

SB 6577 - DIGEST

Addresses transportation revenue relating to: (1) Additional and cumulative tax rates on certain motor vehicle and special fuel taxes;

(2) Increasing and/or establishing certain motor vehicle fees; and

(3) Local revenue options.

Creates a Washington electric vehicle infrastructure bank to provide financial assistance for the installation of publicly accessible electric vehicle charging stations within the state.

Creates the connecting Washington account.

Declares it is the strong intent of the legislature that the governor not adopt a low-carbon fuel standard by executive order or through the agency rule-making process.

Provides a contingent effective date.
