Background:

A pharmacy assistant is a person registered by the Pharmacy Quality Assurance Commission (Commission) to perform limited functions in a pharmacy. Pharmacy assistants may perform, under the supervision of a licensed pharmacist, duties including, but not limited to, typing of prescription labels, filing, refiling, bookkeeping, pricing, stocking, delivery, nonprofessional phone inquiries, and documentation of third-party reimbursements.

Pharmacy assistants may also prepackage and label drugs for subsequent use in prescription dispensing operations and count, pour, and label for individual prescriptions. Pharmacy assistants are required, in rule, to be registered with the Commission. The fee for registration of pharmacy assistants is included in the fee the pharmacy pays to utilize pharmacy ancillary personnel.

The Uniform Disciplinary Act governs the issuance and denial of certificates and discipline of certificants under provisions related to pharmacy ancillary personnel. The Commission may take disciplinary action against the certificate of any pharmacy technician upon proof of certain actions.

Staff Summary of Public Testimony:

(In support) There has been a significant expansion in the number of pharmacy assistants since 2001; there are now over 10,000 pharmacy assistants registered with the Department of Health. Fee of registration is not covered by the pharmacy ancillary fee. Initially the fees were being borne by other pharmacy professions; because of the increase in regulation and disciplinary action, it is important to establish a separate registration fee for pharmacy assistants. The fee will be set in rule and the estimate is that it will be \$35 for an initial registration and \$25 for annual renewal. This bill will allow other pharmacy professionals to not have to pay for the registration of pharmacy assistants.

(Opposed) None.

Persons Testifying: Senator Jayapal, prime sponsor; and Drew Bouton, Washington State Department of Health.
