HB 1269

Brief Description: Extending the dairy inspection program assessment expiration date.

Sponsors: Representatives Buys and Van Werven.

Brief Summary of Bill

- Extends the expiration date for the dairy inspection program assessment from June 30, 2015 to June 30, 2020.

Hearing Date: 2/4/15

Staff: Peter Clodfelter (786-7127).

Background:

"Grade A" Interstate Pasteurized Milk Ordinance.

The assessment levied on milk processors supports an inspection program to maintain compliance with the "Grade A" Interstate Pasteurized Milk Ordinance (PMO) published by the United States Public Health Service, United States Department of Health and Human Services, and the United States Food and Drug Administration. The PMO is the national standard for milk sanitation, and it requires milk processing plants to be inspected at least once every three months. Complying with the PMO allows milk to move without restriction in interstate commerce.

Milk Processing Assessment.

Assessments are levied on the first milk processing plant that receives milk for processing. The assessment is paid to a dairy inspection account under the Agricultural Local Fund, and the funds are used for dairy inspection services under the Washington State Department of Agriculture's food safety program. The assessment may not exceed 54 one-hundredths of 1 cent per hundredweight.

This analysis was prepared by non-partisan legislative staff for the use of legislative members in their deliberations. This analysis is not a part of the legislation nor does it constitute a statement of legislative intent.

The assessment expires on June 30, 2015.

Summary of Bill:

The expiration date for the dairy inspection program assessment is extended from June 30, 2015 to June 30, 2020.

Appropriation: None.

Fiscal Note: Available.

Effective Date: The bill takes effect 90 days after adjournment of the session in which the bill is passed.
