planning, and the northwest region
15 headquarters in Seattle. The predesign study must include, but not be
16 limited to, program, site, and cost analysis, including life-cycle
17 cost, in accordance with the predesign manual adopted by the office of
18 financial management. The study must also include an evaluation of
19 leasing, ownership, and purchase options utilizing private sector
20 market research. The department shall present the study to the
21 transportation committees of the legislature and the office of
22 financial management by November 1, 2014.

16 entire transportation partnership account appropriation are provided
17 solely for the projects and activities as listed by fund, project, and
18 amount in ((LEAP)) TEIS Transportation Document ((~~2013-1~~)) 14GOV001 as
19 developed ((~~April-23~~)) December 17, 2013, Program - Highway Improvement

28 14GOV001 as developed ((~~April-23~~)) December 17, 2013, Program - Highway
29 Improvement Program (I). It is the intent of the legislature to direct
30 the department to give first priority of federal funds gained through
31 efficiencies or the redistribution process to the "Contingency
32 (Unfunded) Highway Preservation Projects" as identified in ((LEAP))
33 TEIS Transportation Document ((~~2013-2 ALL PROJECTS~~)) 14GOV001 as
34 developed ((~~April-23~~)) December 17, 2013, Program - Highway
35 Preservation Program (P). However, no additional federal funds may be
36 allocated to the I-5/Columbia River Crossing project (400506A).

37 (3) Within the motor vehicle account--state appropriation and

1 motor vehicle account--federal appropriation, the department may
2 transfer funds between programs I and P, except for funds that are
3 otherwise restricted in this act.

4 (4) The transportation 2003 account (nickel account)--state
5 appropriation includes up to (~~(\$217,604,000)~~) \$267,599,000 in proceeds
6 from the sale of bonds authorized by RCW 47.10.861.

7 (5) The transportation partnership account--state appropriation
8 includes up to (~~(\$1,156,217,000)~~) \$828,637,000 in proceeds from the
9 sale of bonds authorized in RCW 47.10.873.

13 (~~(+8)(a)~~ ~~\$5,000,000~~) (7)(a) \$6,174,000 of the motor vehicle
14 account--federal appropriation and (~~(\$200,000)~~) \$269,000 of the motor
15 vehicle account--state appropriation are provided solely for the I-90
16 Comprehensive Tolling Study and Environmental Review project (100067T).
17 The department shall prepare a detailed environmental impact statement
18 that complies with the national environmental policy act regarding
19 tolling Interstate 90 between Interstate 5 and Interstate 405 for the
20 purposes of both managing traffic and providing funding for the
21 construction of the unfunded state route number 520 from Interstate 5
22 to Medina project. As part of the preparation of the statement, the
23 department must review any impacts to the network of highways and roads
24 surrounding Lake Washington. In developing this statement, the
25 department must provide significant outreach to potential affected
26 communities. The department may consider traffic management options
27 that extend as far east as Issaquah.

28 (b)(i) As part of the project in this subsection (~~(+8)~~) (7), the
29 department shall perform a study of all funding alternatives to tolling
30 Interstate 90 to provide funding for construction of the unfunded state
31 route number 520 and explore and evaluate options to mitigate the
32 effect of tolling on affected residents and all other users of the
33 network of highways and roads surrounding Lake Washington including,
34 but not limited to:

35 (A) Allowing all Washington residents to traverse a portion of the
36 tolled section of Interstate 90 without paying a toll. Residents may
37 choose either (I) the portion of Interstate 90 between the easternmost
38 landing west of Mercer Island and the westernmost landing on Mercer

1 Island, or (II) the portion of Interstate 90 between the westernmost
2 landing east of Mercer Island and the easternmost landing on Mercer
3 Island;

4 (B) Assessing a toll only when a driver traverses, in either
5 direction, the entire portion of Interstate 90 between the easternmost
6 landing west of Mercer Island and the westernmost landing east of
7 Mercer Island; and

8 (C) Allowing affected residents to choose one portion of the tolled
9 section of Interstate 90 upon which they may travel without paying a
10 toll. Residents may choose either (I) the portion of Interstate 90
11 between the easternmost landing west of Mercer Island and the
12 westernmost landing on Mercer Island, or (II) the portion of Interstate
13 90 between the westernmost landing east of Mercer Island and the
14 easternmost landing on Mercer Island.

