

ESB 6166 - H AMD 933

By Representative Riccelli

WITHDRAWN 03/04/2016

1 On page 5, after line 27, insert the following:

2 "NEW SECTION. Sec. 3. A new section is added to chapter 19.285
3 RCW to read as follows:

4 In addition to the resources included in the definition of
5 eligible resource under RCW 19.285.030(12), the following resource
6 shall be considered an eligible renewable resource for the purposes of
7 this chapter:

8 (1) Incremental electricity produced as a result of a capital
9 investment completed after March 31, 1999, that increases, relative to
10 a baseline level of generation prior to the capital investment, the
11 amount of electricity generated in a generation facility, which
12 commences operation after September 1, 1991, that is powered by the
13 combustion of solid waste in a municipally owned energy recovery
14 facility located on a business park owned and operated under the
15 provisions of chapter 14.08 RCW, when: (A) The facility's air
16 emissions do not exceed permitted levels established under RCW
17 70.94.161; (B) periodic monitoring includes third-party verification
18 documenting total polychlorinated biphenyl air emissions not exceeding
19 a level that could contribute to increased polychlorinated biphenyl
20 levels in local water bodies; and (C) the facility can demonstrate
21 through direct or calculated measurement that the incremental
22 electricity resulted from the capital investment, which does not
23 include expenditures on operation and maintenance in the normal course
24 of business.

25 (2) For the purposes of this section, "energy recovery" has the
26 same meaning as defined in RCW 70.95.030 and "solid waste" has the
27 same meaning as defined in RCW 70.95.030."

1

Correct the title.

EFFECT: Establishes as an eligible renewable resource for the purposes of the Energy Independence Act incremental electricity produced as a result of a capital investment completed after March 31, 1999, in a generation facility, which commences operation after September 1, 1991, that is powered by the combustion of solid waste in a municipally owned energy recovery facility located on a business park, under certain conditions.
