

SB 5836-S - DIGEST

(DIGEST OF PROPOSED 1ST SUBSTITUTE)

Authorizes the use of permit-exempt wells by a city, town, or county legislative authority to satisfy certain requirements for the appropriate provision of potable water to a subdivision as long as the use is consistent with applicable rules adopted by the department of ecology for the specific basin or subbasin.

Authorizes an applicant for a building permit to demonstrate that the use of water from a permit-exempt well is consistent with certain department of ecology rules.