15 (ii) The department may also consider any alternative mitigation
16 options that conform to the purpose of this subsection (~~((+8))~~) (7).

17 (iii) For the purposes of this subsection (~~((+8))~~) (7), "affected
18 resident" means anyone who must use a portion of Interstate 90 west of
19 Interstate 405 upon which tolling is considered in order to access
20 necessary medical services, such as a hospital.

26 (nickel account)--state appropriation are provided solely for the SR
27 99/Alaskan Way Viaduct - Replacement project (809936Z).

28 (~~((+10))~~) (9) The department shall reconvene an expert review panel
29 of no more than three members as described under RCW 47.01.400 for the
30 purpose of updating the work that was previously completed by the panel
31 on the Alaskan Way viaduct replacement project and to ensure that an
32 appropriate and viable financial plan is created and regularly
33 reviewed. The expert review panel must be selected cooperatively by
34 the chairs of the senate and house of representatives transportation
35 committees, the secretary of transportation, and the governor. The
36 expert review panel must report findings and recommendations to the
37 transportation committees of the legislature, the governor's Alaskan
38 Way viaduct project oversight committee, and the transportation

1 commission annually until the project is operationally complete. This
2 subsection takes effect if chapter ... (Substitute House Bill No.

20 as practicable as a design-build project. Any future savings on this
21 project or other Interstate 405 corridor projects must stay on the
22 Interstate 405 corridor and be made available to either the I-405/SR

28 Garvee bonds, toll revenues, state bonds, interest earnings, and other

34 appropriation includes up to \$300,000,000 in proceeds from the sale of

1 \$733,003,000 of the state route number 520 corridor account--state
2 appropriation are provided solely for the SR 520 Bridge Replacement and
3 HOV project (~~((+0BI1003+))~~) (8BI1003). Of the amounts appropriated in
4 this subsection (~~((+13+))~~) (12)(d), (~~(\$105,085,000)~~) \$84,002,000 of the
5 state route number 520 corridor account--federal appropriation and
6 (~~(\$227,415,000)~~) 374,039,000 of the state route number 520 corridor
7 account--state appropriation must be put into unallotted status and are
8 subject to review by the office of financial management. The director
9 of the office of financial management shall consult with the joint
10 transportation committee prior to making a decision to allot these
11 funds.

12 (e) When developing the financial plan for the project, the
13 department shall assume that all maintenance and operation costs for
14 the new facility are to be covered by tolls collected on the toll
15 facility and not by the motor vehicle account.

16 (~~((+14) \$1,100,000)~~) (13) \$1,062,000 of the motor vehicle account--
17 federal appropriation and \$38,000 of the motor vehicle account--state
18 appropriation is provided solely for the 31st Ave SW Overpass Widening
19 and Improvement project (L1100048).

20 (~~((+15+))~~) (14) \$22,602,000 of the motor vehicle account--state
21 appropriation is provided solely to advance the design, preliminary
22 engineering, and rights-of-way acquisition for the priority projects
23 identified in LEAP Transportation Document 2013-3 as developed April
24 23, 2013. Funds must be used to advance the emergent, initial
25 development of these projects for the purpose of expediting delivery of
26 the associated major investments when funding for such investments
27 becomes available. Funding may be reallocated between projects to
28 maximize the accomplishment of design and preliminary engineering work
29 and rights-of-way acquisition, provided that all projects are
30 addressed. It is the intent of the legislature that, while seeking to
31 maximize the outcomes in this section, the department shall provide for
32 continuity of both the state and consulting engineer workforce, while
33 strategically utilizing private sector involvement to ensure
34 consistency with the department's business plan for staffing in the
35 highway construction program in the current fiscal biennium.

36 (~~((+16+))~~) (15) If a planned roundabout in the vicinity of state
37 route number 526 and 84th Street SW would divert commercial traffic
38 onto neighborhood streets, the department may not proceed with

1 improvements at state route number 526 and 84th Street SW until the
2 traffic impacts in the vicinity of state route number 526 and 40th
3 Avenue West are addressed.

