

**HB 2175-S - DIGEST**

(DIGEST AS ENACTED)

Authorizes local governments, for small cell networks involving multiple individual small cell facilities, to allow an applicant to file a consolidated application and receive a single permit for the small cell network in a single jurisdiction instead of filing separate applications for each individual small cell facility.

Limits the authority of cities and towns to charge personal wireless service providers for the use of a right-of-way in installing certain personal wireless services replacement structures when the replacement structure is higher than the replaced structure.
