

**HB 2782 - DIGEST**

Requires the joint transportation committee to: (1) Convene a work group to study the use of personal transportation services, including for-hire vehicles, taxicabs, limousines, and mobile application-based personal transportation services;

(2) Work with the department of licensing, the office of the insurance commissioner, and the employment security department to determine how they currently regulate personal transportation services and how they may play a role in any future regulatory framework;

(3) Work with stakeholders representing owners, operators, and users of personal transportation services, mobile application technology developers, and local authorities; and

(4) Study the industry of providing transportation for compensation.