4 ~~((+17))~~ (16) The legislature finds that there are sixteen
5 companies involved in wood preserving in the state that employ four
6 hundred workers and have an annual payroll of fifteen million dollars.
7 Prior to the department's switch to steel guardrails, ninety percent of
8 the twenty-five hundred mile guardrail system was constructed of
9 preserved wood and one hundred ten thousand wood guardrail posts were
10 produced annually for state use. Moreover, the policy of using steel
11 posts requires the state to use imported steel. Given these findings,
12 where practicable, and until June 30, 2015, the department shall
13 include the design option to use wood guardrail posts, in addition to
14 steel posts, in new guardrail installations. The selection of posts
15 must be consistent with the agency design manual policy that existed
16 before December 2009.

17 ~~((+18))~~ (17) The legislature finds that "right-sizing" is a lean,
18 metric-based approach to determining project investments. This concept
19 entails compromise between project cost and design, incorporating local
20 community needs, desired outcomes, and available funding. Furthermore,
21 the legislature finds that the concepts and principles the department
22 has utilized in the safety analyst program have been effective tools to
23 prioritize projects and reduce project costs. Therefore, the
24 department shall establish a pilot project on the SR 3/Belfair Bypass
25 - New Alignment (300344C) to begin implementing the concept of
26 "right-sizing" in the highway construction program.

27 ~~((+19))~~ (18) For urban corridors that are all or partially within
28 a metropolitan planning organization boundary, for which the department
29 has not initiated environmental review, and that require an
30 environmental impact statement, at least one alternative must be
31 consistent with the goals set out in RCW 47.01.440.

32 ~~((+20))~~ (19) The department shall itemize all future requests for
33 the construction of buildings on a project list and submit them through
34 the transportation executive information system as part of the
35 department's 2014 budget submittal. It is the intent of the
36 legislature that new facility construction must be transparent and not
37 appropriated within larger highway construction projects.

1 (~~(21)~~ \$28,963,000) (20) \$19,513,000 of the motor vehicle
2 account--state appropriation and \$9,450,000 of the motor vehicle
3 account--federal appropriation is provided solely for improvement
4 program support activities (095901X). \$18,000,000 of (~~this amount~~)
5 these amounts must be held in unallotted status until the office of
6 financial management certifies that the department's 2014 supplemental
7 budget request conforms to the terms of subsection (~~(20)~~) (19) of
8 this section.

9 (~~(23)~~) (21) Any new advisory group that the department convenes
10 during the 2013-2015 fiscal biennium must be representative of the
11 interests of the entire state of Washington.

12 (22) Practical design offers targeted benefits to a state
13 transportation system within available fiscal resources. This delivers
14 value not just for individual projects, but for the entire system.
15 Applying practical design standards will also preserve and enhance
16 safety and mobility. The department shall implement a practical design
17 strategy for transportation design standards. By June 30, 2015, the
18 department shall report to the governor and the house of
19 representatives and senate transportation committees on where practical
20 design has been applied or is intended to be applied in the department
21 and the cost savings resulting from the use of practical design.

11 traffic areas and report back to the legislature on its current use in
12 other areas of the country and any characteristics that can provide
13 greater wear resistance and skid resistance in new pavement
14 construction.

14 agencies, including institutions of higher education, are sufficient to
15 continue the provisions of the 2011-2013 collective bargaining
16 agreement. An agreement was reached between the governor and the
17 health care super coalition under chapter 41.80 RCW for fiscal year
18 2015. The agreement includes employer contributions to premiums at
19 eighty-five percent of the total weighted average of the projected

29 (b) In order to achieve the level of funding provided for health
30 benefits, the public employees' benefits board must require any of the
31 following: Employee premium copayments; increases in point-of-service

33 changes to benefits consistent with the collective bargaining agreement
34 and RCW 41.05.065.

