1 On page 4, line 18, after "(3)" insert "Prior to a county's
2 approval of a group B public water system where raw groundwater does
3 not meet water quality standards under this section, the group B
4 public water system must review alternate sources of water and share
5 that review with its owners and the county. The alternative sources
6 that a group B public water system should consider includes, but is
7 not limited to, rainwater collection, truck and storage systems, or
8 other nontraditional conveyance methods. The county legislative
9 authority may require that a group B public water system treat any
10 alternative water sources that it relies upon.
