

HB 1990 - DIGEST

Changes the requirements of the department of transportation when issuing a request for proposals regarding the procurement of vessels.

Requires the department of transportation to obtain at least three bids on any contract offered for the construction of a new ferry vessel or for substantial alterations of an existing ferry vessel.

Repeals RCW 47.56.780 relating to new ferry vessel construction for service on routes that require a vessel that carries no more than one hundred motor vehicles.