1 **IMPLEMENTING PROVISIONS**

2 **Sec. 601.** 2013 c 306 s 603 (uncodified) is amended to read as
3 follows:

4 **FUND TRANSFERS**

5 (1) The transportation 2003 projects or improvements and the 2005
6 transportation partnership projects or improvements are listed in the
7 ((LEAP)) TEIS list titled ((2013-1)) 14GOV001 as developed ((April-23))
8 December 17, 2013, which consists of a list of specific projects by
9 fund source and amount over a ten-year period. Current fiscal biennium
10 funding for each project is a line-item appropriation, while the outer
11 year funding allocations represent a ten-year plan. The department is
12 expected to use the flexibility provided in this section to assist in
13 the delivery and completion of all transportation partnership account
14 and transportation 2003 account (nickel account) projects on the
15 ((LEAP)) TEIS transportation documents referenced in this act.
16 However, this section does not apply to the I-5/Columbia River Crossing
17 project (400506A). For the 2011-2013 and 2013-2015 project
18 appropriations, unless otherwise provided in this act, the director of
19 financial management may authorize a transfer of appropriation
20 authority between projects funded with transportation 2003 account
21 (nickel account) appropriations, or transportation partnership account
22 appropriations, in order to manage project spending and efficiently
23 deliver all projects in the respective program under the following
24 conditions and limitations:

25 (a) Transfers may only be made within each specific fund source
26 referenced on the respective project list;

27 (b) Transfers from a project may not be made as a result of the
28 reduction of the scope of a project or be made to support increases in
29 the scope of a project;

30 (c) Each transfer between projects may only occur if the director
31 of financial management finds that any resulting change will not hinder
32 the completion of the projects as approved by the legislature. Until
33 the legislature reconvenes to consider the 2014 supplemental omnibus
34 transportation appropriations act, any unexpended 2011-2013
35 appropriation balance as approved by the office of financial
36 management, in consultation with the legislative staff of the house of
37 representatives and senate transportation committees, may be considered
38 when transferring funds between projects;

1 (d) Transfers from a project may be made if the funds appropriated
2 to the project are in excess of the amount needed to complete the
3 project;

4 (e) Transfers may not occur for projects not identified on the
5 applicable project list;

6 (f) Transfers may not be made while the legislature is in session;
7 and

8 (g) Transfers between projects may be made, without the approval of
9 the director of the office of financial management, by the department
10 of transportation until the transfer amount by project exceeds two
11 hundred fifty thousand dollars, or ten percent of the total project,
12 whichever is less. These transfers must be reported quarterly to the
13 director of financial management and the chairs of the house of
14 representatives and senate transportation committees.

15 (2) At the time the department submits a request to transfer funds
16 under this section, a copy of the request must be submitted to the
17 transportation committees of the legislature.

18 (3) The office of financial management shall work with legislative
19 staff of the house of representatives and senate transportation
20 committees to review the requested transfers in a timely manner.

21 (4) The office of financial management shall document approved
22 transfers and schedule changes in the transportation executive
23 information system, compare changes to the legislative baseline funding
24 and schedules identified by project identification number identified in
25 the LEAP transportation documents referenced in this act, and transmit
26 revised project lists to chairs of the transportation committees of the
27 legislature on a quarterly basis.

28 **MISCELLANEOUS 2013-2015 FISCAL BIENNIUM**

29 **Sec. 701.** RCW 46.63.160 and 2013 c 226 s 1 are each amended to
30 read as follows:

31 (1) This section applies only to civil penalties for nonpayment of
32 tolls detected through use of photo toll systems.

33 (2) Nothing in this section prohibits a law enforcement officer
34 from issuing a notice of traffic infraction to a person in control of

1 a vehicle at the time a violation occurs under RCW 46.63.030(1) (a),
2 (b), or (c).

3 (3) A notice of civil penalty may be issued by the department of
4 transportation when a toll is assessed through use of a photo toll
5 system and the toll is not paid by the toll payment due date, which is
6 eighty days from the date the vehicle uses the toll facility and incurs
7 the toll charge.

8 (4) Any registered owner or renter of a vehicle traveling upon a
9 toll facility operated under chapter 47.56 or 47.46 RCW is subject to
10 a civil penalty governed by the administrative procedures set forth in
11 this section when the vehicle incurs a toll charge and the toll is not
12 paid by the toll payment due date, which is eighty days from the date
13 the vehicle uses the toll facility and incurs the toll charge.

