EFFECT: (1) The nonexclusive list of actions which an outpatient mental health provider may take to increase the intensity of outpatient services for a person who is not complying with a less restrictive alternative (LRA) order is modified to remove references to monitored medication administration and injectable medication.

(2) Temporary detention for an evaluation to determine whether modification or revocation of an LRA order or initiation of commitment proceedings is appropriate may only occur when it is appropriate in the clinical judgment of a designated mental health professional or the professional person in charge of the agency or facility designated to monitor LRA services.

(3) The definition of care coordinator is modified to remove the requirement that the care coordinator provide individual supportive therapy to the individual and other specified services to the individual and his or her family and support system.