14 (5)(a) Consistent with chapter 34.05 RCW, the department of
15 transportation shall develop an administrative adjudication process to
16 review appeals of civil penalties issued by the department of
17 transportation for toll nonpayment detected through the use of a photo
18 toll system under this section. The department of transportation shall
19 submit to the transportation committees of the legislature an annual
20 report on the number of times adjudicators reduce or dismiss the civil
21 penalty as provided in (b) of this subsection and the total amount of
22 the civil penalties dismissed. The report must be submitted by
23 December 1st of each year.

24 (b) During the adjudication process, the alleged violator must have
25 an opportunity to explain mitigating circumstances. Hospitalization,
26 a divorce decree or legal separation agreement resulting in a transfer
27 of the vehicle, an active duty member of the military or national guard
28 covered by the federal service members civil relief act, 50 U.S.C. Sec.
29 501 et seq., or state service members' civil relief act, chapter 38.42
30 RCW, eviction, homelessness, the death of the alleged violator or of an
31 immediate family member, or if the alleged violator did not receive a
32 toll charge bill or notice of civil penalty are valid mitigating
33 circumstances. All of these reasons that constitute mitigating
34 circumstances must occur within a reasonable time of the alleged toll
35 violation. In response to these circumstances, the adjudicator may
36 reduce or dismiss the civil penalty.

37 (6) The use of a photo toll system is subject to the following
38 requirements:

1 (a) Photo toll systems may take photographs, digital photographs,
2 microphotographs, videotapes, or other recorded images of the vehicle
3 and vehicle license plate only.

4 (b) A notice of civil penalty must include with it a certificate or
5 facsimile thereof, based upon inspection of photographs,
6 microphotographs, videotape, or other recorded images produced by a
7 photo toll system, stating the facts supporting the notice of civil
8 penalty. This certificate or facsimile is prima facie evidence of the
9 facts contained in it and is admissible in a proceeding established
10 under subsection (5) of this section. The photographs, digital
11 photographs, microphotographs, videotape, or other recorded images
12 evidencing the toll nonpayment civil penalty must be available for
13 inspection and admission into evidence in a proceeding to adjudicate
14 the liability for the civil penalty.

15 (c) Notwithstanding any other provision of law, all photographs,
16 digital photographs, microphotographs, videotape, other recorded
17 images, or other records identifying a specific instance of travel
18 prepared under this section are for the exclusive use of the tolling
19 agency for toll collection and enforcement purposes and are not open to
20 the public and may not be used in a court in a pending action or
21 proceeding unless the action or proceeding relates to a civil penalty
22 under this section. No photograph, digital photograph,
23 microphotograph, videotape, other recorded image, or other record
24 identifying a specific instance of travel may be used for any purpose
25 other than toll collection or enforcement of civil penalties under this
26 section. Records identifying a specific instance of travel by a
27 specific person or vehicle must be retained only as required to ensure
28 payment and enforcement of tolls and to comply with state records
29 retention policies.

30 (d) All locations where a photo toll system is used must be clearly
31 marked by placing signs in locations that clearly indicate to a driver
32 that he or she is entering a zone where tolls are assessed and enforced
33 by a photo toll system.

34 (e) Within existing resources, the department of transportation
35 shall conduct education and outreach efforts at least six months prior
36 to activating an all-electronic photo toll system. Methods of outreach
37 shall include a department presence at community meetings in the
38 vicinity of a toll facility, signage, and information published in

1 local media. Information provided shall include notice of when all
2 electronic photo tolling shall begin and methods of payment.
3 Additionally, the department shall provide quarterly reporting on
4 education and outreach efforts and other data related to the issuance
5 of civil penalties.

6 (f) The envelope containing a toll charge bill or related notice
7 issued pursuant to RCW 47.46.105 or 47.56.795, or a notice of civil
8 penalty issued under this section, must prominently indicate that the
9 contents are time sensitive and related to a toll violation.

10 (7) Civil penalties for toll nonpayment detected through the use of
11 photo toll systems must be issued to the registered owner of the
12 vehicle identified by the photo toll system, but are not part of the
13 registered owner's driving record under RCW 46.52.101 and 46.52.120.

14 (8) The civil penalty for toll nonpayment detected through the use
15 of a photo toll system is forty dollars plus the photo toll and
16 associated fees.

17 (9) Except as provided otherwise in this subsection, all civil
18 penalties, including the photo toll and associated fees, collected
19 under this section must be deposited into the toll facility account of
20 the facility on which the toll was assessed. However, through June 30,
21 ((2013)) 2015, civil penalties deposited into the Tacoma Narrows toll
22 bridge account created under RCW 47.56.165 that are in excess of
23 amounts necessary to support the toll adjudication process applicable
24 to toll collection on the Tacoma Narrows bridge must first be allocated
25 toward repayment of operating loans and reserve payments provided to
26 the account from the motor vehicle account under section 1005(15),
27 chapter 518, Laws of 2007. Additionally, all civil penalties,
28 resulting from nonpayment of tolls on the state route number 520
29 corridor, shall be deposited into the state route number 520 civil
30 penalties account created under section 4, chapter 248, Laws of 2010
31 but only if chapter 248, Laws of 2010 is enacted by June 30, 2010.

32 (10) If the registered owner of the vehicle is a rental car
33 business, the department of transportation shall, before a toll bill is
34 issued, provide a written notice to the rental car business that a toll
35 bill may be issued to the rental car business if the rental car
36 business does not, within thirty days of the mailing of the written
37 notice, provide to the issuing agency by return mail:

1 (a) A statement under oath stating the name and known mailing
2 address of the individual driving or renting the vehicle when the toll
3 was assessed; or

4 (b) A statement under oath that the business is unable to determine
5 who was driving or renting the vehicle at the time the toll was
6 assessed because the vehicle was stolen at the time the toll was
7 assessed. A statement provided under this subsection must be
8 accompanied by a copy of a filed police report regarding the vehicle
9 theft; or

10 (c) In lieu of identifying the vehicle operator, the rental car
11 business may pay the applicable toll and fee.

12 Timely mailing of this statement to the issuing agency relieves a
13 rental car business of any liability under this section for the payment
14 of the toll.

15 (11) Consistent with chapter 34.05 RCW, the department of
16 transportation shall develop rules to implement this section.

17 (12) For the purposes of this section, "photo toll system" means
18 the system defined in RCW 47.56.010 and 47.46.020.

19 **Sec. 702.** RCW 47.28.030 and 2011 c 367 s 710 are each amended to
20 read as follows:

21 (1)(a) A state highway shall be constructed, altered, repaired, or
22 improved, and improvements located on property acquired for
23 right-of-way purposes may be repaired or renovated pending the use of
24 such right-of-way for highway purposes, by contract or state forces.
25 The work or portions thereof may be done by state forces when the
26 estimated costs thereof are less than fifty thousand dollars and
27 effective July 1, 2005, sixty thousand dollars.

28 (b) When delay of performance of such work would jeopardize a state
29 highway or constitute a danger to the traveling public, the work may be
30 done by state forces when the estimated cost thereof is less than
31 eighty thousand dollars and effective July 1, 2005, one hundred
32 thousand dollars.

33 (c) When the department of transportation determines to do the work
34 by state forces, it shall enter a statement upon its records to that
35 effect, stating the reasons therefor.

36 (d) To enable a larger number of small businesses and veteran,
37 minority, and women contractors to effectively compete for department

1 of transportation contracts, the department may adopt rules providing
2 for bids and award of contracts for the performance of work, or
3 furnishing equipment, materials, supplies, or operating services
4 whenever any work is to be performed and the engineer's estimate
5 indicates the cost of the work would not exceed eighty thousand dollars
6 and effective July 1, 2005, one hundred thousand dollars.

7 (2) The rules adopted under this section:

8 (a) Shall provide for competitive bids to the extent that
9 competitive sources are available except when delay of performance
10 would jeopardize life or property or inconvenience the traveling
11 public; and

12 (b) Need not require the furnishing of a bid deposit nor a
13 performance bond, but if a performance bond is not required then
14 progress payments to the contractor may be required to be made based on
15 submittal of paid invoices to substantiate proof that disbursements
16 have been made to laborers, material suppliers, mechanics, and
17 subcontractors from the previous partial payment; and

18 (c) May establish prequalification standards and procedures as an
19 alternative to those set forth in RCW 47.28.070, but the
20 prequalification standards and procedures under RCW 47.28.070 shall
21 always be sufficient.

22 (3) The department of transportation shall comply with such goals
23 and rules as may be adopted by the office of minority and women's
24 business enterprises to implement chapter 39.19 RCW with respect to
25 contracts entered into under this chapter. The department may adopt
26 such rules as may be necessary to comply with the rules adopted by the
27 office of minority and women's business enterprises under chapter 39.19
28 RCW.

29 (4)(a) For the period of March (~~(15, 2010)~~) 1, 2014, through June
30 30, (~~(2013)~~) 2015, work for less than (~~(one)~~) two hundred (~~(twenty)~~)
31 thousand dollars may be performed on ferry vessels and terminals by
32 state forces.

33 (b) The department shall hire a disinterested, third party to
34 conduct an independent analysis to identify methods of reducing out-of-
35 service times for vessel maintenance, preservation, and improvement
36 projects. The analysis must include options that consider
37 consolidating work while vessels are at shipyards by having state
38 forces perform services traditionally performed at Eagle Harbor at the

1 shipyard and decreasing the allowable time at shipyards. The analysis
2 must also compare the out-of-service vessel times of performing
3 services by state forces versus contracting out those services which in
4 turn must be used to form a recommendation as to what the threshold of
5 work performed on ferry vessels and terminals by state forces should
6 be. This analysis must be presented to the transportation committees
7 of the senate and house of representatives by December 1, 2010.

8 (c) The department shall develop a proposed ferry vessel
9 maintenance, preservation, and improvement program and present it to
10 the transportation committees of the senate and house of
11 representatives by December 1, 2010. The proposed program must:

12 (i) Improve the basis for budgeting vessel maintenance,
13 preservation, and improvement costs and for projecting those costs into
14 a sixteen-year financial plan;

15 (ii) Limit the amount of planned out-of-service time to the
16 greatest extent possible, including options associated with department
17 staff as well as commercial shipyards; and

18 (iii) Be based on the service plan in the capital plan, recognizing
19 that vessel preservation and improvement needs may vary by route.

20 (d) In developing the proposed ferry vessel maintenance,
21 preservation, and improvement program, the department shall consider
22 the following, related to reducing vessel out-of-service time:

23 (i) The costs compared to benefits of Eagle Harbor repair and
24 maintenance facility operations options to include staffing costs and
25 benefits in terms of reduced out-of-service time;

26 (ii) The maintenance requirements for on-vessel staff, including
27 the benefits of a systemwide standard;

28 (iii) The costs compared to benefits of staff performing
29 preservation or maintenance work, or both, while the vessel is
30 underway, tied up between sailings, or not deployed;

31 (iv) A review of the department's vessel maintenance, preservation,
32 and improvement program contracting process and contractual
33 requirements;

34 (v) The costs compared to benefits of allowing for increased costs
35 associated with expedited delivery;

36 (vi) A method for comparing the anticipated out-of-service time of
37 proposed projects and other projects planned during the same
38 construction period;

1 (vii) Coordination with required United States coast guard dry
2 dockings;

3 (viii) A method for comparing how proposed projects relate to the
4 service requirements of the route on which the vessel normally
5 operates; and

6 (ix) A method for evaluating the ongoing maintenance and
7 preservation costs associated with proposed improvement projects.

8 **Sec. 703.** RCW 47.64.360 and 2011 1st sp.s. c 16 s 12 are each
9 amended to read as follows:

10 (1) The office of financial management shall complete a government
11 management and accountability performance report that provides a
12 baseline assessment of current performance on the performance measures
13 identified in RCW 47.64.355 (~~and section 11 of this act~~) using final
14 2009-2011 data. This report must be presented to the legislature by
15 November 1, 2011, through the attainment report required in RCW
16 47.01.071(5) and 47.04.280.

17 (2) Except as required in subsection (4) of this section, by
18 December 31, 2012, and each year thereafter, the office of financial
19 management shall complete a performance report for the prior fiscal
20 year. This report must be reviewed by the joint transportation
21 committee.

22 (3) Management shall lead implementation of the performance
23 measures in RCW 47.64.355 (~~and section 11 of this act~~).

24 (4) The department of transportation shall complete the performance
25 report due December 31, 2014, as required under subsection (2) of this
